

# PRESS RELEASE

2022: robust growth and record profitability in a highly challenging year 2023: sustained like-for-like growth and new margin gains

- Record results in line with the targets recently raised: +12.5%<sup>(1)</sup> like-for-like growth in revenue and a 15.5% operating margin, up +40 basis points
- Outlook for 2023: sustained strong like-for-like growth of around +10%<sup>(1)</sup>; further improvement in operating margin (up +20 basis points)
- 2025 targets confirmed, at more than €10 billion in revenue and a 16% operating margin
- A strong, enduring CSR commitment, reaffirmed in 2022 with new advances

**PARIS, February 16, 2023** - The Board of Directors of Teleperformance, a global leader in outsourced digital integrated business services, met today and reviewed the consolidated and parent company financial statements for the year ended December 31, 2022. The Group also announced its financial results for the year.

### Robust growth and record margins

•	Revenue:	€8,154 million Up +14.6% as reported Up +12.5% like-for-like excluding Covid support contracts <sup>(1)</sup> Up +5.7% like-for-like <sup>(2)</sup>
	EBITA before non-recurring items: Net profit – Group share: Dividend per share: Net free cash flow:	Up + 17.8 % to €1,262 million (margin of 15.5%, up +40 bps) Up +15.8% to €645 million Up +16.7% to €3.85 <sup>(3)</sup> Up +6.3% to €703 million

#### **Acquisition of PSG Global Solutions**

- A leading provider of digital recruitment process outsourcing solutions in the United States
- Enhances the Group's leadership in its activities serving the US healthcare sector
- Strengthens the Group's digital recruitment practices, creating a significant competitive advantage at a time of scarce human resources.

#### A strong, enduring CSR commitment reaffirmed in 2022

- With more than 410,000 employees, development of an efficient and responsible hybrid organization, combining workfrom-home and on-site solutions, with around 50% of employees now working remotely
- Ranked 11<sup>th</sup> in the world's Top 25 Best Workplaces by Fortune Magazine, in partnership with Great Place to Work<sup>®</sup>; Best Employer certification earned in 64 countries covering more than 97% of the total workforce
- Successful deployment of the wide-ranging action and communication plan in response to the unfounded polemics that emerged in the second half concerning ESG practices in the Group's content moderation activities in the United States and Colombia
- Signature of a global agreement with UNI reflecting a concerted commitment to improving the workplace environment

#### Outlook for 2023

- Around +10% like-for-like revenue growth (excluding Covid support contracts)
- More than +7%<sup>(2)</sup> like-for-like revenue growth
- A +20 basis-point increase in EBITA margin before non-recurring items, to 15.7%
- Further targeted acquisitions capable of creating value and strengthening high value-added businesses

#### Ahead of schedule in delivering the reaffirmed 2025 financial targets

- Revenue above €10 billion at constant scope of consolidation
- EBITA margin before non-recurring items of around 16%

(1) At constant scope of consolidation and exchange rates, excluding the impact of lower revenue from Covid support contracts (2) At constant scope of consolidation and exchange rates (3) Subject to shareholder approval at the next Annual General Meeting, to be held on April 13, 2023. The ex-dividend date would be on April 21, 2023 and the dividend would be paid on April 25, 2023

<u>NB</u>: The alternative performance measures (APMs) are defined in Appendix 3

1/17

The Group's statutory auditors performed their audit procedures on those financial statements and their audit report will be issued at the end of February 2023.

\* Subject to shareholder approval at the next Annual General Meeting, to be held on April 13, 2023

Commenting on this performance, Teleperformance Chairman and Chief Executive Officer Daniel Julien said: "2022 was a highly challenging year for the Group, but more importantly, it was a year of success and robust growth. Revenue rose by almost +15% as reported to amply exceed &8 billion for the year. Recurring like-for-like growth stood at  $+12.5\%^*$ , while operating margin improved by 40 basis points, in line with the raised targets issued in late November last year. Teleperformance once again delivered sustained growth in net profit, with a +16% increase. In an uncertain economic and geopolitical environment, this solid performance reflects the appeal and resilience of our business model, which is built on our positioning as the preferred global partner helping to drive the digital transformation of many digital economy leaders and large corporations in a wide range of client industries, as well as government agencies around the world.

