THE AGGREGATION APPROACH

Pursuant to Rule 14A.25 of the Listing Rules, the continuing connected transactions under the 2013 Raw Materials Supply Contracts are required to be aggregated, as they were/will be entered into by the Group with the associates of the same connected persons or with parties connected or otherwise associated with one another, and the subject matter of each of the contracts relates to the supply of raw materials by the Group.

The annual aggregate transaction amount payable under the 2013 Raw Materials Supply Contracts is estimated to be up to approximately USD11.09 million for the year ending 31 December 2013.

The annual aggregate amounts are estimated by Directors based on the maximum amount of consideration payable under the terms of the 2013 Raw Materials Supply Contracts.

REASONS FOR AND BENEFITS OF THE TRANSACTIONS

The entry into of the 2013 Raw Materials Supply Contracts is part of the Group's inventory management process. The last two contracts as listed in the table under the paragraph headed "2013 Raw Materials Supply Contracts" above are also entered into in order to comply with the requirements of the Federal Antimonopoly Service. As the Federal Antimonopoly Service instructs, the Group is required to supply the raw materials to local consumers subject to existing capacities. As to the three contracts in which "KraMZ-Auto" Limited Liability Company is the buyer, the contracts are also entered into for the purpose of maintaining the uninterrupted operation of "KraMZ-Auto" Limited Liability Company, which in turn provides transportation services to the Group. Such contracts also help to keep the cost of transportation services provided by "KraMZ-Auto" Limited Liability Company lower than the other transportation service providers in the region. As to the contract in which Limited Liability Company Stroyservice is the buyer, the contract was entered into for maintaining the uninterrupted operation of Limited Liability Company Stroyservice, which in turn produces and supplies accessories to the Group required for fastening market-grade aluminium in railcars. Such contract helps to reduce the cost of the relevant accessories. The entry into of the 2013 Raw Materials Supply Contracts is in the ordinary and usual course of business of the Group. The Company believes that the entry into of the 2013 Raw Materials Supply Contracts with its connected persons is for the benefit of the Company as the Group is assured of payment on a timely basis.

The terms of the 2013 Raw Materials Supply Contracts have been negotiated on arm's length basis between members of the Group and the associates of En+ and/or Mr. Deripaska, and the transactions are entered into on normal commercial terms. The consideration payable under the 2013 Raw Materials Supply Contracts has been arrived at by reference to market price and on terms no less favourable than those prevailing in the Russian market for raw materials of the same type and quality and those offered by members of the Group to independent third parties.

The Directors (including the independent non-executive Directors) consider that the 2013 Raw Materials Supply Contracts have been negotiated on an arm's length basis and on normal commercial terms which are fair and reasonable and the transactions contemplated thereunder are in the ordinary and usual course of business of the Group and in the interests of the Company and its shareholders as a whole.

None of the Directors has a material interest in the transactions contemplated by the 2013 Raw Materials Supply Contracts save for Mr. Deripaska who is indirectly interested in more than 30% of the issued share capital of each of Closed Joint Stock Company “Irkutskenergoremont”, “KraMZ-Auto” Limited Liability Company, Limited Liability Company Stroyservice, LLC “KraMZ”, LLC “Autocomponent - Group GAZ” through his shareholding in either in En+ or Basic Element. Accordingly, Mr. Deripaska did not vote on the Board resolutions approving the 2013 Raw Materials Supply Contracts.

LISTING RULES IMPLICATIONS

Each of Limited Liability Company Stroyservice, LLC “Autocomponent - Group GAZ” is held by Basic Element as to more than 30% of the issued share capital. Basic Element is in turn held by Mr. Deripaska (the chief executive officer of the Company and an executive Director) as to more than 50% of the issued share capital. Each of Limited Liability Company Stroyservice, LLC “Autocomponent - Group GAZ” is therefore an associate of Mr. Deripaska and is thus a connected person of the Company.

Each of Closed Joint Stock Company “Irkutskenergoremont”, “KraMZ-Auto” Limited Liability Company, LLC “KraMZ” is held by En+ (a substantial shareholder of the Company) as to more than 30% of the issued share capital. En+ is in turn held by Mr. Deripaska as to more than 50% of the issued share capital. Each of Closed Joint Stock Company “Irkutskenergoremont”, “KraMZ-Auto” Limited Liability Company, LLC “KraMZ” is therefore an associate of Mr. Deripaska and of En+, and thus a connected person of the Company.

Accordingly, the transactions contemplated in the 2013 Raw Materials Supply Contracts constitute continuing connected transactions of the Company.

As the applicable percentage ratios (other than the profits ratio) for the 2013 Raw Materials Supply Contracts for the year ending 31 December 2013 are more than 0.1% but less than 5%, pursuant to Rule 14A.34 of the Listing Rules, the transactions contemplated under the 2013 Raw Materials Supply Contracts are only subject to the reporting and announcement requirements set out in Rules 14A.45 to 14A.47, the annual review requirements set out in Rules 14A.37 to 14A.40 and the requirements set out in Rules 14A.35(1) and 14A.35(2) of the Listing Rules. They are exempt from the independent shareholders’ approval requirements of Chapter 14A of the Listing Rules.

Details of the 2013 Raw Materials Supply Contracts will be included in the next annual report and accounts of the Company in accordance with Rule 14A.46 of the Listing Rules where appropriate.
