THEOplayer Is Latest Video Player to Integrate with Verimatrix Streamkeeper Multi-DRM

Technology partnership simplifies and speeds up the delivery of secure, cutting-edge video on any device

Aix-en-Provence, France and San Diego, USA, August 25, 2022– Verimatrix, (Euronext Paris: VMX), the leader in powering the modern connected world with people-centered security, today announced THEO Technologies has completed the integration of its THEOplayer with Verimatrix Streamkeeper^{SM}.

One of the world's leading video players, THEOplayer is now integrated into Verimatrix's Streamkeeper Multi-DRM, available in the Verimatrix Secure Delivery Platform. Through this Verimatrix-THEOplayer integration, compatibility and speed to market is enhanced, allowing users to focus on their core business with the assurance that powerful video security and anti-piracy protections are not only deployed, but continually maximized.

The Streamkeeper Multi-DRM service is designed from the ground up to deliver studio-endorsed best practices for content protection with meticulous focus on ensuring superior video viewer experiences. Streamkeeper, at large, is a suite of novel and adaptive cybersecurity technologies that include and go beyond DRM to allow video service providers to manage revenue risk in a world of continuously changing threats from video piracy and cybercriminals. It is available in multiple tiers and includes features such as multi-DRM, a real-time performance dashboard, on-call support integrations and alerts, individual device risk scoring, anti-piracy countermeasures, and much more.

"It was exciting to see this collaboration with Verimatrix come to a close, where we can provide every service provider with a powerful and easy-to-use anti-piracy toolbox to protect their content," said Michel Roofthooft, vice president of engineering at THEO Technologies.

"As we continue to expand our network of integrated security solutions for Verimatrix Streamkeeper Multi-DRM, we are honored to have an innovative technology partner like THEO Technologies become part of our platform," said Sebastian Braun, senior director of product management. "By working together, we make it faster, easier and more cost-effective than ever to securely offer video content through numerous devices and platforms; a win-win for our customers."