The year also saw the acquisition of a leader in digital recruitment process outsourcing solutions in the United States, a move that fits seamlessly with our "TP Cube" growth strategy. It has enabled us to further strengthen our leadership in activities serving the US healthcare sector and our own digital recruitment practices. This represents a significant competitive advantage at a time of scarce human resources and fast-changing recruitment and hiring practices.

**The Group's growth was not only robust, it was also responsible.** With more than 410,000 employees in 91 countries, half of whom are currently working from home, workplace well-being and the continuous application of ESG best practices are absolute priorities for Teleperformance. This commitment was recognized by our ranking this year as no. 11 of more than 10,000 companies assessed in Fortune Magazine's Top 25 Best Workplaces in partnership with Great Place to Work<sup>®</sup>.

We therefore took very seriously the repeated and unfounded polemics in social and other media concerning our ESG practices, which triggered a sudden plunge in our stock price last November 10. We quickly deployed an action and communication plan to restore the confidence of the entire financial community, which included:

- Announcing, on November 11, a €150 million share buyback program to protect the interests of our shareholders,
- In the United States, launching an external audit by a world-class firm, confirming that there had been no legal or ethical violations in our content moderation activities,
- In Colombia, organizing a number of constructive meetings with the Colombian government leading to positive outcome, and commissioning an external audit by Bureau Veritas, which enabled the Group to receive independent assurance regarding use and inclusion of International Standard ISO 26000 -social responsibility- guidelines.
- Withdrawing from the highly egregious Trust & Safety content moderation segment, to attenuate the perception risks associated with those activities,
- Signing a worldwide agreement with UNI Global Union.

The action plan was pursued in early 2023 with the organization of the TP Open Doors site visits on January 17 and 24 for investors and analysts in six countries on four continents. This unprecedented, wide-ranging transparency initiative enabled investors to form their own opinions by having 'seen and touched' the reality on the ground.

In late January 2023, the OECD National Contact Point acknowledged that its recommendations had been effectively applied, thereby ending its proceedings, while emphasizing the Group's proper performance of its duty of care.

In addition, on February 1, the Group released the results of an independent, worldwide survey of its content moderation employees worldwide by the Korn Ferry organizational consulting firm. The highly satisfactory findings rank Teleperformance very high in employee well-being among a sample of 600 companies.

Lastly, after Colombia, our content moderation employees and processes in six other countries were audited by Bureau Veritas, with findings released on February 13. Teleperformance received independent assurance regarding use and inclusion of International Standard ISO 26000 -social responsibility- guidelines in these countries.

In 2023, Teleperformance will continue to grow its business at a sustained pace and increase its margins. Over the year, it expects to deliver recurring like-for-like growth of around  $+10.0\%^*$  and a 20 basis-point improvement in margin. Well ahead of our roadmap, we are confirming our 2025 financial targets of at least  $\leq 10$  billion in revenue, excluding acquisitions, and a 16% EBITA margin."

\* Excluding the impact of lower revenue from Covid support contracts

-----

# 2022 REVENUE

# **C**ONSOLIDATED REVENUE

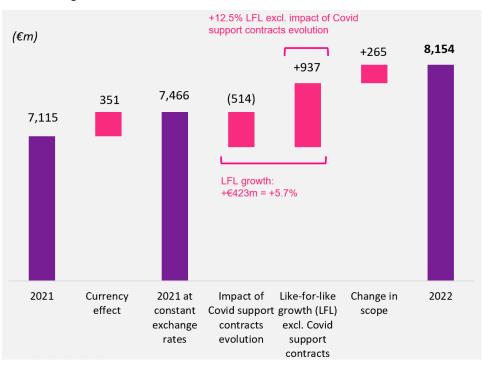

Revenue amounted to &8,154 million for the year ended December 31, 2022, representing a year-on-year increase of +5.7% at constant exchange rates and scope of consolidation (like-for-like) and of +14.6% as reported. Reported revenue was lifted by the +&351 million positive currency effect, stemming mainly from the rise in the US dollar against the euro. Changes in the scope of consolidation added &265 million, reflecting the consolidation of Health Advocate from July 1, 2021, Senture from January 1, 2022 and PSG Global Solutions from November 1, 2022.

