

PRESS RELEASE

Groupe Berkem launches Biombalance™, its new range of active ingredients for the Nutraceuticals market

- **Launch of a range of premium active ingredients targeting the balance of intestinal microbiota, a global public health issue**
- **Innovations based on ethically sourced natural extracts**
- **Strengthening of Groupe Berkem's position in the fast-growing food supplements market**
- **Presentation of the Biombalance™ range on October 25 and 26 at SupplySideWest show in Las Vegas, booth #6865**

Blanquefort (France), September 14, 2023, at 6:00 pm CEST - Groupe Berkem, a leading player in bio-based chemistry (ISIN code: FR00140069V2 - Ticker: ALKEM), announces the launch of Biombalance™, its new range of premium active ingredients for the Nutraceuticals market.

Olivier FAHY, Chairman and CEO of Groupe Berkem stated: *"We are particularly proud to be able to offer our customers a range of natural active ingredients with scientifically proven human health benefits. With the launch of Biombalance™, we are pursuing the strategy of broadening our offering that we initiated with the acquisition of i.Biocochemicals earlier this year, giving even greater credibility to our positioning in this fast-growing market. We are convinced that we can leverage our deep expertise in plant extraction in this business segment, for which innovation and the naturalness of products are key drivers."*

Eric Moussu, Vice President of Sales of Groupe Berkem, added: *"This new range of premium active ingredients represents the culmination of a long-standing effort by Groupe Berkem's R&D teams, and demonstrates once again the quality of the solutions we offer to the Health, Beauty & Nutrition segments. Indeed, in addition to reinforcing the Group's international development strategy, we are now in a position to offer the Nutraceuticals market ethically sourced ingredients, rigorously selected for their active molecules with a favourable impact on digestive health and scientifically proven benefits"*.

Based on Groupe Berkem's deep expertise in plant extraction and the development of active ingredients, the Biobalance™ range of premium ingredients meets the demand for food supplements targeting intestinal microbiota balance, a health issue affecting millions of people worldwide¹.

Thanks to its in-depth knowledge and expertise of plants and their active molecules, Groupe Berkem has selected ingredients targeting microbiota balance, restoring the intestinal barrier, reducing oxidative stress and restoring immune tolerance. The flagship product of this new range, Symgrape™, is a premium active ingredient derived from the extraction of polyphenols from grape seeds, one of the Company's long-standing activities, themselves rigorously selected, sustainably sourced and endowed with significant scientifically proven benefits for intestinal health.

With this new range, Groupe Berkem strengthens its position in the fast-expanding Nutraceuticals market, and more specifically in the food supplements segment for intestinal health, estimated at \$38.8 billion in 2021² and expected to grow by almost 9% a year between now and 2031³. This product launch also follows on from the acquisition of i.Bioceuticals in February 2023, which enabled Groupe Berkem to enter North America, the world's leading Nutraceuticals market⁴, where Groupe Berkem had already been distributing its natural active ingredients for several decades.

Alongside Symgrape™, the Biobalance™ range includes three additional premium ingredients with recognized virtues for the health of the human microbiota: Symint™, Mallowsym™ and Symthym™.

SupplySideWest show

Groupe Berkem will present its new Nutraceuticals range of food supplements on October 25 & 26, 2023 at SupplySideWest show in Las Vegas, booth #6865.

- **2023 First-Half Results and Third-Quarter Revenue**, October 26, 2023

ABOUT GROUPE BERKEM

Founded in 1993 by Olivier Fahy, Chairman and Chief Executive Officer, Groupe Berkem is a leading force in the bio-based chemicals market. Its mission is to advance the environmental transition of companies producing the chemicals used in everyday life (Construction & Materials, Health, Beauty & Nutrition, Hygiene & Protection, and Industry). By harnessing its expertise in both plant extraction and innovative formulations, Groupe Berkem has developed bio-based boosters—unique high-quality bio-based solutions augmenting the performance of synthetic molecules. Groupe Berkem achieved revenue of €51.8 million in 2022. The Group has almost 200 employees working at its head office (Blanquefort, Gironde) and 4 production facilities in Gardonne (Dordogne), La Teste-de-Buch (Gironde), Chartres (Eure-et-Loir) and Tonneins (Lot-et-Garonne).

Groupe Berkem has been listed on Euronext Growth Paris since December 2021 (ISIN code: FRO0140069V2 - ALKEM).
