relating to

Warrants

INTRODUCTION

These Final Terms have been prepared for the purpose of Article 5 (4) of Directive 2003/71/EC (the "Prospectus Directive") as amended (which includes the amendments made by Directive 2010/73/EU (the "2010 PD Amending Directive") to the extent that such amendments have been implemented in a relevant Member State of the European Economic Area), as implemented by the relevant provisions of the EU member states, in connection with Regulation 809/2004 of the European Commission and must be read in conjunction with the base prospectus relating to Warrants dated 4 June 2014 (the "Base Prospectus") and any supplements thereto.

The Base Prospectus and any supplements thereto are published in accordance with Article 14 of Directive 2003/71/EC in electronic form on the website of COMMERZBANK Aktiengesellschaft at www.warrants.commerzbank.com. Hardcopies of these documents may be requested free of charge from the Issuer's head office (Kaiserstraße 16 (Kaiserplatz), 60311 Frankfurt am Main, Federal Republic of Germany).

In order to obtain all information necessary to the assessment of the Warrants both the Base Prospectus and these Final Terms must be read in conjunction.

The options marked in the following sections of the Base Prospectus shall apply:

Applicable Special Risks: In particular the following risk factors (2. "Special Risks") which are mentioned in the Base Prospectus are applicable:

- 2.1 Dependency of the redemption and the value of the Warrants on the performance of the Underlying (Warrants (CALL))
 - Variant 1: Classic**
- 2.8 Warrants with an exercise option during the term (American exercise)
- 2.9 Leverage effect / Risk of disproportionate high losses
- 2.12 Currency risks
- 2.17.1. Futures Contracts on commodities
- 2.17.2. Futures Contracts on indices

Applicable Functionality: The following parts of the Functionality of the Warrants which are mentioned in the Base Prospectus are applicable:

- A. Warrants (CALL)

Applicable Terms and Conditions: Terms and Conditions for Warrants

The Warrants will be consolidated and form a single series with the previously issued Warrants (ISIN DE000CR2UEL9).

The summary applicable for this issue of Warrants is annexed to these Final Terms.

TERMS AND CONDITIONS

§ 1 FORM

1. The warrants (the "**Warrants**") of each series issued by COMMERZBANK Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (the "**Issuer**") will be issued in bearer dematerialised form (*dématérialisation*). Title to the Warrants will be evidenced by book entries (*inscription en compte*) in accordance with the provisions of the French Monetary and Financial Code relating to Holding of Securities (currently, Articles L. 211-3 et seq. and R. 211-1 et seq. of the French Monetary and Financial Code). No physical document of title (including *certificats représentatifs* pursuant to Article R. 211-7 of the French Monetary and Financial Code) will be issued in respect of the Warrants.
2. Transfers of the Warrants and other registration measures shall be made in accordance with the French Monetary and Financial Code, the regulations, rules and operating procedures applicable to and/or issued by Euroclear France S.A., rue Réaumur 115, 75002 Paris, French Republic (the "**Clearing System**"; the "**Clearing Rules**").
3. The term "**Warrantholder**" in these Terms and Conditions refers to any person holding warrants through a financial intermediary entitled to hold accounts with the Clearing System on behalf of its customers (the "**Warrant Account Holder**") or, in the case of a Warrant Account Holder acting for its own account, such Warrant Account Holder.

§ 2 DEFINITIONS

For the purposes of these Terms and Conditions, the following definitions shall apply subject to an adjustment in accordance with these Terms and Conditions:

"Business Day" means a day on which the Futures Exchange is open for trading during its respective regular trading sessions, notwithstanding the Futures Exchange closing prior to its scheduled weekday closing time. Any trading or trading activities after or before the regular trading sessions on the Futures Exchange will not be taken into account.

"Futures Exchange" means the Intercontinental Exchange, London or its successor.

In case that the Relevant Futures Contract is not longer traded on the Intercontinental Exchange the Futures Exchange shall be such other futures exchange as determined by the Issuer in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (BGB)). The determination of another Futures Exchange shall be published according to § 11.

"Launch Date" means 22 October 2014.

"Market Disruption Event" means the occurrence or existence of any suspension of or limitation imposed on trading in the Relevant Futures Contract on the Futures Exchange, provided that any such suspension or limitation is material or the non-determination and/or non-publication of the Reference Price by the Futures Exchange. The decision whether a suspension or limitation is material will be made by the Issuer in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (BGB)). The occurrence of a Market Disruption Event shall be published in accordance with § 11.

A limitation regarding the office hours or the number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange. A limitation on trading imposed during the course of a day by reason of movements in price exceeding permitted limits (especially "limit-up"/"limit-down" rule) shall only be deemed to be a Market Disruption Event in the case that such limitation is still prevailing at the time of termination of the trading hours on such date.

"**Payment Business Day**" means a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer System (TARGET) and the Clearing System settle payments in EUR.

"**Reference Price**" means the ICE Brent Crude Futures Afternoon Marker (which is a tradable Minute Marker) of the Relevant Futures Contract as determined and published by the Futures Exchange on any day on which the Futures Exchange is usually open for trading.

