

AFYREN announces its financial calendar for fiscal year 2022

Clermont-Ferrand/Lyon, December 8, 2021 at 17:45 CET - AFYREN, a greentech company that offers manufacturers natural, low-carbon products created with technology based on natural micro-organisms, announces today its financial calendar for 2022.

Indicative financial calendar¹

Events	Dates
2021 FULL-YEAR RESULTS	THURSDAY MARCH 24 2022
ANNUAL GENERAL MEETING	WEDNESDAY JUNE 15 2022
2022 HALF-YEAR RESULTS	TUESDAY SEPTEMBER 27 2022

About AFYREN

Founded in 2012 to meet the growing need of industries to reduce the use of petroleum derivatives in their production chain, AFYREN produces biomolecules derived from the reuse of non-food biomass. These ingredients are widely used in human and animal nutrition, flavors and fragrances, cosmetics, and fine chemicals. This production of renewable carbon, which is firmly grounded in the circular economy, uses fermentation technologies that are the result of 10 years of research and are patented worldwide. AFYREN is a winner of the 2030 Global Innovation Contest in the "Plant proteins and plant chemistry" category and was selected in the French Tech 120 in 2020 and 2021. In 2018, AFYREN committed to its industrial project by creating the AFYREN NEOXY joint venture with Bpifrance's SPI fund. The AFYREN NEOXY plant under construction in the Grand Est region will produce AFYREN organic acids in 2022. AFYREN and AFYREN NEOXY employ more than 70 people at their sites in Lyon, Clermont-Ferrand and Carling Saint-Avoid. In 2021, AFYREN listed on Euronext Growth® exchange in Paris, raising a total amount of 70.4 million euros with the objective of accelerating its industrial development (Afyren's ISIN: FR0014005AC9, ticker: ALAFY).
