Median Technologies to host two webcasts, and provide a company update on January 30, 2024

Sophia-Antipolis, France - Median Technologies (FR0011049824, ALMDT, PEA/SME eligible) announced today that Fredrik Brag, CEO and Founder of Median Technologies, will provide a company update on January 30, 2024:

- Webcast held in English: at 4:30 pm CET / 10:30 am ET
→ [Registration link](#)
- Webcast held in French: at 6:00 pm CET / 12:00 pm ET
→ [Registration link](#)

Webcast replays will be available on [Median's corporate website](#) after the live sessions.

About Median Technologies: Pioneering in innovative imaging solutions and services, Median Technologies harnesses cutting-edge AI to elevate the accuracy of early cancer and metabolic disease diagnoses and treatments. Median's offerings, including iCRO for medical image analysis and management in oncology trials and eyonis™, AI/ML tech-based suite of software as medical devices (SaMD), empower biopharmaceutical entities and clinicians to advance patient care and expedite novel therapies. Since its inception, the French-based company, with a presence in the U.S. and China, has been recognized as an "Innovative company" by BPI France and trades on the Euronext Growth market (ISIN: FR0011049824, ticker: ALMDT). Median is eligible for the French SME equity savings plan scheme (PEA-PME). For more information: www.medianttechnologies.com
