The settlement/delivery of newly issued shares in the Open Price Offering and the Global Placement will occur on April 10th, 2014. From the 10th to the 14th of April 2014 (inclusive), the Company’s shares will be traded in the form of undertakings to deliver shares (*promesses d’actions*) and in the form of ordinary shares, from April 15th, 2014. Shares are admitted to trading on Compartment B of the regulated market of Euronext in Paris under the ISIN code FR0010526814 and under the symbol SSI.

Several historical shareholders of the Company participated in the IPO through the subscription of a total amount of €15m.

Use of proceeds

The proceeds from the IPO are intended to provide the Group with additional financial resources in order to fund its ongoing operations (including its current working capital needs), in particular for the following purposes (presented in order of importance):

- the international commercial development of the Company, through reinforcing its direct sales network and promoting a worldwide distribution network;
- the continuation of the Company's strategy on innovation in order to (i) consolidate its technological lead (platform B) and (ii) expand the range of applications covered by Aixplorer®; and
- the establishment of a family of products covering several price segments, in particular portable ultrasound, which represents the fastest-growing part of market.

About SuperSonic Imagine

Founded in 2005 and based in Aix-en-Provence (France), SuperSonic Imagine is a company specializing in medical imaging. The company designs, develops and markets a revolutionary ultrasound system, Aixplorer[®], with an UltraFast[™] platform that can acquire images 200 times faster than conventional ultrasound systems. Aixplorer[®] is the only system that can image two types of waves: ultrasound waves ensure excellent image quality and shear waves, which allow physicians to visualize and analyze the stiffness of tissue in a real-time, reliable, reproducible and non-invasive manner. This innovation, ShearWave[™] Elastography, significantly improves the detection and characterization of numerous pathologies in several applications including breast, thyroid, liver and prostate. SuperSonic Imagine has been granted regulatory clearances for the commercialization of Aixplorer[®] on the main markets. As of December 31, 2013, SuperSonic Imagine has an installed base of 773 Aixplorer[®] ultrasound systems in over 50 countries. Over the past years, SuperSonic Imagine enjoyed the backing of several prestigious investors, among which Auriga Partners, Edmond de Rothschild Investment Partners, Bpifrance, Omnes Capital, NBGI and others.
