

## Plant Advanced Technologies PAT announces new distribution agreement with Safic-Alcan

**Safic-Alcan has been appointed by Plant Advanced Technologies PAT to distribute their cosmetic ingredient Spiraea Exudactive® C. The agreement is effective immediately.**

Safic-Alcan will take over the **exclusive distribution of PAT's ingredient**, Spiraea Exudactive® C in subsidiaries of Bulgaria, Czech Republic, Germany, Hungary, Italy, Poland, Portugal, Romania, Serbia, Turkey and United-Kingdom, including 20 different countries.

Spiraea Exudactive® C is prepared using "PAT Plant Milking® process. This patented technic allows to produce highly concentrated actives under conditions where plant's roots are exploited in a non-destructive way, without the need to use agricultural ground, pesticides and in a sustainable way. Results of in-vitro and clinical data show that Spiraea Exudactive® C significantly improves skin hydration.

For Paul Hannewald, General Manager of PAT SA, "Having an efficient distribution network in Europe is crucial to market PAT's non-exclusive products. We are very pleased to work with Safic-Alcan whose team has demonstrated pertinence for promoting our first active ingredient".

"We are happy to have been selected by PAT and to represent a key player in the cosmetics industry. This new partnership will allow us to distribute natural and unique ingredients that are highly complementary to Safic-Alcan's portfolio and to respond to our customer's needs for natural innovative solutions", stated Philippe Combette, CEO of Safic-Alcan.

**Both companies will be present at In Cosmetics 2018 Global – Amsterdam (Netherlands) – 17 to 19 April 2018 – Meet PAT on Booth K49 and Safic-Alcan on Booth G90**

**PAT will be also present during Smallcap Event on 16<sup>th</sup> and 17<sup>th</sup> of April in Paris (France)**

Next PR: 2017 Annual results – 13 April 2018 – in French language only

### About PAT:

After almost 20 years of experience, PAT is the pioneer in root optimization and exploration thanks to PAT's patented technology PAT plant milking®. The plant biotechnology company specializes in identifying, optimizing and producing rare active compounds of plant origin designed for cosmetics, pharmaceuticals and agrochemistry. PAT's exclusive know-how is worldwide patented (PAT plant milking® et Target Binding®).

PAT is listed on Euronext Growth™ of Euronext Paris (ISIN code: FR0010785790 – Mnemonic code: ALPAT).
