## Latecoere completes Figeac Aero investment in Mexico

Latecoere, a "tier 1" international partner group of the world's largest aircraft manufacturers, announces today that the IMMEX\* authorization has been granted and consequently the closing of the Figeac Aero asset transaction in Hermosillo Mexico has occurred.

This investment is part of Latecoere's overall strategy to strengthen the competitiveness of its activities in North and South America, and particularly within the Aerostructures market.

*\*As a reminder, the IMMEX authorization is an instrument that allows the temporary importation of goods that are used in an industrial process or service, to produce, transform or repair foreign goods temporarily imported for subsequent exportation, without paying the VAT and countervailing duties, and defer or waive import tax*