"**Table of Product Details**" means the table attached to these Terms and Conditions which contains the definitions in relation to each series of Warrants.

"**Underlying**" or "**Relevant Futures Contract**" means the ICE Brent Crude Oil Futures Contract (Reuters page LCOZ5) on the Futures Exchange with delivery month of December 2015 (Expiry Date: 13 November 2015).

"**Valuation Date**" means the Exercise Date.

If on the Valuation Date there is no Reference Price or if on the Valuation Date a Market Disruption Event occurs, the Valuation Date shall be postponed to the next following Business Day on which there is a Reference Price again and on which a Market Disruption Event does not occur.

If, according to the before-mentioned, the Valuation Date is postponed for ten consecutive Business Days during the Exercise Period, the Warrantholder shall be entitled to withdraw his Exercise Notice. The withdrawal has to be in form of a written notice to the Paying Agent and shall become effective only, if until the third Payment Business Day upon receipt of such notice there is still no Reference Price or a Market Disruption Event still occurs.

If, according to the before-mentioned, the Valuation Date is postponed for ten consecutive Business Days beyond the Exercise Period, and if also on such day there is no Reference Price or a Market Disruption Event occurs on such day, then this day shall be deemed to be the Valuation Date and the Issuer shall estimate the Reference Price in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (BGB)), and in consideration of the prevailing market conditions on such day and make a notification thereof in accordance with § 11.

§ 3 OPTION RIGHT

1. The Warrants grant to the Warrantholder the right (the "**Option Right**") to receive from the Issuer the payment of an amount "**CA**" (the "**Cash Amount**") per Warrant in Euro ("**EUR**") (rounded, if necessary, to the next full EUR 0.01 (EUR 0.005 will be rounded up)) as determined in accordance with the following formula:

The "**Cash Amount**" per Warrant shall be equal to the product of (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds the Strike (in the case of Type Call) or is exceeded by the Strike (in the case of Type Put) and (ii) the Ratio, the result being converted into EUR.

"**Ratio**" means 0.10.

"**Strike**" means the strike as set out in the Table of Product Details.

"**Type**" means the type as set out in the Table of Product Details.

2. The Option Right may be exercised on any day from and including the first day to the last day until 10.00 a.m. (Frankfurt time) during the Exercise Period in accordance with the following paragraphs 3 and 4. Subject to the conditions of paragraphs 3 and 4 the Option Right shall be

deemed to be automatically exercised on the last day of the Exercise Period provided that the Cash Amount is a positive amount at that time (the "**Automatic Exercise**").

"**Exercise Period**" means the period as set out in the Table of Product Details (both dates including).

3. Except for the Automatic Exercise, Option Rights can only be exercised for the Minimum Exercise Number of Warrants set out below or for an integral multiple thereof.

Any exercise of less than the Minimum Exercise Number of Warrants shall be void. Any exercise of more than the Minimum Exercise Number of Warrants that is not an integral multiple thereof, shall be deemed to be an exercise of the next smaller number of Warrants which is the minimum number or an integral multiple thereof. Warrants exceeding the Minimum Exercise Number of Warrants or an integral multiple thereof shall be re-transferred for the cost and the risk of the Warrantholder to the account holding bank.

"**Minimum Exercise Number of Warrants**" is 1 (one).

4. In order to validly exercise the Option Right, the Warrantholder is obliged to instruct the account holding bank on any Payment Business Day during the Exercise Period to
 - (a) deliver a written exercise notice (the "**Exercise Notice**") via the account holding bank to the Paying Agent in the form available at the Paying Agent or by providing all information and statements requested therein;
 - (b) deliver the Warrants via the account holding bank by crediting the Warrants to the account of the Paying Agent with the Clearing System.

The Payment Business Day during the Exercise Period on which at or prior to 10.00 am (Frankfurt time) (a) the Exercise Notice is received by the Paying Agent, and (b) the Warrants are booked at the account of the Paying Agent with the Clearing System shall be the "**Exercise Date**" for the purposes of these Terms and Conditions. In the case of an Automatic Exercise the Exercise Date shall be the last day of the Exercise Period.

5. Subject to § 2 (Valuation Date), the Exercise Notice shall be binding and irrevocable.
6. After the valid exercise of the Option Right, the Issuer shall pay the Cash Amount to the Warrantholders not later than on the fifth Payment Business Day following the Valuation Date.

In the case of an Automatic Exercise, the Issuer shall pay the Cash Amount to the Warrantholders not later than on the fifth Payment Business Day following the Valuation Date.

7. The conversion shall be made at the Relevant Conversion Rate.

"**Relevant Conversion Rate**" means the price of EUR 1.00 in USD, as actually traded on the *international interbank spot market* on the Valuation Date at such point of time at which the Reference Price of the Underlying is determined and published.

§ 4 PAYMENTS

1. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Warrants in the amount of such payment.
2. If any payment with respect to a Warrant is to be effected on a day other than a Payment Business Day, payment shall be effected on the next following Payment Business Day. In this

case, the relevant Warrantholder shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.

3. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives.

§ 5 ADJUSTMENTS; TERMINATION RIGHT OF THE ISSUER

1. If an Extraordinary Event (as defined below) has a material effect on the price of the Relevant Futures Contract, the Issuer will make adjustments to the Terms and Conditions taking into consideration the provisions set forth hereinafter. The Issuer may instead of such adjustment optionally terminate (pursuant to its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*))) the Warrants prematurely with respect to a Business Day (the "**Termination Date**") taking into consideration the provisions set forth hereinafter with a prior notice of seven Payment Business Days in accordance with § 11. Any termination of the Warrants in part shall be excluded.
 - (a) Adjustments to the Terms and Conditions shall correspond to the adjustments to the Relevant Futures Contract made by the Futures Exchange. In the event of any doubts regarding the application of the adjustment rules of the Futures Exchange, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)). The adjustments made by the Issuer may deviate from those made by the Futures Exchange in cases where the adjustments made by the Futures Exchange would only lead to a minor adjustment of the Terms and Conditions, as well as in cases when and where such deviation is necessary in the reasonable discretion of the Issuer (*billiges Ermessen*, § 315 German Civil Code (*BGB*)) to compensate for the economic effect of the relevant Extraordinary Event on the price of the Relevant Futures Contract.

Such adjustments may also result in the Relevant Futures Contract being replaced by other futures contracts and/or another exchange being determined as the Futures Exchange.

Adjustments and determinations take effect as from the date determined by the Issuer in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)), provided that (if the Issuer takes into consideration the manner in which adjustments are made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect at the Futures Exchange.

Adjustments and determinations as well as the effective date shall be notified by the Issuer in accordance with § 11.

Any adjustment in accordance with this paragraph 1 does not exclude a later termination in accordance with this paragraph on the basis of the same event.

- (b) If the Warrants are called for redemption due to the occurrence of an Extraordinary Event, they shall be redeemed at the termination amount per Warrant (the "**Termination Amount**") which shall be calculated by the Issuer in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)) by taking into account prevailing market conditions and any proceeds realised by the Issuer in connection with transactions concluded by it in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)) for hedging measures in relation to the assumption and fulfilment of its obligations under the Warrants (the "**Hedging Transactions**"). Expenses for transactions that were required for winding up the Hedging Transactions will be taken into account as deductible items.

The Issuer shall pay the Termination Amount to the Warrantholder not later than on the tenth Payment Business Day following the Termination Date.

2. "**Extraordinary Event**" means:
 - (a) an adjustment of the Relevant Futures Contract on the Futures Exchange and/or the announcement of such an adjustment;
 - (b) the suspension of trading or the early settlement of the Relevant Futures Contract on the Futures Exchange and/or the announcement of such an event;
 - (c) a material change regarding the concept of the Relevant Futures Contract or regarding the Contract Specifications on which the Relevant Futures Contract is based;
 - (d) the introduction, revocation or amendment of a tax levied on the commodity underlying the Relevant Futures Contract, provided that this affects the price of the Relevant Futures Contract and provided that such introduction, revocation or amendment occurs after the Launch Date;
 - (e) the Issuer and/or its affiliates (in the meaning of § 1 paragraph 7 German Banking Act (*KWG*), § 290 paragraph 2 German Commercial Law (*HGB*)) are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any transactions or investments that the Issuer considers necessary to hedge its risks resulting from the assumption and performance of its obligations under the Warrants or (ii) to realize, regain or transfer the proceeds resulting from such transactions or investments; or
 - (f) any other event being economically equivalent to the before-mentioned events with regard to their effects.

§ 6 **FURTHER ISSUES OF WARRANTS, REPURCHASE OF WARRANTS**

1. The Issuer reserves the right to issue from time to time without the consent of the Warrantholders additional tranches of Warrants with substantially identical terms, so that the same shall be consolidated to form a single series and increase the total volume of the Warrants. The term "**Warrants**" shall, in the event of such consolidation, also comprise such additionally issued warrants.
2. The Issuer may at any time purchase Warrants in the market or otherwise. Warrants repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued, resold or surrendered to the Paying Agent for cancellation.

§ 7 **TAXES**

All present and future taxes, fees or other duties in connection with the Warrants shall be borne and paid by the Warrantholders. The Issuer is entitled to withhold from payments to be made under the Warrants any taxes, fees and/or duties payable by the Warrantholder in accordance with the previous sentence.

§ 8 **STATUS**

The obligations under the Warrants constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

**§ 9
PAYING AGENT**

1. BNP Paribas Securities Services, a société en commandite par actions incorporated under the laws of France, registered with the Registre du commerce et des sociétés of Paris under number 552 108 011, the registered office of which is located at 3, rue d'Antin, 75002 Paris, France, acting through its office located at Les Grands Moulins de Pantin, 9 rue du Débarcadère, 93500 Pantin, France, shall be the paying agent (the "**Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent. Such appointment and the effective date shall be notified in accordance with § 11.
3. The Paying Agent is hereby granted exemption from the restrictions of § 181 German Civil Code (*BGB*) and any similar restrictions of the applicable laws of any other country.

