### About AELIS FARMA

Founded in Bordeaux in 2013, Aelis Farma is a biopharmaceutical company that is developing a new class of drugs, the Signaling Specific inhibitors of the CB<sub>1</sub> receptor of the endocannabinoid system (CB<sub>1</sub>-SSi). CB<sub>1</sub>-SSi have been developed by Aelis Farma based on the discovery of a natural regulatory mechanism of CB<sub>1</sub> hyperactivity made by the team led by Dr Pier Vincenzo Piazza, the Company's CEO, when he was the director of the Neurocentre Magendie of INSERM in Bordeaux. By mimicking this natural mechanism, CB<sub>1</sub>-SSi appear to selectively inhibit the disease-related activity of the CB<sub>1</sub> receptor without disrupting its normal physiological activity. CB<sub>1</sub>-SSi have consequently the potential to provide new safe treatments for several brain and peripheral organ diseases.

Aelis Farma currently has two first-in-class clinical-stage drug candidates. AEF0117 for the treatment of cannabis use disorders (CUD), that has shown to be able to decrease cannabis use across two studies. AEF0217 for cognitive disorders, which has shown in a Phase 1/2 to be safe and able to improve adaptive behavior in young adults with Down syndrome (Trisomy 21) and has started a Phase 2b in Europe aiming to confirm its efficacy and safety. The clinical results obtained with these 2 compounds have confirmed the safety and therapeutic activity of CB<sub>1</sub>-SSi in humans. The Company also develops a portfolio of new innovative CB<sub>1</sub>-SSi for the treatment of other disorders associated with a dysregulation of the activity of the CB<sub>1</sub> receptor, including diseases involving peripheral organs, such as obesity and related metabolic conditions. The different drugs developed by the company belong to the same general pharmacological class, the CB<sub>1</sub>-SSi, but have distinct functional effects allowing to target different types of dysregulations of the CB<sub>1</sub> receptor and guaranteeing that the different compounds are not substitutable one with the others.

Aelis Farma draws on the talents of more than 20 highly qualified employees.