Like-for-like growth in 2022 was particularly strong given the negative impact of lower revenue from Covid support contracts (down -€514 million compared with 2021). Adjusted for this expected non-recurring impact, like-for-like growth stood at +12.5% for the year.

This robust performance, in an uncertain economic and geopolitical environment, reflects the appeal and resilience of the Group's business model. Its global footprint and attractive offering of integrated solutions have positioned the Group as a preferred partner helping to drive the digital transformation of many digital economy leaders and large corporations in a wide range of client industries.

The Specialized Services activities also enjoyed sustained growth, led by the ongoing strong recovery of TLScontact's visa application management business and the steady development of LanguageLine Solutions' online interpreting business, particularly in the second half.

Fourth-quarter revenue amounted to €2,152 million, up +11.5% as reported, including a favorable currency effect, stemming primarily from the rise in the US dollar against the euro, and the positive impact of the first-time consolidation of Senture and PSG Global Solutions. Like-for-like growth, which came to +4.8% compared with fourth-quarter 2021, was reduced by almost 100 basis points due to the impact of hyperinflation in Argentina. This was a satisfactory performance given the absence of any material contribution from Covid support contracts during the quarter. Adjusted for this non-recurring impact, like-for-like growth stood at +10.8% for the period.

#### Analysis of 2022 revenue growth

# **R**EVENUE BY ACTIVITY

#### Preamble: new presentation by region

On October 1, 2022, Teleperformance introduced a new geographic organization aligned with the structure of its markets. This has led to a change in the Group's business segment reporting, which is based on regions. The breakdown of 2021 and 2022 revenue by quarter based on the new organization is provided in the Appendix.

#### Summary of differences between the former and current business reporting presentations

\* Digital Integrated Business Services

\*\* Excluding the impact of lower revenue from Covid support contracts ("Covid contracts")

#### Core Services & Digital Integrated Business Services (D.I.B.S.)

Revenue amounted to €6,989 million in 2022, a year-on-year increase of +3.8% like-for-like. Reported growth came to +11.0%, with the difference versus like-for-like growth primarily attributable to the rise against the euro in the US dollar and, to a lesser extent, in most other currencies including the Brazilian real, the Indian rupee and the Mexican peso. In addition, reported growth includes the contribution of Senture, which has been consolidated in the Group's financial statements from January 1, 2022.

Excluding the impact of Covid support contracts, the Core Services & D.I.B.S. activity delivered +11.7% growth on a like-forlike basis in 2022. This strong momentum is based in particular on the Group's robust and diversified client portfolio.

In the fourth quarter, Core Services & D.I.B.S. revenue amounted to €1,829 million, up +2.8% like-for-like from the prior-year period. Excluding the impact of Covid support contracts, like-for-like growth was +9.7%.

#### o North America & Asia-Pacific

Revenue totaled  $\leq 2,679$  million in 2022, representing a like-for-like increase of +11.3%. The reported increase of +31.3% was primarily attributable to favorable currency effects – corresponding to the rise against the euro in the US dollar and, to a lesser extent, in the Indian rupee, the Canadian dollar and the Philippine peso – and the positive impact of consolidating Senture from January 1, 2022.

Regional revenue come to €732 million in the fourth quarter, up +5.8% like-for-like The slowdown from prior quarters mainly reflected the less favorable comparatives for US onshore activities during the period (due to the rapid ramp-up of new contracts in late 2021) and the decline in activity in China, curtailed by the zero Covid policy.

In 2022, the region's primary growth drivers were offshore activities in India and the Philippines, which delivered very firm gains throughout the year, particularly in the travel, healthcare and financial services sectors. Offshore solutions are particularly attractive because they can effectively address temporary hiring difficulties encountered in the domestic labor market in the United States.

The US onshore activities reported a mixed performance that varied by client sector. The Group's satisfactory momentum in this market was led by the strength and diversification of its client portfolio. In particular, revenue in the social media, online entertainment and financial services sectors grew at a very brisk pace.

