STAMFORD, CT. April 23, 2012 – Hexcel Corporation (NYSE: HXL), today reported results for the first quarter of 2012. Net sales during the quarter were \$400.1 million, 20.7% higher than the \$331.6 million reported for the first quarter of 2011. Operating income for the period was \$60.6 million, compared to \$47.2 million last year. Net income for the first quarter of 2012 was \$39.6 million, or \$0.39 per diluted share, compared to \$26.4 million or \$0.26 per diluted share in 2011. Excluding the impact of items in Table C, adjusted diluted net income for the first quarter of 2011 was \$0.25 per share.

Chief Executive Officer Comments

Mr. Berges commented, "This was another strong quarter for Hexcel, as solid execution combined with increased sales delivered excellent results. For the quarter, our adjusted diluted EPS of \$0.39 was 56% higher than last year, on a 22% increase in constant currency sales, as we achieved \$400 million in sales. We are also particularly pleased that our operating income exceeded 15% of net sales. Revenues from the commercial aerospace market, now 60% of our total sales, grew 23% this quarter compared to the prior year. We continue to focus on leveraging our additional sales to higher margins, even as we prudently add people and infrastructure to support current and anticipated future growth."

Looking ahead, Mr. Berges said "2012 has gotten off to a very strong start. Our capital expansion program continues on our accelerated schedule, as we add capacity to meet surging demand. Based on our current market outlook and first quarter results, we are increasing 2012 adjusted diluted EPS guidance to \$1.45 - \$1.55 (from \$1.33 - \$1.45). We are also raising our sales guidance for the year to \$1.55 billion - \$1.65 billion (from \$1.5 billion - \$1.6 billion)."

<u>Markets</u>

Commercial Aerospace

- Commercial Aerospace sales of \$242.3 million increased 22.6% (23.7% in constant currency) for the quarter as compared to the first quarter of 2011. Revenues attributed to new aircraft programs (A380, A350, B787, B747-8) increased more than 20% versus the same period last year and continue to comprise more than 25% of Commercial Aerospace sales. Airbus and Boeing legacy aircraft related sales for the quarter were up over 20% compared to 2011, as we experience increasing demand related to line-rate increases.
- Sales to "Other Commercial Aerospace," which include regional and business aircraft customers, increased more than 15% for the first quarter compared to 2011, and were up modestly on a sequential basis.

Space & Defense

• Space & Defense sales of \$84.9 million were 6.5% higher (7.5% in constant currency) than the first quarter of 2011. Rotorcraft sales accounted for all of the growth, led by strong sales in Europe and Asia Pacific.

Industrial

• Total Industrial sales of \$72.9 million for the first quarter of 2011 were 34.3% higher (37.3% in constant currency) than the first quarter of 2011. Wind sales have now grown sequentially for the last five quarters and have reached our expected run rate for the balance of the year.

Operations

- Strong sales volume and the continued improvement in operating performance resulted in gross margin of 26.6% of net sales for the quarter, as compared to 25.0% in the first quarter of 2011. Selling, general and administrative and Research and technology expenses in the first quarter of 2012 were 10.4% higher than the comparable 2011 period due to higher variable compensation expenses and the addition of infrastructure and related staffing to support our growth.
- Adjusted operating income in the 2012 first quarter was \$60.6 million or 15.1% of sales as compared to \$41.5 million or 12.5% of sales in 2011. Foreign exchange rates contributed almost

50 basis points to the higher gross margin and operating income percentages in the first quarter of 2012 as compared to 2011.

Cash and other

- Free cash flow for the first quarter of 2012 was a use of \$61 million versus a use of \$19 million in 2011. While seasonal effects typically cause cash usage in the first quarter, this period was further impacted by outlays for our capital expansion program as well as the working capital required for the \$45 million sequential sales growth. Cash used for capital expenditures was \$83 million in the first quarter of 2012 as compared to \$36 million in 2011. We expect free cash flow to be a modest use in the second quarter followed by an offsetting source in the second half of 2012, so that it ends the year at around the same level as the first quarter usage. Free cash flow is defined as cash provided from operating activities less cash paid for capital expenditures.
- Total debt, net of cash as of March 31, 2012 was \$260.6 million, an increase of \$59.2 million from December 31, 2011. As of March 31, 2012 we had \$195 million in available borrowing capacity and cash on hand.

