

IMPLANET attends the 14th Annual Meeting of the German Spine Society (DWG)

Bordeaux, Boston, November 27, 2019 at 5:45pm: IMPLANET (Euronext Growth: ALIMP, FR0010458729, eligible for PEA-PME equity savings plans; OTCQX: IMPZY), a medical technology company specializing in vertebral and knee-surgery implants, announces that it will attend the 14th Annual Meeting of the German Spine Society (DWG), which will take place on November 28-30 in München, Germany.

Implanet's presence at booth no. 35 (Hall 2) will give its team the opportunity to present to German surgeons the latest developments of its platform JAZZ[®], with JAZZ[®] Evo et JAZZ[®] Cap, the latest implants developed to meet the needs associated with adult vertebral fusion patterns. This market, addressed by Implanet GmbH is Europe's largest and worth circa \$300 million.

The DWG is a German medical association whose members specialize in vertebral column surgery. The DWG, which was founded in 2006, aims to promote an ethical and data-backed therapeutic approach for the treatment of vertebral column disorders. Its goal is to formulate policies and implement initiatives to deepen knowledge, undertake research and promote spine health specialties. DWG's membership of over 1,600 health professionals is made up of orthopedic and neuro surgeons, trauma specialists, researchers and other related clinicians.

"Our subsidiary Implanet GmbH, which has been based in Frankfurt, Germany, for the past year, allows us to address this very important market in Europe through our direct sales model. Implanet is now present in several leading German hospitals, and we are pleased to be able to share the progress made, as well as our various experiences and medical opinions with German spine surgeons at this 14th Annual DWG Congress this week in Munich." said **CEO Ludovic Lastennet**.

Next financial press release: 2019 annual revenue, on Tuesday January 21st, 2020 (after market)

About Implanet

Founded in 2007, Implanet is a medical technology company that manufactures high-quality implants for orthopedic surgery. Its flagship product, the JAZZ[®] latest-generation implant, aims to treat spinal pathologies requiring vertebral fusion surgery. Implanet's tried-and-tested orthopedic platform, which is based on perfect control over the traceability of its products, provides it with a proven ability to promote this innovation. Protected by four families of international patents, JAZZ[®] has obtained 510(k) regulatory clearance from the Food and Drug Administration (FDA) in the United States and the CE mark. Implanet employs 38 staff and recorded 2018 sales of €6.7 million. For further information, please visit www.Implanet.com.
