

Eutelsat announces the appointment of Pascal Homsy as Chief Technical Officer

Paris, 10 November 2020 – Eutelsat Communications (Euronext Paris: ETL) announces the appointment of Pascal Homsy as Chief Technical Officer.

Pascal joins Eutelsat from Thales Alenia Space where he was head of the Space Telecommunications Business Line. He brings with him some 30 years' experience of senior management positions within major international groups, notably the telecoms conglomerate, Alcatel/Lucent/Nokia and the IT Services leader, Atos.

A seasoned Chief Technical Officer, Pascal has headed teams specialised in IP Platforms, Voice and Services, Fixed Networks, Broadband Wireless and Mobile Networks. In addition, he brings end-to-end knowledge of our value chain, having served in several Global Account Management and Sales Support roles at Alcatel, where he was notably in charge of the relationship with Orange.

Pascal also has considerable international experience, having spent the early part of his career in charge of Alcatel's activities in numerous APAC markets, and subsequently holding responsibility for EMEA in various technology and commercial roles.

A French national, Pascal holds a Master of Sciences from Telecom Paris Tech.

Commenting on the appointment, Rodolphe Belmer said: *"I am confident that Pascal's extensive skill-set will be a great asset to Eutelsat as we pursue the transformation of our group to capture the Connectivity opportunity"*.

Pascal will join Eutelsat in January and will sit on the Executive Committee. He replaces Yohann Leroy who has decided to continue his professional career outside the Group. I take this opportunity to warmly thank Yohann for his key contribution to Eutelsat's development and to wish him well in his future endeavors.

About Eutelsat Communications

Founded in 1977, Eutelsat Communications is one of the world's leading satellite operators. With a global fleet of satellites and associated ground infrastructure, Eutelsat enables clients across Video, Data, Government, Fixed and Mobile Broadband markets to communicate effectively to their customers, irrespective of their location. Around 7,000 television channels operated by leading media groups are broadcast by Eutelsat to one billion viewers equipped for DTH reception or connected to terrestrial networks. Headquartered in Paris, with offices and teleports around the globe, Eutelsat assembles 1,000 men and women from 46 countries who are dedicated to delivering the highest quality of service.
