Carrefour and Glovo sign a strategic partnership in four countries in order to offer 30-minute grocery home delivery services

Carrefour and Glovo today announce a partnership in four countries, with exclusive rights in France. This partnership will allow urban consumers to benefit from a 30-minute delivery service, seven days a week. The partnership is a new step in Carrefour's ambition to develop a unique omnichannel model and become the leader in food e-commerce, adding to its existing services including Express Delivery in France. This agreement also allows Glovo to further develop its grocery segment and strengthen its geographic presence.

Founded in 2015, Spanish start-up Glovo is one of the world's fastest growing on-demand delivery players, distributing everything from groceries to pharmaceuticals and gifts within an hour. Glovo is present in 26 countries and over 186 cities.

This partnership is designed to offer a simple, fast and convenient experience for consumers to buy groceries online:

- Customers choose from a carefully-selected range of 2,500 products on the Glovo platform, across several categories including fresh produce, groceries and everyday items such as health & beauty and household goods.
- Glovo couriers collect orders prepared in Carrefour Market, Carrefour City and Express stores which form a very extensive network of stores.
- Thanks to Glovo's fleet of couriers, products are delivered to customers by bicycle or scooter approximately 30 minutes after the order is placed.

The partnership will cover four countries - France, Spain, Italy and Argentina - and will start operating by early October at the latest. Paris in France, Sevilla and Valencia in Spain, Milan and Rome in Italy, and Buenos Aires in Argentina will be among the first wave of cities to launch the service. Other cities will follow in the coming months depending on the country.

"Carrefour is constantly looking for ways to deliver innovative services that make customers' daily shopping experience easier. With this new partnership, Glovo and Carrefour will offer a 30-minute home delivery service that complements their existing e-commerce offers and allows them to address the needs of new customers," said Amélie Oudéa-Castéra, Executive Director of E-commerce, Data and Digital Transformation at Carrefour.

Oscar Pierre, CEO and co-founder of Glovo, said: "Glovo is enjoying strong growth and has big ambitions. Our goal is to make grocery shopping faster, smoother and more convenient than ever before for the customer. Our partnership with Carrefour will allow us to do this, building on this new vertical and helping us drive growth further around the world."

About Carrefour:

With a multiformat network of 12,000 stores in over 30 countries, Carrefour Group is one of the world's leading food retailers. Carrefour serves 105 million customers worldwide and posted sales of 84.916 billion euros in 2018. The Group has more than 360,000 employees who contribute to making Carrefour the world leader in the food transition for all, offering quality food every day, accessible everywhere and at a reasonable price.
