## About Electro Power Systems

Electro Power Systems (EPS) is a forerunner in smart hydrogen-based systems for energy storage. EPS offers the market's most accessible and cleanest solutions through its self-recharging technology vertically integrated into an open architecture. The solutions developed by EPS are coupled with the traditional ICT and electric grid and enable intelligent, scalable and sustainable distributed generation and energy management. EPS' systems storage capacity (10kWh up to 100 MWh) is a response to Energy Transition related-issues ranging from the auxiliary power supply (backup for telecom towers and data centers) to solutions for supporting the electricity grid for transmission and distribution (smart grids and renewables' integration) and finally to leverage a distributed generation model with a full off-grid infrastructure.

Founded in 2005, the Group has facilities in Moncalieri (Turin) and Aosta in Italy and, together with BNC Corp., in Brighton, Michigan (USA). In the last three years, the Group was named "World Technology Pioneer" by the World Economic Forum in 2012; added to the 100 Cleantech Global list by the Cleantech Group in 2012; selected for the 2014 Cleantech Forum in San Francisco; highlighted as a growing success story at the Cleantech Forum in Rotterdam; selected for the 2015 Tech Tour Growth Forum of Geneva and Lausanne.
