## **Eurazeo joins the ICS “Industrial Goods & Services » Sector**

**Eurazeo has requested and obtained a change in its ICB sector classification. The company will now be classified in supersector “2700 – Industrial Goods & Services”, subsector “2727 – Diversified Industrials” and no longer in “Financial Services” which did not reflect its true business activity.**

Eurazeo's business is to develop over the mid- to long-term, the activity and performance of a diversified portfolio of companies operating in the services, leisure and mobility, real estate, distribution, industry, luxury and health sectors.

Any stock market index changes resulting from this change in ICB classification will be known and communicated at a later date.

The ICB (Industry Classification Benchmark) global system developed by FTSE and DowJones allocates listed companies to the subsector that best describes their activities, primarily based on their main source of profits.
