

Mainstay confirms its continued eligibility to the PEA-PME

Dublin – Ireland, 12th January 2015 – Mainstay Medical International plc (“**Mainstay**” or the “**Company**” listed on Euronext Paris: MSTY.PA and ESM of the Irish Stock Exchange: MSTY.IE) confirms today its continued eligibility to the PEA-PME (French equity savings plan for financing SMEs), in accordance with Decree n°.2014-283 applicable since 4 March 2014 and reflecting the application of Article 70 of 2014 finance law (n° 2013-1278 dated 29 December 2013) which set up the conditions of companies’ eligibility for the PEA-PME as follows:

- fewer than 5,000 employees, and
- annual revenues of less than €1,500 million, or
a balance-sheet total of less than €2,000 million.

Mainstay is an Irish medical device company with operations in Ireland, Australia and the United States. The Company is focused on the development and commercialisation of ReActiv8, an innovative implantable neurostimulation device designed to treat people with Chronic Low Back Pain (CLBP) by helping to restore control to the muscles that stabilise the lumbar spine.

Clinical trials with ReActiv8 are ongoing in Europe and Australia, and several sites continue to enrol subjects. The purpose of the clinical trial is to investigate ReActiv8 as a treatment for adults with CLBP who have few other treatment options.

About Mainstay

Mainstay is a medical device company which is developing an innovative implantable neurostimulation medical device, ReActiv8, for people with CLBP. Low Back Pain is a leading cause of activity limitation and work absence throughout much of the developed world, imposing a high economic burden on individuals, families, communities, industry, and governments.

The Company is headquartered in Dublin, Ireland. It has subsidiaries operating in Ireland, the United States and Australia, and is listed on Euronext Paris (MSTY.PA) and the ESM of the Irish Stock Exchange (MSTY.IE).

About Chronic Low Back Pain

One of the recognised root causes of CLBP is impaired control by the nervous system of the muscles that stabilize the spine in the lower back, and an unstable spine can lead to back pain. ReActiv8 is designed to

electrically stimulate the nerves responsible for contracting these muscles and thereby help to restore muscle control and improve spine stability, allowing the body to recover from CLBP.

People with CLBP usually have a greatly reduced quality of life and score significantly higher on scales for pain, disability, depression, anxiety and sleep disorders. Their pain and disability can persist despite the best available medical treatments, and only a small percentage of cases result from an identified pathological condition or anatomical defect that may be correctable with spinal surgery. Their ability to work or be productive is seriously affected by the condition and the resulting days lost from work, disability benefits and health resource utilisation put a significant burden on economies.

Forward looking statements

This announcement includes statements that are, or may be deemed to be, forward looking statements. These forward looking statements can be identified by the use of forward looking terminology, including the terms “anticipates”, “believes”, “estimates”, “expects”, “intends”, “may”, “plans”, “projects”, “should” or “will”, or, in each case, their negative or other variations or comparable terminology, or by discussions of strategy, plans, objectives, goals, future events or intentions. These forward looking statements include all matters that are not historical facts. They appear throughout this announcement and include, but are not limited to, statements regarding the Company’s intentions, beliefs or current expectations concerning, among other things, the Company’s results of operations, financial position, prospects, financing strategies, expectations

for product design and development, regulatory approvals, reimbursement arrangements, costs of sales and market penetration.

By their nature, forward looking statements involve risk and uncertainty because they relate to future events and circumstances. Forward looking statements are not guarantees of future performance and the actual results of the Company's operations, and the development of the markets and the industry in which the Company operates, may differ materially from those described in, or suggested by, the forward looking statements contained in this announcement. In addition, even if the Company's results of operations, financial position and growth, and the development of the markets and the industry in which the Company operates, are consistent with the forward looking statements contained in this announcement, those results or developments may not be indicative of results or developments in subsequent periods. A number of factors could cause results and developments of the Company to differ materially from those expressed or implied by the forward looking statements including, without limitation, general economic and business conditions, the global medical device market conditions, industry trends, competition, changes in law or regulation, changes in taxation regimes, the availability and cost of capital, currency fluctuations, changes in its business strategy, political and economic uncertainty. The forward-looking statements herein speak only at the date of this announcement.
