**Paris, France, 24 January 2023 – 7:00am (CET)** – Advicenne (Euronext: ADVIC), a specialty pharmaceutical company dedicated to developing and commercializing innovative treatments for those suffering from rare renal diseases, announces today 2022 sales of €3.7 million, up 13% compared to the previous year (2021: €3.3 million).

The 2022 growth is mainly driven by the sales of Sibnaya<sup>®</sup>, growing 40% to €1.4 million (vs. €1 million in 2021). Sibnaya<sup>®</sup>, a fixed dose combination of potassium citrate and potassium bicarbonate is indicated for the treatment of distal renal tubular acidosis (dRTA) in adults, adolescents, and children over 1 year of age.

The second half of 2022 saw a sharp acceleration in Sibnaya<sup>®</sup> sales growth. The latter increased by 70% thanks to the launch in Great Britain by Advicenne's team, the various partnerships concluded in Europe coming into force and the development of therapeutic management of patients suffering from dRTA in France. However, sales of Sibnaya<sup>®</sup> are still mostly carried out under various European Early Access Programs providing early availability of the drug.

The Neurology franchise (Likoizam<sup>®</sup> and Ledvicen<sup>®</sup>) remained stable at €2.3 million.