**§ 10
SUBSTITUTION OF THE ISSUER**

1. Any other company may assume at any time during the life of the Warrants, subject to paragraph 2, without the Warrantholders' consent all the obligations of the Issuer under and in connection with the Warrants. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 11.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Warrants with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 10, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Warrants.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
 - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Warrants;
 - (b) the New Issuer has agreed to indemnify and hold harmless each Warrantholder against any tax, duty, assessment or governmental charge imposed on such Warrantholder in respect of such substitution;
 - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Warrantholders compliance by the New Issuer with all obligations under the Warrants;
 - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 10 shall apply again.

**§ 11
NOTICES**

Notices relating to the Warrants shall be published in the Federal Gazette (*Bundesanzeiger*) and shall be deemed to be effective upon such publication unless such publication gives another effective date.

If the Warrants are offered to the public, notices relating to the Warrants shall in addition be published on the website www.warrants.commerzbank.com (or on another website notified at least six weeks in advance by the Issuer in accordance with this § 11). If applicable law or regulations of the stock exchange on which the Warrants are listed require a notification in another manner, notices shall also be given in the manner so required.

§ 12
LIMITATION OF LIABILITY;
PRESENTATION PERIODS PRESCRIPTION

1. The Issuer shall be held responsible for acting or failing to act in connection with Warrants only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent.
2. The period for presentation of the Warrants (§ 801 paragraph 1, sentence 1 German Civil Code (*BGB*)) shall be ten years and the period of limitation for claims under the Warrants presented during the period for presentation shall be two years calculated from the expiry of the relevant presentation period.

§ 13
FINAL CLAUSES

1. The Warrants and the rights and duties of the Warrantholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany except § 1 which shall be governed by the laws of the French Republic.
2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Warrantholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 11. Following such rescission by the Issuer, the Warrantholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Warrants to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Warrants by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Warrants delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Warrants on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Warrantholders together with the declaration of rescission in accordance with § 11. Any such offer shall be deemed to be accepted by a Warrantholder and the rescission shall not take effect, unless the Warrantholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 11 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Warrants to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Warrantholder (as declared and proved by evidence in the request for repayment) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)))

of the traded prices of the Warrants on the Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.

5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*, § 315 German Civil Code (*BGB*)). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Warrantholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Warrantholders. Notice of any such correction or amendment shall be given to the Warrantholders in accordance with § 11.
6. If the Warrantholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Warrants, then, notwithstanding paragraphs 2 - 5, the Warrantholders can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Warrants for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

Section D – Risks

The purchase of Warrants is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Warrants describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

Element	Description of Element	Disclosure requirement
D.2	Key risks specific to the Issuer	<p>Each Tranche of Warrants entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the redemption amount.</p> <p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p>

Global Financial Market Crisis and Sovereign Debt Crisis

The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.

Macroeconomic Environment

The macroeconomic environment prevailing over the past few years continues to negatively affect the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of a possible renewed economic downturn.

Counterparty Default Risk

The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "cluster" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its portfolio and these defaults may not be

sufficiently covered by collateral or by write-downs and provisions previously taken.

Market Risks

The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.

Strategic Risks

There is a risk that the Group may not be able to implement its strategic agenda or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.

Risks from the Competitive Environment

The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.

Liquidity Risks

The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations. Currently, the liquidity supply of banks and other players in the financial markets is strongly dependent on expansive measures of the central banks.

Operational Risks

The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or violate compliance-relevant regulations in connection with the conduct of business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.

Risks from Equity Participations

COMMERZBANK is exposed to particular risks in respect of the value and management of equity investments in listed and unlisted companies. It is possible that the goodwill reported in the Group's consolidated financial statements will have to be fully or partly written down as a result of impairment tests.

Risks from Bank-Specific Regulation

Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model of a number of the Group's activities, adversely affect the Group's competitive position, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy,

a possible financial transaction tax, the separation of proprietary trading from the deposit-taking business, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.

Legal Risks

Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.

D.6

Key information on the key risks that are specific to the securities

No secondary market immediately prior to the final exercise

The market maker and/or the exchange will cease trading in the Warrants no later than shortly before their scheduled Valuation Date. However, between the last trading day and the Valuation Date the price of the Underlying and/or the currency exchange rate both of which are relevant for the Warrants may still change. This may be to the investor's disadvantage.

No Collateralization

The Warrants constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) nor by the German Deposit Guarantee and Investor Compensation Act (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). This means that the investor bears the risk that the Issuer can not or only partially fulfil the attainments due under the Warrants. Under these circumstances, a total loss of the investor's capital might be possible.

This means that the investor bears the risk that the Issuer's financial situation may worsen - and that the Issuer may be subjected to a reorganisation proceeding (*Reorganisationsverfahren*) or transfer order (*Übertragungs-anordnung*) under German bank restructuring law or that insolvency proceedings might be instituted with regard to its assets - and therefore attainments due under the Warrants can not or only partially be done. Under these circumstances, a total loss of the investor's capital might be possible.

