EOS imaging ANNOUNCES INSTALLATIONS OF FIRST EOS® SYSTEMS IN SPAIN AND PORTUGAL

*First two EOS systems in Spain installed in Barcelona
Installation planned short term in Portugal*

Paris, October 30, 2018 – 6pm (CEST) – EOS imaging (Euronext, FR0011191766 - EOSI - Eligible PEA - SME), a pioneer in 2D/3D orthopedic medical imaging, today announced the first two installations in Barcelona at Clavel's Instituto, a spine center of Hospital Quiron, and the HM Delfos Hospital. In addition, the first installation in Portugal is planned in Lisbon by the end of the year. All three facilities are part of private hospital groups.

"We are delighted with these first installations in two of the best private spine surgery centers in Spain as well as the upcoming installation in Portugal. Our solutions, already widely adopted within academic hospitals in Europe and around the world, are increasingly becoming valued by private orthopedic centers and private hospitals. We are happy and proud to see our technology accessible to more patients, as a large traction of osteoarticular care and orthopedic surgeries are taking place outside of academic hospital settings," concluded Marie Meynadier, Chief Executive Officer of EOS imaging.