#### o LATAM

Revenue in the LATAM region amounted to €1,653 million in 2022, a year-on-year increase of +15.4% like-for-like. The reported increase of +21.8% mainly reflected the rise in the US dollar, Brazilian real and Mexican peso against the euro.

In the fourth quarter, revenue came to €416 million, up +12.5% on a like-for-like basis. The slowdown compared with previous quarters was mainly due to the hyperinflationary conditions in Argentina, which were very unfavorable over the quarter.

This very satisfactory performance was largely attributable to the Group's strong gains in the healthcare, social media, online entertainment and automotive sectors. In addition, the financial services and travel sectors maintained a satisfactory pace.

Over the full year, momentum was strong in most countries in the region. Business growth was particularly robust in Peru, the Dominican Republic and Mexico (domestic activities). Activities are also enjoying fast expansion in Nicaragua, Guatemala and Honduras, where Teleperformance recently opened new facilities.

#### o Europe & MEA (EMEA)

Revenue amounted to €2,657 million in 2022, a year-on-year decline of -7.7% like-for-like and of -8.3% as reported, with the difference corresponding to negative currency effects due mainly to the fall of the Turkish lira against the euro. The like-for-like decline in revenue is linked to the sharp decrease in the contribution from Covid support contracts in the Netherlands, the United Kingdom, France and Germany. Excluding the impact of Covid support contracts, like-for-like growth stood at +10.2%, with faster momentum in the second half.

In the fourth quarter, revenue in the region came to €681 million, down -4.9% on a like-for-like basis, due to the sharp decline in the contribution from Covid support contracts. Excluding the impact of Covid support contracts, like-for-like growth was +11.8%.

In 2022, the Group benefited from the start-up of many new contracts and fast growing demand from multinational clients, particularly in the automotive, travel, online entertainment and financial services sectors.

Multilingual activities, which are the primary contributors to the region's revenue stream and mainly serve the large global leaders in the digital economy, reported sustained growth for the year, particularly at the hubs in Portugal, Egypt and Turkey.

In addition, 2022 saw fast growth in the United Kingdom with the banking and insurance sectors and government agencies (excluding Covid support contracts).

Lastly, the German-speaking market was lifted by the strong gains in the nearshore activities and the ramp-up of new contracts, in particular for multinational clients in the travel and automotive sectors.

#### Specialized Services

Revenue from Specialized Services stood at  $\leq$ 1,165 million in 2022, a year-on-year increase of +18.6% like-for-like and of +42.0% as reported. The difference between like-for-like and reported growth stemmed from the favorable currency effect of the rise of the US dollar against the euro and the positive impact of consolidating Health Advocate since July 1, 2021 and of PSG Global Solutions since November 1, 2022.

Fourth-quarter revenue stood at €323 million, up +17.5% on a like-for-like basis, in line with the prior quarter trend line.

The recovery in TLScontact volumes continued in the fourth quarter. However, the basis for comparison was less favorable than in previous quarters, as passenger traffic picked up mainly from the second half of 2021 onwards. Business volume exceeded pre-crisis levels despite the lockdowns in China throughout the year. The recently announced reopening of the country should support TLScontact's growth in 2023.

The accelerated growth of LanguageLine Solutions, the main contributor to Specialized Services revenue, continued in the fourth quarter. The healthcare sector, which accounts for more than half of this business' revenue, notably continued to deliver rapid growth.

# 2022 RESULTS

EBITDA before non-recurring items stood at €1,750 million for 2022, up +18.4% from the prior year. EBITDA margin before non-recurring items widened by 80 basis points to 21.5%.

EBITA before non-recurring items rose by +17.8% to €1,262 million from €1,071 million in 2021, representing a margin of 15.5% versus 15.1% in 2021. The improvement was led by the swift growth in the Specialized Services activities, whose strong margins further widened, thanks in particular to the sharp recovery in TLScontact volumes. Core Services and D.I.B.S. margins remained solid despite the adverse impact of the steep falloff in the contribution from Covid support contracts. In addition, reported margins were boosted by the rise in the dollar against the euro with a positive transaction effect linked to the Group's offshore activities and a positive translation effect (mix).