Risks in Connection with the Adoption of a Recovery and Resolution Regime for Credit Institutions

In early June 2012 the European Commission published the proposal for a directive establishing a framework for recovery and

resolution of credit institutions and investment firms (the so-called Bank Recovery and Resolution Directive ("BRRD")) on which the EU Commission, the Council and the European Parliament reached agreement published on 18 December 2013.

The BRRD proposal includes *inter alia* potential loss participation of creditors of credit institutions. Pursuant to the proposal, resolution authorities shall be given the authority to write down the claims of unsecured creditors of a failing institution and to convert debt claims into equity if certain requirements are met (so-called "**bail-in tool**").

Under the bail-in tool the competent resolution authority would have the power, upon certain trigger events, to cancel existing shares, to write down liabilities eligible for bail-in (i.e. own funds instruments such as the Subordinated Notes and other subordinated debt and even non-subordinated debt, subject to exceptions in respect of certain liabilities) of a failing credit institution or to convert such eligible liabilities of a failing credit institution into equity at certain rates of conversion representing appropriate compensation to the affected creditor for the loss incurred as a result of the write-down and conversion in order to strengthen the credit institution's financial position and allow it to continue as a going concern subject to appropriate restructuring.

Pursuant to the proposal for the BRRD, any write-down (or conversion into equity) in accordance with the bail-in tool would not result in an early redemption. Consequently, any amounts so written down would be irrevocably lost and the holders of such instruments would cease to have any claims thereunder, regardless whether or not the bank's financial position is restored.

Should the provision of the draft BRRD or similar provisions (such as for example the proposal for a regulation establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a single resolution mechanism and a single bank resolution fund) enter into force and be implemented into German law, they may severely affect the rights of the holders of the Warrants as in the event of non-viability or resolution of the Issuer this may result in the loss of their entire investment and could – also before the occurrence of non-viability or resolution – adversely effect the market price of a subordinated note.

U.S. Foreign Account Tax Compliance Withholding

The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made after 31 December 2016 in respect of (i) securities issued or materially modified on or after the later of (a) 1 July 2014, and (b) the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register or (ii) securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to the foreign account provisions of the U.S. Hiring Incentives to Restore Employment Act of 2010.

Impact of a downgrading of the credit rating

The value of the Warrants could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a

reduction in the value of the Warrants.

Termination, early redemption and adjustment rights

The Issuer shall be entitled to perform adjustments or to terminate and redeem the Warrants prematurely if certain conditions are met. This may have a negative effect on the value of the Warrants as well as the Termination Amount. If the Warrants are terminated, the amount payable to the holders of the Warrants in the event of the termination of the Warrants may be lower than the amount the holders of the Warrants would have received without such termination.

Market disruption event

The Issuer is entitled to determine market disruption events that might result in a postponement of a calculation and/or of any attainments under the Warrants and that might affect the value of the Warrants. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of barriers. These estimates may deviate from their actual value.

Substitution of the Issuer

If the conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Warrants, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Warrants in its place. In that case, the holder of the Warrants will generally also assume the insolvency risk with regard to the new Issuer.

Risk factors relating to the Underlying

The Warrants depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying or an index component should not be regarded as an indicator of its future performance during the term of the Warrants.

Risk upon exercise:

The investor bears the risk that the Cash Amount is below the purchase price of the Warrant. The lower (in case of Type CALL) or higher (in case of Type PUT) the Reference Price of the Underlying on the Valuation Date the greater the loss.

If the Reference Price of the Underlying on the Valuation Date is equal to or below (in case of Type CALL) or equal to or above (in case of Type PUT) the Strike the Cash Amount will be zero. **The Warrantholder will incur a loss that will correspond to the full purchase price paid for the Warrant (total loss).**

In addition, the investor bears a currency exchange risk as the amounts that are not expressed in EUR will be converted at the currency exchange rate on the Valuation Date.

Risks if the investor intends to sell or must sell the Warrants during

their term:

Market value risk:

The achievable sale price prior to final exercise could be significantly lower than the purchase price paid by the investor.

The market value of the Warrants mainly depends on the performance of the Underlying, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Warrants:

- Changes in the expected intensity of the fluctuation of the Underlying (volatility)
- Interest rate development
- Remaining term of the Warrants
- Adverse changes of the currency exchange rates

Each of these factors could have an effect on its own or reinforce or cancel each other.

Trading risk:

The Issuer is neither obliged to provide purchase and sale prices for the Warrants on a continuous basis on (i) the exchanges on which the Warrants may be listed or (ii) an over the counter (OTC) basis nor to buy back any Warrants. Even if the Issuer generally provides purchase and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Warrants could be temporarily limited or impossible.

