**Speaker:** Nawal Ouzren  
**Date & Time:** Monday, June 4<sup>th</sup> at 2:45 PM – 2:58 EST  
**Location:** The Boston Convention and Exhibition Center, Theater 1

### About BIO International Convention

The BIO International Convention is hosted by the Biotechnology Innovation Organization (BIO). BIO represents more than 1,100 biotechnology companies, academic institutions, state biotechnology centers and related organizations across the United States and in more than 30 other nations. BIO members are involved in the research and development of innovative healthcare, agricultural, industrial and environmental biotechnology products.

BIO performs many services for members, but none of them are more visible than the BIO International Convention. The BIO International Convention helps BIO fulfill its mission to help grow the global biotech industry. Profits from the BIO International Convention are returned to the biotechnology industry by supporting BIO programs and initiatives. BIO works throughout the year to create a policy environment that enables the industry to continue to fulfill its vision of bettering the world through biotechnology innovation.

The key benefits of attending the BIO International Convention are access to global biotech and pharma leaders via BIO One-on-One Partnering, exposure to industry thought-leaders with over 1,500 education sessions at your fingertips, and unparalleled networking opportunities with 16,000+ attendees from 74 countries.

### About Sensorion

Sensorion is a biotech company pioneering novel treatments of inner ear diseases such as severe vertigo, tinnitus or hearing loss. Two products are currently in the clinical development stage: seliforant, in phase 2 in acute unilateral vestibulopathy (vestibular neuritis), and SENS-401, which has completed a phase 1 trial. The company was founded by Inserm (the French Institute of Health and Medical Research) and is utilizing its pharmaceutical R&D experience and
