Paris, October 15, 2012 -Through June 30, 2012, the Group's Upstream and SupplyMarketing segments were defined as follows:

- Upstream included the Exploration and Production of hydrocarbons as well as the activities of Gas and New Energies ;
- Supply-Marketing included the Group's worldwide businesses of supplying and marketing petroleum products.

In November, 2011, the Group launched a study on the organization of the business activities of Gas and New Energies. Following the information-consultation procedure concerning affected personnel, this reorganization became effective on July 1, 2012, and the Group's Upstream and Supply-Marketing segments are now defined as follows:

- Upstream includes the Exploration and Production of hydrocarbons as well as the activities of Gas \& Power ;
- Supply-Marketing includes the Group's worldwide businesses of supplying and marketing petroleum products as well as the activities of New Energies.

As a result, information by business segment for certain periods has been restated according to this new and current organization as of July 1, 2012. For informational purposes, an extract of annual restated business segment information for 2010 and 2011 and quarterly restated business segment information for 2011 and 2012 regarding the Upstream and Supply-Marketing segments is provided in the following pages.