Section C – Titres

Elément	Description de l'Elément	Informations à inclure
C.1	Nature et catégorie des titres / numéro d'identification des Titres	<p><u>Nature / Forme des Titres</u> Les titres sont des bons d'option (les "Bons d'Option"). Les Bons d'Option sont émis sous forme dématérialisée.</p> <p><u>Numéro(s) d'identification des Titres</u> Le(s) numéro(s) d'identification (i.e. ISIN et Mnémonique) de chaque série de Bons d'Option figureraont dans le tableau qui est annexé au résumé.</p>
C.2	Devise des Titres	Les Bons d'Option sont émis en EUR.
C.5	Restrictions à la libre négociabilité des titres	Les Bons d'Option sont librement négociables, sous réserve des restrictions d'offre et de vente, du droit applicable et des règles et réglementations du Système de Compensation.
C.8	Droits attachés aux titres (y compris le rang des Titres et restrictions à ces droits)	<p><u>Droit applicable aux Titres</u> Les Bons d'Option sont régis par, et interprétés conformément au, droit allemand. La formation des Bons d'Option est soumise au droit de la juridiction du Système de Compensation.</p> <p><u>Remboursement</u> Les Bons d'Option donneront à l'investisseur le droit de recevoir le paiement d'un montant en numéraire par Bon d'Option (le "Montant de Règlement en Espèces"). Le Montant de Règlement en Espèces sera égal (i) à la différence (si elle est positive) entre le Prix de Référence du Sous-Jacent à la Date d'Evaluation et le Prix d'Exercice (dans le cas du Type CALL) ou entre le Prix d'Exercice et le Prix de Référence du Sous-Jacent à la Date d'Evaluation (dans le cas du Type PUT) multipliée par (ii) le Ratio, où le résultat de ce calcul est converti en EUR.</p> <p><u>Ajustements et Résiliation</u> Sous réserve de certaines circonstances particulières, l'Emetteur peut être en droit de procéder à certains ajustements. En outre, l'Emetteur peut être en droit de mettre fin de manière anticipée aux Bons d'Option si un événement particulier survient.</p> <p><u>Rang des Titres</u> Les obligations au titre des Bons d'Option constituent des obligations directes et inconditionnelles de l'Emetteur, qui ne bénéficient d'aucune sûreté (<i>nicht dinglich besichert</i>) et, sauf disposition contraire de la loi applicable, viennent au moins au même rang que toutes les autres obligations non subordonnées de l'Emetteur qui ne bénéficient d'aucune sûreté (<i>nicht dinglich besichert</i>).</p> <p><u>Limitation de Responsabilité</u></p>

L'Emetteur engage sa responsabilité pour avoir ou ne pas avoir agi dans le cadre des Bons d'Options uniquement si, et dans la mesure où, il viole des obligations significatives au titre des Bons d'Option par négligence ou de manière intentionnelle ou viole d'autres obligations en cas de faute lourde ou de manière intentionnelle.

Périodes de Présentation, Prescription

La période de présentation des Bons d'Option (§ 801 paragraphe 1, ligne 1 du Code Civil Allemand (*BGB*) sera de dix ans et la période de prescription pour des réclamations au titre des Bons d'Option présentés pendant la période de présentation sera de deux ans calculée à compter de la fin de la période de présentation applicable.

C.11	Admission à la négociation sur un marché réglementé ou un marché équivalent	L'Emetteur a l'intention de demander l'admission à la négociation de chaque série de Bons d'Option sur le(s) marché(s) réglementé(s) de Euronext Paris S.A. avec effet au 15 janvier 2015.
C.15	Influence du Sous-Jacent sur la valeur des titres:	<p>Le paiement d'un Montant de Règlement en Espèces dépend de la performance du Sous-Jacent.</p> <p><u>En détail:</u></p> <p>Si le Prix de Référence du Sous-Jacent à la Date d'Evaluation est supérieur (dans le cas du Type CALL) ou inférieur (dans le cas du Type PUT) au prix d'exercice qui figure dans le tableau annexé au résumé (le "Prix d'Exercice"), l'investisseur recevra le Montant de Règlement en Espèces qui sera égal (i) à la différence (si elle est positive) entre le Prix de Référence du Sous-Jacent à la Date d'Evaluation et le Prix d'Exercice (dans le cas de Bons d'Option du Type CALL) ou entre le Prix d'Exercice et le Prix de Référence du Sous-Jacent à la Date d'Evaluation (dans le cas de Bons d'Option du Type PUT) multipliée par (ii) 0,10 (le "Ratio"), et le résultat de ce calcul sera converti en EUR.</p> <p>Si le Prix de Référence du Sous-Jacent à la Date d'Evaluation est égal ou inférieur (dans le cas de Bons d'Option du Type CALL) ou égal ou supérieur (dans le cas de Bons d'Option du Type PUT) au Prix d'Exercice l'investisseur ne recevra aucun Montant de Règlement en Espèces et les Bons d'Option expireront sans valeur.</p> <p>Le type de Bons d'Option figure dans le tableau annexé au résumé.</p> <p>"Taux de Conversion Applicable" désigne le prix de EUR 1,00 en USD, tel qu'effectivement négocié sur le marché interbancaire international <i>spot</i> à la Date d'Evaluation, auquel le Prix de Référence du Sous-Jacent est déterminé et publié.</p>
C.16	Date d'Evaluation	Date d'Exercice
	Date d'Exercice	La date la plus tardive entre le Jour Ouvrable de Paiement de la Période d'Exercice auquel la Notification d'Exercice est reçue par l'Agent Payeur et les Bons d'Options sont enregistrés sur le compte de l'Agent Payeur auprès du Système de Compensation et le dernier jour de la Période d'Exercice.

