Philip Morris International Inc. (NYSE / Euronext Paris: PM) today announced its 2013 third-quarter results.

"Our strong EPS and cash flow performance this quarter primarily reflected robust pricing. Our share momentum, particularly in the EU, partially offset weaker industry volumes," said André Calantzopoulos, Chief Executive Officer.

"While the evolution of the macro-economic environment and tax-paid cigarette industry volume remain a challenge, our business fundamentals are solid and we continue to anticipate a strong final quarter.

"Our confidence in these fundamentals was further reflected in our announcement during the quarter of an increase in our regular quarterly dividend of 10.6%. Since the spin-off, we have increased the dividend every year by an accumulated 104.3% to reach an annualized rate of \$3.76 per common share."

Conference Call

A conference call, hosted by Jacek Olczak, Chief Financial Officer, with members of the investor community and news media, will be webcast at 9:00 a.m., Eastern Time, on October 17, 2013. Access is available at www.pmi.com/webcasts.

Since May 2008, when PMI began its first share repurchase program, the company has spent an aggregate of \$32.4 billion to repurchase 539.0 million shares at an average price of \$60.02 per share, or 25.6% of the shares outstanding at the time of the spin-off in March 2008.

Acquisitions and Agreements

The previously announced sale by Grupo Carso, S.A.B. de C. V. to PMI of its 20% interest in PMI's Mexican tobacco business was completed on September 30, 2013, with the approval of the Mexican antitrust authority, for \$703 million. The transaction, which resulted in PMI owning 100% of its Mexican business, is projected to be marginally accretive to PMI's earnings per share as of the fourth quarter of 2013.

On September 30, 2013, PMI announced its entry into a definitive agreement to acquire 49% of the shares of United Arab Emirates-based Arab Investors-TA (FZC) ("AITA") for \$625 million. Through its acquisition of 49% of the shares of AITA, PMI will secure an almost 25% economic interest in the Société des Tabacs Algéro-Emirate, a joint venture which is 51% owned by AITA and 49% by the Algerian state-owned Société Nationale des Tabacs et Allumettes SpA. This equity investment in AITA will provide PMI with enhanced earnings from Algeria and is projected to be accretive to PMI's earnings per share as of 2014.

2013 Full-Year Forecast

PMI revises its 2013 full-year reported diluted earnings per share forecast to be in a range of \$5.35 to \$5.40, versus \$5.17 in 2012. This forecast includes the unfavorable special tax item of \$0.01 per share associated with the enactment of the American Taxpayer Relief Act of 2012 reported in the first quarter of 2013, an anticipated 2013 fourth-quarter charge, related to a previously announced organizational restructuring, of approximately \$0.03 per share, and reflects a cautious outlook regarding certain markets.

Excluding an unfavorable currency impact, at prevailing exchange rates, of approximately \$0.33 for the full-year 2013, and the aforementioned tax item and restructuring charge, reported diluted earnings per share are projected to increase by approximately 10% versus adjusted diluted earnings per share of \$5.22 in 2012 as detailed in the attached Schedule 20.

This forecast includes a one-year gross productivity and cost savings target for 2013 of approximately \$300 million and a share repurchase target for 2013 of \$6.0 billion.

This forecast excludes the impact of any potential future acquisitions, unanticipated asset impairment and exit cost charges, future changes in currency exchange rates and any unusual events.

The factors described in the Forward-Looking and Cautionary Statements section of this release represent continuing risks to these projections.

2013 THIRD-QUARTER CONSOLIDATED RESULTS

In this press release, "PMI" refers to Philip Morris International Inc. and its subsidiaries. References to total international cigarette market, defined as worldwide cigarette volume excluding the United States, total cigarette market, total market and market shares are PMI estimates based on the latest available data from a number of internal and external sources and may, in defined instances, exclude the People's Republic of China and/or PMI's duty-free business. The term "net revenues" refers to operating revenues from the sale of our products, excluding excise taxes and net of sales and promotion incentives. Operating companies income, or "OCI," is defined as operating income before general corporate expenses and the amortization of intangibles. PMI's management evaluates business segment performance and allocates resources based on OCI. Management also reviews OCI, OCI margins and earnings per share, or "EPS," on an adjusted basis (which may exclude the impact of currency and other items such as acquisitions, asset impairment and exit costs, discrete tax items and unusual items), earnings before interest, taxes, depreciation, and amortization, or "EBITDA," free cash flow, defined as net cash provided by operating activities less capital expenditures, and net debt. PMI believes it is appropriate to disclose these measures as they improve comparability and help investors analyze business performance and trends. Non-GAAP measures used in this release should be considered neither in isolation nor as a substitute for the financial measures prepared in accordance with U.S. GAAP. Comparisons are to the same prior-year period unless otherwise stated. For a reconciliation of non-GAAP measures to corresponding GAAP measures, see the relevant schedules provided with this release.

