

NANOBIOTIX SUCCESSFULLY COMPLETES APPROXIMATELY EUR 27.2 MILLION PLACEMENT OF NEW SHARES

Funds raised via an accelerated book building offering announced on October 30, 2017

Paris, France and Cambridge, Massachusetts (USA), October 31, 2017 – NANOBIOTIX (the “Company”) (Euronext: NANO – ISIN: FR0011341205), a late clinical-stage nanomedicine company pioneering new approaches to the local treatment of cancer, announces today the successful completion of a placement for a total amount of EUR 27.2 million via an accelerated bookbuild offering.

Terms of the offering

A total of 1,941,789 new shares, par value EUR 0.03, have been placed with investors in the health and biotechnology industry primarily located in the United States and Europe. The order book was well covered based on strong demand mainly from new US as well as from European life sciences specialist investors along with existing shareholders reinforcing their position. The new shares, representing approximately 11% of the outstanding Company share capital prior to the offering, have been issued today by decision of the management board of the Company, following the supervisory board approval on October 30, 2017. This decision is based on the delegation granted by Resolution 27 of the extraordinary general meeting of the shareholders of the Company held on June 14, 2017.

The offering was conducted by way of an accelerated book building offering in accordance with Article L. 225-138 of the French Commercial Code (*code de commerce*).

The issue price of the new shares has been set at EUR 14.00 per share, representing an 18% discount to the average of the volume weighted average price of the Company’s shares over the last three trading days immediately preceding today (October 26, 2017 – October 30, 2017 inclusive), which was EUR 17.07, pursuant to Resolution 27 of the Extraordinary General Meeting of the Shareholders of the Company held on June 14, 2017.

Jefferies International Limited acted as Sole Global Coordinator, and together with Cowen and Gilbert Dupont as Joint Bookrunners in the Offering.

Use of proceeds

The net proceeds of the offering will be used to finance Nanobiotix’s top priorities:

- Prepare and execute the first U.S.- based trial to evaluate its lead product, NBTXR3, in combination with immune checkpoint inhibitors
- Continuation of the head and neck cancer clinical development
- Market preparations for NBTXR3’s launch in the European market

The Company’s shareholding structure after the New Shares issue

After settlement-delivery of the New Shares, the Company’s share capital will amount to EUR 589,001.19, equal to 19,633,373 shares with a par value of EUR 0.03, as follows. On an illustrative basis, a shareholder holding 1% of the Company’s capital before the offering will now hold 0.90%.

Not for release, publication or distribution, directly or indirectly, in or into the United States, Canada, Australia or Japan.