# **OPERATING EARNINGS BY ACTIVITY**

#### **EBITA** BEFORE NON-RECURRING ITEMS BY ACTIVITY

	2022	2021
€ millions		
CORE SERVICES & D.I.B.S.*	890	824
% of revenue	12.7%	13.1%
North America & Asia-Pacific	330	221
% of revenue	12.3%	10.8%
LATAM	219	187

Europe & MEA (EMEA)	271	350
% of revenue	10.2%	12.1%
Holding companies	70	66
SPECIALIZED SERVICES	372	247
% of revenue	31.9%	30.2%
TOTAL	1,262	1,071
% of revenue	15.5%	15.1%

\* Digital Integrated Business Services

#### <u>Core Services & D.I.B.S.</u>

Core Services & D.I.B.S reported EBITA before non-recurring items of €890 million in 2022, up from €824 million in 2021. EBITA margin declined to 12.7% from 13.1% the year before, reflecting contrasting trends by region, with the EMEA region in particular negatively affected by the lower contribution from Covid support contracts.

#### o North America & Asia-Pacific

EBITA before non-recurring items in the North America & Asia-Pacific region rose to €330 million from €221 million in 2021. EBITA margin widened sharply to 12.3% from 10.8% the year before, impelled primarily by the renewed momentum in offshore activities in the Philippines and the strong growth in high value-added offshore activities in India.

#### o LATAM

EBITA before non-recurring items in the Ibero-LATAM region rose to €219 million in 2022 from €187 million the year before, while EBITA margin stood at 13.3%, versus 13.7% in 2021. The period-on-period decline was due to the development costs incurred for the opening and the ramp up of numerous new sites to support the rapid pace of business growth, especially in Peru and Colombia.

#### o Europe & MEA (EMEA)

EBITA before non-recurring items in the EMEA region came to  $\notin$ 271 million in 2022, versus  $\notin$ 350 million in 2021, yielding a margin of 10.2% versus 12.1% one year earlier. The margin decline was mainly due to the sharp falloff in the contribution from Covid support contracts which had a very positive impact on the region's margin in 2021, notably in France and the Netherlands.

#### Specialized Services

Specialized Services reported EBITA before non-recurring items of €372 million in 2022, compared with €247 million in 2021. EBITA margin expanded to 31.9% from 30.2% in 2021.

This good performance mainly reflects the return of TLScontact's operating margins to levels close to those achieved pre-Covid-19, following a strong recovery in business volumes, satisfactory growth in premium ancillary services and implementation of cost-cutting measures during the crisis.

LanguageLine Solutions' margin remained high, buoyed by the satisfactory growth in business, especially in the second half. It is also being supported by the company's clear leadership in the North American online interpreting market, its efficient business model based on entirely home-based interpreters and unrivaled technological tools, the successful development of video interpreting solutions, and a very assertive marketing process.

# **O**THER INCOME STATEMENT ITEMS

EBIT amounted to €994 million, versus €869 million in 2021. It included:

- amortization of acquisition-related intangible assets in an amount of €141 million, versus €111 million in 2021;
- €113 million in accounting expenses relating to performance share plans, versus €87 million the year before.

The financial result represented a net expense of  $\notin$  93 million, on a par with the  $\notin$  94 million reported in 2021, despite the increase in interest rates over the year.

Income tax expense came to €256 million, corresponding to an effective average tax rate of 28.5%, versus 28.1% in 2021.

Net profit – Group share totaled €645 million, up +15.8% from €557 million in 2021, while diluted earnings per share came to €10.80, versus €9.36 the year before.

The Board of Directors will recommend that shareholders at the Annual General Meeting on April 13, 2023 approve an increase in the 2022 dividend to €3.85 per share from the €3.30 paid in respect of 2021. This would correspond to a payout ratio of 36%.

21-25 rue Balzac, 75406 Paris Cedex 08 France. Siret 301 292 702 00059. Code APE 6420Z.

# CASH FLOWS AND FINANCIAL STRUCTURE

Net free cash flow after lease expenses, interest and tax paid amounted to €703 million, versus €661 million the year before, representing an increase of +6.3%.