2013 Third-Quarter

PMI's cigarette shipment volume of 223.1 billion units decreased by 5.7%, or 13.4 billion units, due principally to a total industry volume decline. The decrease in PMI's cigarette shipment volume mainly reflected: in the EU, the unfavorable impact of excise tax-driven price increases, the weak economic and employment environment, the share growth of the other tobacco products (OTP) category, and the prevalence of non-duty paid products; in EEMA, the impact of price increases in Russia in the first and third quarters of 2013, an increase in illicit trade and a weak economy; and, in Asia, the unfavorable impact of the disruptive January 2013 excise tax increase in the Philippines, and lower share and the reversal of trade inventory movements in Pakistan following the excise tax increase in the second quarter of 2013, partly offset by Indonesia. Excluding the Philippines, PMI's cigarette shipment volume decreased by 4.1%. On a nine months year-to-date basis, PMI's cigarette shipment volume decreased by 3.0%, excluding the Philippines.

Total cigarette shipments of *Marlboro* of 75.2 billion units decreased by 2.5%, due primarily to declines in: the EU, notably France and Spain, partly offset by Italy; EEMA, primarily Russia and Ukraine, partly offset by North Africa; Asia, predominantly the Philippines, partly offset by Japan reflecting the launch of *Marlboro Clear Taste* in September; and Latin America & Canada, mainly Mexico. Excluding the Philippines, total cigarette shipments of *Marlboro* decreased by 0.3%.

Total cigarette shipments of *Chesterfield* of 9.2 billion units decreased by 1.9%, due primarily to Russia and Ukraine, partly offset by Germany and Turkey. Total cigarette shipments of *Lark* of 7.2 billion units decreased by 11.9%, due predominantly to Japan and Turkey.

Total shipment volume of OTP, in cigarette equivalent units, decreased by 1.7%, due mainly to a decline in Southern Africa, partly offset by growth in the EU, notably in Italy. Total shipment volume for cigarettes and OTP, in cigarette equivalent units, decreased by 5.5%.

PMI's market share increased in a number of key markets, including Algeria, Argentina, Austria, Belgium, Brazil, Canada, Egypt, France, Greece, Indonesia, Italy, Kazakhstan, Korea, the Netherlands, Poland, Portugal, Saudi Arabia, Spain, Thailand, Turkey, Ukraine and the United Kingdom.

Market share of *Parliament* increased by 0.3 points to 3.4%, *Marlboro* decreased by 0.2 points to 1.7%, *L&M* increased by 0.4 points to 3.0%, *Chesterfield* decreased by 0.4 points to 3.0%, *Bond Street* decreased by 0.2 points to 6.3%, and *Next* increased by 0.4 points to 3.3%.

In Turkey, the total cigarette market of 24.8 billion units decreased by an estimated 5%, primarily reflecting the renewed growth of illicit trade. PMI's shipment volume of 12.6 billion units decreased by 2.4%. PMI's August quarter-to-date market share, as measured by Nielsen, increased by 0.1 point to 46.1%, mainly driven by premium *Parliament* and mid-price *Muratti*, up by 1.1 and 0.3 points to 10.2% and 6.9%, respectively, partly offset by *Marlboro*, down by 0.2 points to 9.1%, and low-price *L&M*, down by 1.1 points to 7.4%.

In Ukraine, the total cigarette market of 20.1 billion units decreased by an estimated 14%, mainly reflecting the impact of tax-driven price increases in the first quarter of 2013 and an increase in illicit trade. Although PMI's shipment volume of 6.9 billion units decreased by 5.9%, PMI's August quarter-to-date market share, as measured by Nielsen, increased by 0.6 points to 33.1%, mainly due to growth from PMI's low-price segment brands of *Bond Street*, *Optima* and *President*. Share for premium *Parliament* increased by 0.2 points to 3.4%. Share of *Marlboro* decreased by 0.2 points to 5.5%.

ASIA REGION

2013 Third-Quarter

Net revenues of \$2.5 billion decreased by 7.9%, including unfavorable currency of \$196 million. Excluding currency, net revenues decreased by 0.8%, due to unfavorable volume/mix of \$144 million, primarily in the Philippines, partially offset by favorable pricing of \$122 million, principally in Australia and Indonesia.

Operating companies income of \$1.1 billion decreased by 15.4%, including unfavorable currency of \$178 million. Excluding currency, operating companies income decreased by 1.7%, due primarily to unfavorable volume/mix of \$106 million, and higher manufacturing costs, principally in Indonesia driven mainly by higher clove prices, partly offset by favorable pricing.

Adjusted operating companies income decreased by 17.0% as shown in the table below and detailed on Schedule 11. Adjusted operating companies income, excluding unfavorable currency, decreased by 3.5%.

Adjusted operating companies income margin, excluding unfavorable currency, decreased by 1.3 points to 46.5%, as detailed on Schedule 11, primarily reflecting the impact of unfavorable volume/mix, mainly in the Philippines, and higher costs.

