Banque PSA Finance successfully issued €3.1 billion of new asset backed securities in 2012

Banque PSA Finance accelerated its securitization program in 2012, reaching a new level with the success of five operations realised in four markets (France, the United Kingdom, Spain and Italy) amounting to €3.1 billion of senior notes.

Against a background of financial market volatility, Banque PSA Finance increased the share of its funding undertaken through its securitization program, thereby demonstrating its ability to strengthen and diversify its funding sources in order to support the sales of PSA Peugeot Citroën.
