Cyprus: TotalEnergies announces significant offshore gas discovery in Block 6

Paris, August 22, 2022 – TotalEnergies and Eni (operator) have made a significant gas discovery at the Cronos-1 well, in Block 6, offshore Cyprus. This discovery follows the Calypso-1 discovery made on the same Block in 2018.

Located at approximately 160 km southwest of the Cyprus coast, Cronos-1 encountered several good quality carbonate reservoir intervals and confirmed overall net gas pay of more than 260 meters.

“This successful exploration well at Cronos-1 is another illustration of the impact of our Exploration strategy which is focused on discovering resources with low technical cost and low carbon emissions, to contribute to energy security including to provide an additional sources of gas supply to Europe” said **Kevin McLachlan, Senior Vice President, Exploration at TotalEnergies**.

The drilling of another exploration well on Block 6 is planned, in order to investigate significant additional resource upside and to evaluate the best development options.

TotalEnergies holds a 50% interest in Block 6, where Eni is the operator (50%). In Cyprus, TotalEnergies is also present in offshore Block 11 (50%, operator), 7 (50%, operator), 2 (20%), 3 (30%), 8 (40%) and 9 (20%).

About TotalEnergies

TotalEnergies is a global multi-energy company that produces and markets energies: oil and biofuels, natural gas and green gases, renewables and electricity. Our more than 100,000 employees are committed to energy that is ever more affordable, cleaner, more reliable and accessible to as many people as possible. Active in more than 130 countries, TotalEnergies puts sustainable development in all its dimensions at the heart of its projects and operations to contribute to the well-being of people.