PMI's cigarette shipment volume of 73.3 billion units decreased by 7.8%, due primarily to the lower total market in the Philippines, and lower share and the reversal of trade inventory movements in Pakistan following the excise tax increase in the second quarter of 2013, partly offset by share growth in Indonesia. Excluding the Philippines, PMI's cigarette shipment volume decreased by 2.8%.

Shipment volume of *Marlboro* of 19.5 billion units decreased by 1.6%. Excluding the Philippines, shipment volume of *Marlboro* increased by 9.6%, primarily reflecting the launch of *Marlboro Clear Taste* in Japan as well as market share growth in Indonesia and Vietnam.

Asia Key Market Commentaries

In Indonesia, the total cigarette market of 74.1 billion units increased by 0.3%. PMI's shipment volume in the quarter of 27.1 billion units increased by 1.6%. PMI's market share increased by 0.4 points to 36.6%, driven notably by machine-made, Low Tar Low Nicotine (LTN) *Sampoerna A* in the premium segment, up by 0.6 points to 14.8%, and machine-made, LTLN mid-price *U Mild*, up by 0.9 points to 4.3%. In Japan, the total cigarette market of 50.0 billion units decreased by 1.2%. PMI's shipment volume of 13.5 billion units decreased by 2.0%, principally due to a lower total market and share. PMI's market share decreased by 1.0 point to 26.5%, reflecting the impact of PMI's principal competitor's brand launches and significant promotional activities since the start of 2013. Although *Marlboro*'s market share decreased by 0.3 points to 12.2% in the quarter, it was essentially stable compared to the first and second quarters, reflecting the brand's overall resilience which was supported by the launch of *Marlboro Clear Taste* in September. In the Philippines, the total industry cigarette volume of 23.0 billion units was estimated to have decreased by 6.7%, reflecting a partial, but insufficient, improvement in declared tax-paid volume by PMI's main local competitor as well as government tax enforcement. PMI's shipment volume of 17.8 billion units decreased by 20.7%, primarily reflecting the unfavorable impact of the disruptive excise tax increase in January 2013 and the prevalence of non-duty paid domestic product. PMI's market share in the quarter decreased by 13.5 points to 77.2%, primarily due to down-trading to competitors' brands. *Marlboro*'s market share decreased by 5.9 points to 15.3%. Share of low-price *Fortune* decreased by 22.6 points to 27.5%, partly offset by gains from PMI's other local low-price brands.

Latin America & Canada Key Market Commentaries

In Mexico, the total cigarette market of 8.4 billion units decreased by 0.9%. PMI's cigarette shipment volume of 6.0 billion units decreased by 2.5%. PMI's market share decreased by 1.2 points to 72.4%, due mainly to: unfavorable segment mix following the impact of price increases in January 2013; and a competitor's launch of brands in a 15s per pack format, at price parity with 14s, in the low price segment. While market share of *Marlboro* and *Benson & Hedges* decreased by 3.1 and 0.6 share points to

50.5% and 5.5%, respectively, PMI's share of the premium price segment increased by 1.1 points to 90.9%. Forward-Looking and Cautionary Statements

This press release contains projections of future results and other forward-looking statements. Achievement of projected results is subject to risks, uncertainties and inaccurate assumptions. In the event that risks or uncertainties materialize, or underlying assumptions prove inaccurate, actual results could vary materially from those contained in such forward-looking statements. Pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, PMI is identifying important factors that, individually or in the aggregate, could cause actual results and outcomes to differ materially from those contained in any forward-looking statements made by PMI.

PMI's business risks include: significant increases in cigarette-related taxes; the imposition of discriminatory excise tax structures; fluctuations in customer inventory levels due to increases in product taxes and prices; increasing marketing and regulatory restrictions, often with the goal of reducing or preventing the use of tobacco products; health concerns relating to the use of tobacco products and exposure to environmental tobacco smoke; litigation related to tobacco use; intense competition; the effects of global and individual country economic, regulatory and political developments; changes in adult smoker behavior; lost revenues as a result of counterfeiting, contraband and cross-border purchases; governmental investigations; unfavorable currency exchange rates and currency devaluations; adverse changes in applicable corporate tax laws; adverse changes in the cost and quality of tobacco and other agricultural products and raw materials; and the integrity of its information systems. PMI's future profitability may also be adversely affected should it be unsuccessful in its attempts to produce products with the potential to reduce the risk of smoking-related diseases; if it is unable to successfully introduce new products, promote brand equity, enter new markets or improve its margins through increased prices and productivity gains; if it is unable to expand its brand portfolio internally or through acquisitions and the development of strategic business relationships; or if it is unable to attract and retain the best global talent.

PMI is further subject to other risks detailed from time to time in its publicly filed documents, including the Form 10-Q for the quarter ended June 30, 2013. PMI cautions that the foregoing list of important factors is not a complete discussion of all potential risks and uncertainties. PMI does not undertake to update any forward-looking statement that it may make from time to time, except in the normal course of its public disclosure obligations.
