### **About AELIS FARMA**

Founded in Bordeaux in 2013, Aelis Farma is a biopharmaceutical company that is developing a new class of drugs, the Signaling-Specific inhibitors of the CB<sub>1</sub> receptor of the endocannabinoid system (CB<sub>1</sub>-SSi). CB<sub>1</sub>-SSi have been developed by Aelis Farma based on the discovery of a natural regulatory mechanism of CB<sub>1</sub> hyperactivity made by the team led by Dr. Pier Vincenzo Piazza, the Company's CEO, when he was the director of the Neurocentre Magendie of INSERM in Bordeaux. By mimicking this natural mechanism, CB<sub>1</sub>-SSi appear to selectively inhibit the disease-related activity of the CB<sub>1</sub> receptor without disrupting its normal

physiological activity. CB<sub>1</sub>-SSi have consequently the potential to provide new safe treatments for several brain diseases.

Aelis Farma is currently developing two first-in-class clinical-stage drug candidates: AEF0117 for the treatment of cannabis use disorder (CUD), that has just completed a phase 2b study in the United States with result expected in Q3 2024; and AEF0217 for cognitive disorders, including those of Down Syndrome (Trisomy 21), currently in a phase 1/2 study in Spain in people with Down syndrome. The Company also has a portfolio of new innovative CB<sub>1</sub>-SSi for the treatment of other disorders associated with a dysregulation of the activity of the CB<sub>1</sub> receptor.

Aelis Farma draws on the talents of more than 25 highly qualified employees.
