

Eurofins launches third buy-back programme of its own shares

02 September 2024

Eurofins Scientific SE (the "Company") (EUFI.PA) announces its intention to launch a new buy-back programme of its own shares (ISIN FR0014000MR3) for a maximum amount representing up to 2% of its share capital. This third programme follows the first programme that took place between 3 October 2022 and 8 August 2023 and the second programme that took place between 25 October 2023 and 30 August 2024. The new programme is commencing on 02 September 2024 and will last until 31 August 2026. The Company may at any time interrupt this programme in view of market conditions and/or the evolution of its investment strategy.

The shares to be purchased under this programme will be primarily used to hedge the Company's Long-Term Incentive plans but may also be cancelled, used to partially finance acquisitions or for other purposes approved by the Board of Directors and within the authorization of the EGM.

The Company is mandating an independent provider of financial services to execute the first tranche of this programme for a maximum duration of one month starting on 02 September 2024 and ending on 30 September 2024 with a maximum volume of 1,470,000 shares or 0.76% of its share capital.

Over the course of the second share buy-back programme, 2,700,000 shares were repurchased, representing 1.40% of the current share capital.

About Eurofins – the global leader in bio-analysis

Eurofins is Testing for Life. The Eurofins Scientific S.E. network of independent companies believes that it is a global leader in food, environment, pharmaceutical and cosmetic product testing and in discovery pharmacology, forensics, advanced material sciences and agrosience contract research services. It is also one of the market leaders in certain testing and laboratory services for genomics, and in the support of clinical studies, as well as in biopharma contract development and manufacturing. It also has a rapidly developing presence in highly specialised and molecular clinical diagnostic testing and in-vitro diagnostic products.

With ca. 62,000 staff across a decentralised and entrepreneurial network of more than 900 laboratories in over 1,000 companies in 62 countries, Eurofins offers a portfolio of over 200,000 analytical methods to evaluate the safety, identity, composition, authenticity, origin, traceability and purity of a wide range of products, as well as providing innovative clinical diagnostic testing services and in-vitro diagnostic products.

Eurofins companies' broad range of services are important for the health and safety of people and our planet. The ongoing investment to become fully digital and maintain the best network of state-of-the-art laboratories and equipment supports our

objective to provide our customers with high-quality services, innovative solutions and accurate results in the best possible turnaround time (TAT). Eurofins companies are well positioned to support clients' increasingly stringent quality and safety standards and the increasing demands of regulatory authorities as well as the evolving requirements of healthcare practitioners around the world.

The Eurofins network has grown very strongly since its inception and its strategy is to continue expanding its technology portfolio and its geographic reach. Through R&D and acquisitions, its companies draw on the latest developments in the field of biotechnology and analytical chemistry to offer their clients unique analytical solutions.

Shares in Eurofins Scientific S.E. are listed on the Euronext Paris Stock Exchange (ISIN FR0014000MR3, Reuters EUFI.PA, Bloomberg ERF FP).