The change in consolidated working capital requirement over the year was an outflow of €172 million, compared with an outflow of €75 million in 2021. The increase, part of which was non-recurring, was led by (i) the €18 million in social security contribution payments that had been deferred under measures taken by certain governments in response to the Covid crisis and (ii) the €75 million impact of phasing out, in 2022, the use of temporary employment agencies, which had helped to meet peak demand for Covid support in 2021

Net capital expenditure amounted to €297 million, or 3.6% of revenue, versus €229 million and 3.2% in 2021. This level corresponds to expenditure to develop a hybrid model combining work-from-home and on-site solutions throughout the world (see Operating Highlights).

Net debt stood at  $\pounds$ 2,609 million at December 31, 2022, virtually unchanged from a year earlier ( $\pounds$ 2,656 million). Dividend payments totaled  $\pounds$ 194 million, financing of the share buyback program  $\pounds$ 146 million and the acquisition of PSG Global Solutions  $\pounds$ 304 million. As a result, the net debt-to-EBITDA ratio came to 1.50x, or 1.47x on a pro forma basis excluding the PSG Global Solutions acquisition.

The Group's liquidity improved during year following the refinancing transactions carried out in June.

# **2022 OPERATING HIGHLIGHTS**

#### Hybrid expansion of the global footprint

In 2022, Teleperformance continued to deploy its global expansion strategy in the structurally growing outsourced customer and citizen experience management market despite the uncertain economic and geopolitical environment. Over 30 new sites were opened around the world, notably in Europe, Africa, the United States, Peru, and Colombia, adding nearly 12,000 workstations.

The Group has developed a hybrid service model. Existing sites were reorganized during the year and employees continued to be offered work-from-home solutions. As of December 31, 2022, some 50% of employees were telecommuting.

#### <u>Acquisition of PSG Global Solutions</u>

In October 2022, Teleperformance announced the acquisition of PSG Global Solutions, a leading provider of digital recruitment process outsourcing (RPO) solutions in the United States. The transaction enabled the Group to further strengthen its high value-added Specialized Services activities, its leading position in the fast-growing US healthcare sector, and its digital recruitment practices.

The consideration for the transaction was US\$300 million. The company has been fully consolidated since November 1, 2022.

#### Best Employer certifications: 64 country organizations certified

Teleperformance has made the well-being of its employees a key priority worldwide. As of December 31, 2022, the Group had been certified in 64 countries as a "Best Employer" by independent experts like Great Place to Work. These certifications cover more than 97% of the Group's global workforce, versus 70% pre-Covid (22 country organizations certified as of end-2019).

#### Action and communication plan launched in November 2022 in response to ESG polemics in the media in H2 2022

In November 2022, an action and communication plan was deployed to restore the confidence of the entire financial community, which had been shaken by **repeated and unfounded polemics in social and other media concerning the Group's ESG practices**, which triggered a sudden plunge in the stock price on November 10. The plan primarily involved:

- Announcing, on November 11, a €150 million share buyback program to protect the interests of Teleperformance shareholders
- In the United States, launching an external audit by a world-class firm, confirming that there had been no legal or ethical violations in Teleperformance USA's content moderation activities

- In Colombia, organizing a number of constructive meetings with the Colombian government leading to positive outcome and commissioning an external audit by Bureau Veritas, which enabled the Group to receive independent assurance regarding use and inclusion of International Standard ISO 26000 -social responsibility- guidelines
- Withdrawing from the highly egregious Trust & Safety content moderation segment, to attenuate the perception risks associated with those activities
- Signing a worldwide agreement with UNI Global Union

The action plan was pursued in early 2023 with the organization of TP Open Doors site visits on January 17 and 24 for investors and analysts in six countries on four continents. This unprecedented, wide-ranging transparency initiative enabled investors to form their own opinions by having 'seen and touched' the reality on the ground.

In late January 2023, the OECD National Contact Point acknowledged that its recommendations had been effectively applied, thereby definitively ending its proceedings, while emphasizing the Group's proper performance of its duty of care.

On February 1, 2023, the Group released the results of an independent, worldwide survey of its content moderation employees worldwide by the Korn Ferry organizational consulting firm. The highly satisfactory findings rank Teleperformance very high in employee well-being among a sample of 600 companies.

Lastly, after Colombia, Teleperformance's content moderation employees and processes in six other countries were audited by Bureau Veritas, with findings released on February 13. 2023. Teleperformance received independent assurance regarding use and inclusion of International Standard ISO 26000 -social responsibility- guidelines in these countries.

