EOS IMAGING LAUNCHES AN OFFERING OF BONDS CONVERTIBLE INTO NEW SHARES AND/OR EXCHANGEABLE FOR EXISTING SHARES (“OCEANES”) DUE 2023 FOR A BASE AMOUNT OF APPROXIMATELY €28 MILLION WITH AN INCREASE OPTION UP TO €30 MILLION

Paris, May 24, 2018, 07h45 CET – EOS IMAGING (Euronext, FR0011191766 - EOSI - PEA - PME Eligible), the pioneer of 2D/3D imaging and data solutions for orthopedics, announces today the launch of an offering of bonds convertible into new shares and/or exchangeable for existing shares (“OCEANES”) due May 31st, 2023 by way of a private placement, without shareholders’ preferential subscription rights, to institutional investors for a nominal amount of approximately €28 million with an increase option up to €30 million (the “Offering”).

Purpose of the Offering:

The gross proceeds of the Offering will be used by EOS Imaging (the “Company” or “EOS Imaging”) notably to¹:

- refinance all the existing IPF debt for approximately 76% of the Offering ; and
- finance the company’s growth for approximately 24% of the Offering.

Marie Meynadier, CEO of EOS Imaging, commented, “With this transaction, EOS Imaging intends to finance itself under different conditions from previous dilutive or debt transactions. In fact, this transaction has a leverage effect induced by the conversion premium of between 30% and 35% compared to the reference price, associated with a coupon that is significantly lower than the existing debt rate. It will allow us to

refinance the existing debt and provides us with additional resources that will be dedicated to our development.

This new financing method is consistent with the company's development strategy, and in particular of the expected growth in the North American market following the reorganization that we conducted in 2017."

Main terms and conditions of the OCEANES:

The nominal unit value of the OCEANES will be set at a conversion premium of between 30% and 35% to EOS Imaging's reference share price².

The OCEANES will entitle their holders to receive new and/or existing EOS Imaging shares at an initial conversion/exchange ratio of one share per OCEANE, subject to any potential further adjustments. The EOS Imaging new shares eventually delivered shall carry current rights to dividends paid following the date of delivery of the shares.

The OCEANES will bear interest at an annual nominal rate comprised between 5.50% and 6.00% payable semi-annually in arrears on May 31st and November 30th of each year (or the following business day if this date is not a business day) with a first interest payment date on November 30th, 2018. The OCEANES will be issued at par on May 31st, 2018, the expected date for the settlement and delivery (the "Issue Date"), and if not converted will be redeemed at par on May 31st, 2023 (or the following business day if this date is not a business day).

Under certain conditions, the OCEANES may be redeemed prior to maturity at the option of the Company. In particular, the OCEANES may be redeemed early at EOS Imaging's option as from June 20th, 2021 if the arithmetic average of daily product of the volume-weighted average price of EOS Imaging's listed share price on the regulated market of Euronext in Paris and the prevailing conversion/exchange ratio, over a 20-consecutive trading day period among 40 trading days, exceeds 150% of the nominal value of the OCEANES.

The final terms and conditions of the OCEANES are expected to be determined today.

For illustrative purpose, when considering an offering of OCEANES for a maximum amount of approximately €28 million, a nominal value of €6.744 per OCEANE (calculated on the basis of a closing share price as of May 23rd, 2018 corresponding to €5.09 and a 32.5% conversion premium corresponding to the issue premium mid-range), the maximal dilution would approximately represent 18.33% of the outstanding share capital of EOS Imaging if only new shares were delivered upon conversion.

The OCEANES will be issued pursuant to the 18th resolution approved by the shareholders' ordinary and extraordinary general meeting held on 18 May 2018 and will be offered only by way of a private placement, conducted in accordance with Article L. 411-2 II of the French Monetary and Financial Code (*Code*

² The reference share price will be equal to the volume-weighted average price of the Company's share recorded on the regulated market of Euronext in Paris from the launch of the Offering today until the determination of the final terms and conditions (pricing) of the OCEANES on the same day.
