Rentabiliweb Group (ISIN BE0946620946 – trading symbol BIL) confirms for the next 12 months its eligibility for the French PEA-PME share savings plan.

As a Belgian company with consolidated revenue of €72 million, a Group headcount close to 250 and total balance sheet assets of €100 million in 2014, Rentabiliweb Group still meets the eligibility criteria defined by the French implementing decree n°2014-283 of 4 March 2014.

The PEA-PME scheme, which complements the existing PEA scheme, allows taxpayers to benefit from exemptions on gains (both capital gains and dividends) generated by shares in SMEs held for at least five years. Gains are still liable to social charges, currently at 15.5%. Investments in standard PEA share savings plans, for which all shares and share funds in the euro zone are eligible, are capped at €150,000. The PEA-PME is a complementary scheme for investments in SMEs and midcaps (less than 5,000 employees plus annual revenue below €1.5 billion or balance sheet assets of less than €2 billion), which operates in exactly the same way, except for a €75,000 limit on investments. These thresholds are assessed on the date of acquisition of the securities.