C.17	Description de la procédure de règlement des titres	Les Bons d'Option vendus seront livrés à la Date de Paiement conformément aux pratiques de marché locales via le Système de Compensation.
C.18	Procédure de livraison (compensation à la Date d'Exercice)	Tous les montants dus au titre des Bons d'Option devront être payés à l'Agent Payeur pour un transfert au Système de Compensation ou conformément aux instructions du Système de Compensation au crédit des teneurs de compte concernés aux dates mentionnées dans les modalités applicables. Le paiement au Système de Compensation ou conformément aux instructions du Système de Compensation libérera l'Emetteur de ses obligations de paiement au titre des Bons d'Option à hauteur du montant du paiement.
C.19	Prix de Référence Final du Sous-Jacent	l'ICE Brent Crude Futures Afternoon Marker (qui est un marqueur de Minute négociable) du contrat à terme pertinent, déterminé et publié par le Marché à Terme à la Date d'Evaluation

Les informations sur le Sous-Jacent sont disponibles sur le site internet www.theice.com .

Section D – Risques

L'achat des Bons d'Option comporte certains risques. L'Emetteur indique expressément que la description des risques liés à un investissement dans les Bons d'Option présente seulement les risques principaux qui étaient connus de l'Emetteur à la date du Prospectus de Base.

Elément	Description de l'élément	Informations à inclure
D.2	Principaux risques propres à l'Emetteur	<p>Chaque Tranche de Bons d'Option comporte un risque émetteur, également appelé risque débiteur ou risque de crédit pour les investisseurs potentiels. Un risque émetteur est le risque que COMMERZBANK devienne temporairement ou définitivement incapable de respecter ses obligations de payer les intérêts et/ou le montant de remboursement.</p> <p>En outre, COMMERZBANK est soumise à divers risques au sein de ses activités commerciales. De tels risques comprennent en particulier les types de risques suivants:</p>

Crise financière mondiale et crise de la dette souveraine

La crise financière mondiale et la crise de la dette souveraine, en particulier au sein de la zone euro, ont eu un effet défavorable significatif sur l'actif, sur la situation financière et sur les résultats d'exploitation du Groupe. Il n'y aucune assurance que le Groupe ne souffrira pas d'effets défavorables significatifs supplémentaires à l'avenir, en particulier dans l'hypothèse d'une nouvelle aggravation de la crise. Toute aggravation supplémentaire de la crise au sein de l'Union Monétaire Européenne peut avoir des effets défavorables significatifs sur le Groupe qui pourraient, dans certaines circonstances, menacer l'existence même du Groupe. Le Groupe détient des volumes significatifs de dette souveraine. Les dépréciations et les réévaluations de cette dette souveraine à une juste valeur plus faible ont eu dans le passé des effets défavorables significatifs sur l'actif, sur la situation financière et sur les résultats d'exploitation du Groupe, et pourraient avoir des effets défavorables supplémentaires à l'avenir.

Environnement macroéconomique

L'environnement macroéconomique qui prévaut depuis les dernières années continue à affecter défavorablement les résultats du Groupe et la forte dépendance du Groupe à l'environnement économique, notamment en Allemagne, peut conduire à des effets négatifs importants supplémentaires dans le cas d'un possible nouveau ralentissement économique.

Risque de défaut de contrepartie

Le Groupe est soumis au risque de défaut (risque de crédit), notamment en ce qui concerne des engagements individuels importants, des prêts et engagements importants, concentrés sur des secteurs particuliers, appelé risque de concentration, ainsi qu'en ce qui concerne des prêts consentis à des débiteurs pouvant être particulièrement affectés par la crise de la dette souveraine. Le désengagement du portefeuille de financement maritime et du portefeuille de financement Immobilier Commercial est soumis à des risques considérables compte tenu de l'environnement de marché

actuel difficile et de la volatilité des prix des navires et des prix de l'immobilier et du risque de défaut (risque de crédit) qui en est affecté, ainsi que du risque de changements importants de la valeur des navires détenus à titre de sûreté, des actifs immobiliers détenus directement et des actifs immobiliers privés et commerciaux détenus à titre de sûreté. Le Groupe a un nombre important de prêts non-productifs dans son portefeuille, et il est possible que ces défauts ne soient pas suffisamment couverts par des sûretés ou par des dépréciations et dotations aux provisions précédemment effectuées.

