ORPEA COMPLETES A NEW STEP OF ITS FINANCIAL RESTRUCTURING PROCESS WITH THE OPENING OF AN ACCELERATED SAFEGUARD PROCEDURE

ORPEA S.A. (the “**Company**”) announces the opening today of an accelerated safeguard procedure by the specialised Commercial Court of Nanterre, accompanied by an initial observation period set at 2 months, which may be renewed for two additional months without exceeding a total duration of 4 months maximum.

The purpose of initiating this procedure is notably to enable the Company to implement its restructuring plan in accordance with the agreements reached under (i) the lock-up agreement on the financial restructuring of the Company concluded on 14 February 2023 with the group of French long-term investors comprising Caisse des Dépôts, CNP Assurances, MAIF and MACSF, and on the other hand, five institutions holding the unsecured debt of Company (the “**SteerCo**”), to which approximately 51% of the Company’s unsecured creditors (including the members of the SteerCo) (representing an outstanding unsecured debt of approximately EUR 1.9 billion) adhered as at the longstop date of 10 March 2023 and (ii) the agreement (*accord d’étape dans la perspective de l’ouverture d’une sauvegarde accélérée*) concluded on 17 March 2023 between the Company and its main banking partners, providing for the terms and conditions of an additional financing of 600 million euros and an adjustment of the financing documentation of June 2022.

In this context, the Court appointed SELARL FHB, in the person of Hélène Bourbouloux, as judicial administrator and SELARL AJRS, in the Person of Thibaut Martinat, as co-judicial administrator.

As indicated several times by the Company in its previous communications, the implementation of the capital increases envisaged in the context of the financial restructuring plan, which are expected to be completed in the second half of 2023, will result in a massive dilution for the existing shareholders. On the basis of the financial parameters previously communicated by the Company and the valuation of the Company's equity used by the parties for the purposes of these operations, these capital increases would take place at issue prices significantly lower than the current stock market price of the ORPEA share.

The main features of the financial restructuring plan proposed by the Company as part of the accelerated safeguard procedure opened today are described in the Annex to this press release.

Notes:

1 In accordance with the provisions of Article L.626-30-2 of the French Commercial Code, the draft financial restructuring plan will be submitted to the approval of a two-third majority of the votes expressed by shareholders of the Company. In the event that the restructuring plan is not approved by a two-third majority of the votes expressed by the shareholders, it may, in accordance with Article L.626-32 of the French Commercial Code, be ordered by the Court at the request of the Company or the administrator with the agreement of the Company and be imposed on the shareholders, subject to compliance with the conditions set out in the aforementioned provisions (see also next page).

2 Excluding any reduction in nominal value and/or consolidation of shares prior to the implementation of capital increases.

3 In return for their commitment to backstop or subscribe to the capital increase with preferential subscription rights, a remuneration, via the issue of share warrants, will be attributed to the members of the Group and SteerCo (the “Warrants”). The Warrants will entitle the members of the Groupement and the SteerCo only, to subscribe for a total of 1,45% of the capital of the Company at an exercise price of 0,01 euro per share of the Company. A cash remuneration will be allocated in the absence of issuance of the Warrants.
