

Advicenne announces the publication in *Orphanet Journal of Rare Diseases* of the long-term European study results of dRTA treatment using ADV7103

- This extensive clinical dataset serves ADV7103 registration dossier in the United States of America, expected to be submitted in Q4 2025

Paris (France), August 26, 2025 – 6.00 pm CEST – Advicenne (Euronext Growth Paris - FR0013296746 - ALDVI), a pharmaceutical company specializing in the development and marketing of innovative treatments for people suffering from rare kidney diseases, announces the publication in *Orphanet Journal of Rare Disease* (OJRD) of the long-term results of the pivotal study of ADV7103 in the treatment of distal renal tubular acidosis (dRTA).

This European study conducted over more than six years in patients with dRTA, provides long-term clinical follow-up data on this rare disease and contributes to a better understanding of the natural history of patients affected by this rare disease.

The publication is available [here](#).

These clinical results form the core of the clinical part of the registration dossier for ADV7103 in the United States, which is expected to be submitted in Q4 2025.
