For Immediate Release:

Watsco Files Form 10-Q

MIAMI, FLORIDA, November 1, 2013 -- Watsco, Inc. (NYSE / Euronext Paris: WSO) today informs its shareholders that its Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2013 has been filed with the U.S. Securities and Exchange Commission ("SEC").

Watsco, Inc. makes available free of charge on its website, its Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, reports filed pursuant to Section 16 of the U.S. Securities Exchange Act of 1934 and amendments to those reports filed with or furnished to the SEC as soon as reasonably practicable after Watsco, Inc. electronically files these documents with, or furnishes them, to the SEC. These documents are posted on Watsco, Inc.'s website at <http://www.watsco.com> — under "Investor Relations."

The SEC maintains a website that contains reports, proxy statements and other information regarding issuers that file electronically with the SEC. These materials may be obtained electronically by accessing the SEC's home page at <http://www.sec.gov>.

Copies of the above referenced information will also be made available, free of charge, by calling (305) 714-4100 or upon written request to the address listed above.

Watsco improves indoor living and working environments with air conditioning and heating solutions that provide comfort regardless of the outdoor climate. Since heating and cooling accounts for approximately 56% of the energy consumed in a typical United States home, we offer consumers the greatest opportunity to save money on energy by replacing existing air conditioning and heating systems with more energy efficient and environmentally friendly solutions.

There are approximately 90 million central air conditioning and heating systems installed in the United States that have been in service for more than 10 years. Older systems often operate below today's government mandated energy efficiency and environmental standards. Watsco has an opportunity to accelerate the replacement of these systems at a scale greater than our competitors as the movement toward reducing energy consumption and its environmental impact continues. We operate from more than 570 locations in the United States, Canada, Mexico and Puerto Rico, with additional market coverage on an export basis to Latin America and the Caribbean. As the industry leader, significant growth potential remains given that our current revenue run-rate is approximately 10% of the estimated \$35 billion marketplace in the Americas for HVAC/R products.