2012 Outlook

We have updated our 2012 outlook:

- Sales to be in the range of \$1.55 to \$1.65 billion; previously it was \$1.5 to \$1.6 billion.
- Adjusted diluted earnings per share to be in the range of \$1.45 to \$1.55; previously it was \$1.33 to \$1.45.
- Accrual basis capital expenditures remain in the range of \$250 to \$275 million. We expect our capital spending to be funded by our cash from operating activities and our existing credit facilities. We expect free cash flow for the year to be in the range of a use of \$50 \$75 million.

Hexcel will host a conference call at 10:00 A.M. ET, tomorrow, April 24, 2012 to discuss the first quarter results and respond to analyst questions. The telephone number for the conference call is (785) 830-1997 and the confirmation code is 5154822. The call will be simultaneously hosted on Hexcel's web site at <u>www.hexcel.com/investors/index.html</u>. Replays of the call will be available on the web site for approximately three days.

* * * * *

Hexcel Corporation is a leading advanced composites company. It develops, manufactures and markets lightweight, high-performance structural materials, including carbon fibers, reinforcements, prepregs, honeycomb, matrix systems, adhesives and composite structures, used in commercial aerospace, space and defense and industrial applications such as wind turbine blades.

Disclaimer on Forward Looking Statements

This press release contains statements that are forward looking, including statements relating to anticipated trends in constant currency for the market segments we serve (including changes in commercial aerospace revenues, the estimates and expectations based on aircraft production rates made publicly available by Airbus and Boeing, the revenues we may generate from an aircraft model or program, the impact of delays in new aircraft programs, the outlook for space & defense revenues and the trend in wind energy and other industrial applications); our ability to maintain and improve margins in light of the changes in product mix, efficiency improvements, continued cost reduction efforts and the current economic environment; outcome of legal matters; the magnitude and timing of capital expenditures in relation to market demand; and the impact of the above factors on our expectations of 2012 financial results. Actual results may differ materially from the results anticipated in the forward looking statements due to a variety of factors, including but not limited to changing market conditions, increased raw material costs, competition, product mix, inability to achieve planned manufacturing improvements and cost reductions, supply chain disruptions, conditions in the financial markets and changes in currency exchange rates, interest rates, governmental and environmental regulations and tax codes. Additional risk factors are described in our filings with the SEC. We do not undertake an obligation to update our forward-looking statements to reflect future events.

(a) To assist in the analysis of our net sales trend, total net sales and sales by market for the quarter and year ended December 31, 2011 have been estimated using the same U.S. dollar, British pound and Euro exchange rates as applied for the respective period in 2012 and are referred to as "constant currency" sales.

(b) FX effect is the estimated impact on "as reported" net sales due to changes in foreign currency exchange rates.

		Quarter Ended							
		March 31	1,						
(In millions)	20	12	2011						
GAAP operating income	\$	60.6 \$	47.2						
- Other operating income (a)		_	(5.7)						
Adjusted Operating Income	\$	60.6 \$	41.5						
% of Net Sales	15	.1%	12.5%						
- Stock Compensation Expense	\$	7.5 \$	6.4						
- Depreciation and Amortization		14.0	14.1						
Adjusted EBITDA	\$	82.1 \$	62.0						

	Unaudited Quarter Ended March 31,									
			2011							
(In millions, except per diluted share data)	As R	As Reported El		EPS	As R	Reported	EPS			
GAAP net income	\$	39.6	\$	0.39	\$	26.4	\$ 0.26			
- Other operating income (net of tax) (a)		_		_		(4.1)	(0.04)			
- Other non-operating expense (net of tax) (b)		_		_		3.0	0.03			
Adjusted net income	\$	39.6	\$	0.39	\$	25.3	\$ 0.25			

(a) Other operating income for the quarter ended March 31, 2011 includes a \$5.7 million benefit from the curtailment of a pension plan.

(b) Non-operating expense for the quarter ended March 31, 2011 is the accelerated amortization of deferred financing costs and expensing of the call premium from redeeming \$150 million of 6.75% senior subordinated notes.

Management believes that adjusted operating income, adjusted EBITDA, adjusted net income and free cash flow (defined as cash provided by operating activities less cash payments for capital expenditures), which are non-GAAP measurements, are meaningful to investors because they provide a view of Hexcel with respect to ongoing operating results excluding special items. Special items represent significant charges or credits that are important to an understanding of Hexcel's overall operating results in the periods presented. In addition, management believes that total debt, net of cash, which is also a non-GAAP measure, is an important measure of Hexcel's liquidity. Such non-GAAP measurements are not recognized in accordance with generally accepted accounting principles and should not be viewed as an alternative to GAAP measures of performance.
