

Press release – For immediate release

October 26th, 2017 – 5:45PM CEST

Median Technologies strengthens its medical leadership with the appointment of Dr. Loan Hoang-Sayag as Chief Medical Officer and the appointment of Dr. Fabien Ricard as Medical Director, North America.

- Dr Loan Hoang-Sayag will lead the company’s global clinical vision and medical strategy and contribute to the overall strategic plan for the company.
- Dr. Fabien Ricard will manage Medical Affairs, supporting the company’s clinical trials operations and business development activities in North America.

Sophia Antipolis, France – October 26th, 2017 - Median Technologies, The Imaging Phenomics Company® (ALMDT:PA) announces the appointment of Dr. Loan Hoang-Sayag as Chief Medical Officer and the appointment of Dr. Fabien Ricard as Medical Director, North America.

As Chief Medical Officer of Median, Loan Hoang-Sayag, MD will oversee the global clinical vision and medical strategy of the company and will closely work with Median’s scientific advisors. She will support all company business segments on medical and regulatory aspects and provide a clinical perspective to all activities of the company.

Dr. Hoang-Sayag is board-certified in hematology and medical oncology from Necker-Paris V René Descartes University and St-Antoine- Paris VI University, respectively. Dr. Hoang-Sayag has over 25 years of hematology and oncology experience within the clinical and academic settings and over 17 years of experience leading oncology drug development.

Dr. Hoang-Sayag started her industry career at Hoffmann-La Roche where she was responsible for clinical development and medical affairs activities for different oncology drugs. Following this post, she held roles at both Pierre Fabre Oncology and Quintiles where she led oncology development programs and the European Oncology Medical team, respectively. Most recently, Dr. Hoang-Sayag served as the Chief Medical Officer at Cellectis.

Her drug development experience encompasses new chemotherapeutic entities, small molecules, monoclonal antibodies, antibody drug conjugates, stem cell therapy, checkpoint inhibitors, and CAR-T cell therapy.

“I am proud and honored to join Median, which has a truly innovative vision in the field of oncology and other disabling diseases, and as such, delivers new and powerful insights into personalized medicine,” said Dr Loan Hoang-Sayag.

As Medical Director, North America, Dr. Fabien Ricard will be responsible for managing Medical Affairs, supporting Median's clinical trials operations and business development activities.

Fabien Ricard is an imaging specialist dual-trained in Radiology and Nuclear Medicine with more than 10 years of clinical practice. Dr. Ricard has more than 8 years of experience in the Medical and Pharmaceutical Industry for clinical trials in Europe, Canada and USA and is a researcher in the field of Biomedical Engineering focusing on imaging biomarkers.

Previously, Dr. Fabien Ricard served as associate Medical Director of Medical Imaging at Advance Medical and as a specialist MRI Reader at NeuroRx Research. Fabien earned his imaging MD and research MS degrees from the University of Lyon, France, where he specialized during his residency and clinical fellowship in advanced multimodal imaging for oncology and onco-hematology, and served as an active sub investigator and member of the Lymphoma Study Association LYSA.

"I am delighted to be working with the Median team and to be part of this dynamic and outstanding company combining innovation and passion to build a healthier world for patients. Improving patient care through innovative imaging in clinical trials is how we can change lives and bring hope to patients," said Dr. Fabien Ricard.

"Innovation in healthcare is currently going through a major transformation driven by advances in artificial intelligence, cloud computing and cybersecurity. Medical imaging is playing an increasing role in drug development and precision medicine with the introduction of predictive and non-invasive biomarkers for the benefit of patients worldwide. I am extremely proud to have Loan and Fabien join us at Median. It underscores the commitment of Median to be at the forefront of clinical research and development through imaging biomarkers," said Fredrik Brag, Chief Executive Officer of Median Technologies.

"We are thrilled to have Loan and Fabien join our team at Median. As industry experts, they are bringing with them significant medical, scientific and clinical product development expertise that will support our continued efforts to bring innovative and patient-driven products and services to the market in an expedited manner," said Jeanne Hecht, Chief Operating Officer of Median Technologies.
