*Paris, 6<sup>th</sup> October 2022* – Korian, the leading European care services group for elderly and fragile people, confirms its ambition for excellence in care quality, supported notably with the new certification of 99 of its facilities.

Korian launched in 2019 an ambition to certify all of its facilities ISO 9001 by 2023, as part of an ESG roadmap concentrating on bringing better care to residents and patients and better transparency and accountability for families and loved ones.

Following the first step of defining the standards of the Group, the certification process with external auditors (AFNOR in France, DEKRA in Germany for example) has been ongoing. The Group has now reached certification for 42% of the assets originally identified in 2019 (337 facilities from this scope), after being at 29% at the end 2021. Germany has been particularly active in the last few months with 160 facilities now certified.

The Group aims to reach 50% of its network certified by the end of this year and 100% by the end of 2023.
