

PRESS RELEASE

Sodexo extends partnership with Nokia as Global Facilities Management provider

Issy-les-Moulineaux - June 6, 2013 - Sodexo, world leader in Quality of Life services, has expanded its partnership with Nokia, leader in mobile communications and online mapping solutions, signing a long term global agreement to provide an integrated range of facility management services across Nokia's office portfolio. As of today, the agreement spans 55 countries and 140 sites, with the final objective of integrating the full range of 290 locations in 66 countries within the next 12 months.

The contract represents a unique approach for both partners, based on Sodexo as single global supplier, leading to a solution that streamlines current processes, increases visibility and measurement of performance globally and provides the flexibility required to meet Nokia's changing needs.

Sodexo's expertise in Facilities Management, from design through to operations, enabled the Group to provide a complete offer of innovative services - ranging from Technical Maintenance and Energy Management to Catering, Concierge, and Wellness services – that drives global alignment and synergies for Nokia. Sodexo also provides Benefits & Rewards services to Nokia staff in 15 countries. The Group's unique Quality of Life services offer and customer focused strategy contribute to staff engagement and well-being at Nokia, helping Nokia be an employer of choice in its industry.

Sylvia Metayer, Director of International Large Accounts from Sodexo, said: *"This major turnaround in our partnership with Nokia is the result of working closely for over 20 years with this strategic client and understanding how we can best add value and contribute to the quality of life of Nokia's employees through the provision of consistent and high calibre services, whilst also enabling Nokia to focus on its core business."*

Riku Pentikainen, Nokia Security & WR Head of Strategic Partnerships: *"This partnership is in line with Nokia Security & Workplace Resources strategy to support Nokia's people in enabling them to excel by providing workplaces and services which make them as successful as possible. By consolidating services under one provider, by introducing cross-discipline support and by putting great people to manage the sites, Sodexo have improved services while bringing commercial synergies."*

About Sodexo

Founded in 1966 by Pierre Bellon, Sodexo is the global leader in services that improve Quality of Life, an essential factor in individual and organizational performance. Operating in 80 countries, Sodexo serves 75 million consumers each day through its unique combination of On-site Services, Benefits and Rewards Services and Personal and Home Services. Through its more than 100 services, Sodexo provides clients an integrated offering developed over more than 45 years of experience: from reception, safety, maintenance and cleaning, to foodservices and facilities and equipment management; from Meal Pass, Gift Pass and Mobility Pass benefits for employees to in-home assistance and concierge services. Sodexo's success and performance are founded on its independence, its sustainable business model and its ability to continuously develop and engage its 420,000 employees throughout the world.
