

Eurofins Sustainability Solutions Launched

27 September 2022

Climate change, deforestation, pollution, and waste means that sustainability has become one of the most important global topics. With climate change impact a major topic of concern for authorities and consumers, companies must adopt strategies that enable them to deliver sustainable products and services to the market.

The goal of Eurofins Sustainability Solutions is to bring together a wide range of Eurofins companies' sustainability offerings in one place, to enable global customers to benefit from the Eurofins network's market leading solutions to contribute to product and enterprise sustainability.

Sustainability services are provided throughout the global Eurofins network, with Eurofins companies offering a wide range of solutions tackling, among other topics, microplastics, emissions, chemistry, wastewater, biodegradability and eco toxicity testing services, supply chain audits, life cycle analysis, vegan certification, recyclability assessments, and more.

The Eurofins Sustainability Solutions team can connect customers to the relevant Eurofins company that has the right solutions to meet their sustainability needs.

For businesses that are starting their sustainability journey, Eurofins sustainability experts offer video consultations and can help companies develop a strategy and roadmap to meet their sustainability objectives.

About Eurofins – the global leader in bio-analysis

Eurofins is Testing for Life. Eurofins is the global leader in food, environment, pharmaceutical and cosmetic product testing, and in discovery pharmacology, forensics, advanced material sciences and agrosience Contract Research services. Eurofins is also a market leader in certain testing and laboratory services for genomics, and in the support of clinical studies, as well as in BioPharma Contract Development and Manufacturing. The Group also has a rapidly developing presence in highly specialised and molecular clinical diagnostic testing and in-vitro diagnostic products.

With over 61,000 staff across a decentralised and entrepreneurial network of 940 laboratories in 59 countries, Eurofins offers a portfolio of over 200,000 analytical methods to evaluate the safety, identity, composition, authenticity, origin, traceability and

purity of a wide range of products, as well as providing innovative clinical diagnostic testing services and in-vitro diagnostic products.

The Group's objective is to provide its customers with high-quality services, innovative solutions and accurate results on time. Eurofins is ideally positioned to support its clients' increasingly stringent quality and safety standards and the increasing demands of regulatory authorities as well as the requirements of healthcare practitioners around the world.

In 2020 and 2021, Eurofins reacted quickly to meet the global challenge of COVID-19, by creating the capacity to help over 20 million patients monthly who may have been impacted by the pandemic with our testing products and our services and directly supporting healthcare professionals working on the front line to fight the virus. The Group has established widespread PCR testing capabilities and has carried out over 40 million tests in its own laboratories, is supporting the development of a number of vaccines and has established its SAFER@WORK™ testing, monitoring and consulting programmes to help ensure safer environments, travel and events during COVID-19.

Eurofins has grown very strongly since its inception and its strategy is to continue expanding its technology portfolio and its geographic reach. Through R&D and acquisitions, the Group draws on the latest developments in the field of biotechnology and analytical chemistry to offer its clients unique analytical solutions.

Shares in Eurofins Scientific are listed on the Euronext Paris Stock Exchange (ISIN FR0014000MR3, Reuters EUFI.PA, Bloomberg ERF FP).
