

The Vicat group (Euronext Paris: FR0000031775 - VCT), announces that its Swiss subsidiary Vigier Holding SA has concluded the sale of Creabéton Matériaux SA to the Müller Steinag Holding group, based in Switzerland.

Creabéton Matériaux SA, specializing in the prefabrication of concrete products, with a workforce of nearly 380 employees, achieved a turnover of 91 million Swiss francs in 2020. Vigier Holding SA retains its Rail activity, with critical size in this specific sector.

With this acquisition, the Müller Steinag Holding group, co-owner of the Creabéton brand since 2002, will be able to strengthen its positions in prefabrication, at the heart of its activity, and to access new markets. Creabéton Matériaux SA will, for its part, be able to rely on a leader with critical mass in a highly competitive sector and have the necessary means to successfully pursue its development.

This sale operation remains subject to certain conditions precedent. It should be finalized at the end of the first half of 2021.