#### For more information on the action and communication plan, please click here.

# OUTLOOK

#### 2023 financial objectives:

Teleperformance expects 2023 to be another year of sustained, profitable growth.

- Recurring like-for-like revenue growth of around +10% (excluding Covid support contracts);
- A more than €200 million decline in the contribution from Covid support contracts;
- Like-for-like revenue growth above +7%;
- A 20-basis point increase in EBITA margin before non-recurring items, to 15.7%;
- Further targeted acquisitions capable of creating value and strengthening the Group's business model.

#### 2025 financial objectives

Teleperformance is committed to becoming an undisputed global leader in digital integrated business services solutions by 2025.

The Group confirms that it is ahead of schedule in meeting its financial targets:

- Revenue above €10 billion at constant scope of consolidation
- EBITA margin before non-recurring items of 16%

Acquisitions will contribute €1 billion to €2 billion in additional revenue by 2025.

# APPENDIX 3 – GLOSSARY - ALTERNATIVE PERFORMANCE MEASURES

#### Change in like-for-like revenue:

Change in revenue at constant exchange rates and scope of consolidation = [current year revenue - last year revenue at current year rates - revenue from acquisitions at current year rates] / last year revenue at current year rates.

2021 revenue	7,115
Currency effect	351
2021 revenue at constant exchange rates	7,466
Like-for-like growth	423
Change in scope	265
2022 revenue	8,154

#### EBITDA before non recurring items or current EBITDA (Earnings before Interest, Taxes, Depreciation and Amortizations):

Operating profit before depreciation & amortization, depreciation of right-of-use of leased assets, amortization of intangible assets acquired as part of a business combination, goodwill impairment charges and non-recurring items.

	2022	2021
Operating profit	994	869
Depreciation and amortization	281	220
Depreciation of right-of-use of leased assets	192	174
Depreciation of right-of-use of leased assets – personnel related	15	13
Amortization of intangible assets acquired as part of a business combination	141	111
Goodwill impairment	8	-
Share-based payments	113	87
Other operating income and expenses	6	4
EBITDA before non-recurring items	1,750	1,478

#### EBITA before non recurring items or current EBITA (Earnings before Interest, Taxes and Amortizations):

Operating profit before amortization of intangible assets acquired as part of a business combination, goodwill impairment charges and non-recurring items.

	2022	2021
Operating profit	994	869
Amortization of intangible assets acquired as part of a business combination	141	111
Goodwill impairment	8	-
Share-based payments	113	87
Other operating income and expenses	6	4
EBITA before non-recurring items	1,262	1 ,071

#### Non recurring items:

Principally comprises restructuring costs, incentive share award plan expense, costs of closure of subsidiary companies, transaction costs for the acquisition of companies, and all other expenses that are unusual by reason of their nature or amount.

#### Net free cash flow:

Cash flow generated by the business - acquisitions of intangible assets and property, plant and equipment net of disposals - lease payments - financial income/expenses.

	2022	2021
Net cash flow from operating activities	1 294	1 141
Acquisition of intangible assets and property, plant and equipment	-298	-232
Proceeds from disposals of intangible assets and property, plant and equipment	1	3
Loans granted	-16	-
Loans repaid	15	-
Lease payments	-244	-218
Financial interest paid	-49	-33
Net cash flow from financing activities	703	661

#### Net debt:

Current and non-current financial liabilities - cash and cash equivalents

	12/31/2022	12/31/2021
Non-current liabilities*		
Financial liabilities	2,021	2,270
Current liabilities*		
Financial liabilities	710	546
Lease liabilities (IFRS 16)	688	687
Loan hedging instruments	7	-10
Cash and cash equivalents	-817	-837
Net debt	2,609	2,656
* Excluding lease liabilities		

Diluted earnings per share (net profit attributable to shareholders divided by the number of diluted shares and adjusted):

Diluted earnings per share is determined by adjusting the net profit attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding by the effects of all potentially diluting ordinary shares. These include convertible bonds, stock options and incentive share awards granted to employees when the required performance conditions have been met at the end of the financial year.