Risques de marché

Le Groupe est exposé à un risque de prix de marché lié à la valorisation des titres de capital et des parts de fonds d'investissement ainsi que sous la forme de risques de taux d'intérêt, de risques de différentiel de taux, de risques de change, de risques de volatilité et de corrélation, de risques liés au prix des matières premières.

Risques stratégiques

Il existe un risque que le Groupe ne puisse pas mettre en œuvre ses plans stratégiques ou qu'il ne puisse les mettre en œuvre que partiellement ou à des coûts supérieurs à ceux envisagés et que la mise en œuvre des mesures envisagées ne débouche pas sur la réalisation des objectifs stratégiques recherchés.

Risques liés à l'environnement concurrentiel

Les marchés dans lesquels le Groupe est actif, en particulier le marché allemand (et, tout particulièrement, les activités avec la clientèle de particuliers et d'entreprises ainsi que les activités de banque d'investissement) et le marché polonais, sont caractérisés par une concurrence intense en termes de prix et de conditions, ce qui entraîne une pression considérable sur les marges.

Risques de liquidité

Le Groupe est dépendant d'un approvisionnement régulier de liquidités et une pénurie de liquidités sur le marché ou relative à une entreprise en particulier peut avoir un effet défavorable significatif sur l'actif du Groupe, sa situation financière et ses résultats d'exploitation. Actuellement, l'approvisionnement en liquidités des banques et autres acteurs des marchés financiers est fortement dépendante de mesures expansives des banques centrales.

Risques opérationnels

Le Groupe est exposé à un grand nombre de risques opérationnels dont notamment le risque que des salariés fassent souscrire des risques excessifs au nom du Groupe ou violent les règles de conformité dans le cadre de la conduite des activités et provoquant ainsi des pertes considérables apparaissant brusquement, ce qui pourrait indirectement entraîner une augmentation des exigences réglementaires en matière de fonds propres.

Risques liés aux participations

COMMERZBANK est exposée à des risques particuliers liés à la valeur et à la gestion de participations dans des sociétés cotées et

non cotées. Il est possible que les écarts d'acquisition reportés dans les comptes consolidés du Groupe doivent faire l'objet d'une dépréciation totale ou partielle suite à des tests de dépréciation.

Risques liés à la réglementation bancaire

Les exigences toujours plus strictes relatives aux fonds propres et à la liquidité et en termes de procédures et de reporting sont susceptibles de mettre en cause le modèle économique d'un certain nombre d'activités du Groupe, d'affecter défavorablement la position concurrentielle du Groupe ou de rendre nécessaire la levée de fonds propres additionnels. D'autres réformes réglementaires proposées à la suite de la crise financière, telles que, par exemple, des exigences comme la taxe bancaire, une éventuelle taxe sur les transactions financières, la séparation de l'activité de négociation pour compte propre de l'activité de banque de dépôt ou des obligations d'information et d'organisation plus strictes, peuvent influencer de façon importante le modèle d'entreprise du Groupe et son environnement concurrentiel.

Risques juridiques

Les activités de COMMERZBANK peuvent donner lieu à des contentieux, dont l'issue est incertaine et qui entraînent des risques pour le Groupe. A titre d'exemple, des demandes de dommages-intérêts fondées sur des conseils en investissement erronés ont entraîné des responsabilités importantes pour le Groupe et peuvent également à l'avenir entraîner de nouvelles responsabilités pour le Groupe. Des demandes de paiement et de restitution de valeurs ont été engagées à l'encontre de COMMERZBANK et ses filiales, y compris dans certains cas devant les tribunaux, liées aux titres participatifs et aux "*trust-preferred securities*" émis par COMMERZBANK et ses filiales. L'issue de ces procédures pourrait avoir un effet négatif significatif sur le Groupe, qui va au-delà des prétentions formulées au titre de chaque réclamation. Les procédures introduites par les régulateurs, les autorités de tutelle et les ministères publics peuvent avoir des effets défavorables significatifs sur le Groupe.

D.6	Informations clés concernant les principaux risques propres aux titres	<u>Absence de marché secondaire immédiatement avant la date d'exercice finale</u> Le teneur de marché et/ou la bourse mettront fin à la négociation des Bons d'Option au plus tard peu de temps avant leur Date d'Evaluation prévue. Cependant, entre le dernier jour de négociation et la Date d'Evaluation le prix du Sous-Jacent et/ou le taux de change qui sont tous les deux pertinents pour les Bons d'Option, pourront encore évoluer. Ceci peut désavantager l'investisseur.
-----	--	--

Absence de sûreté

Les Bons d'Option constituent des obligations inconditionnelles de l'Emetteur. Elles ne sont si assurées par le Fonds de Protection des Dépôts de l'Association des Banques Allemandes (*Einlagensicherungsfonds des Bundesverbands deutscher Banken e.V.*) ni par la loi allemande sur les dépôts et l'indemnisation des investisseurs (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). Cela signifie que l'investisseur supporte le risque que l'Emetteur ne puisse honorer ses engagements au titre des Bons d'Option ou uniquement en partie.

Dans ces circonstances, l'investisseur pourrait supporter une perte totale du capital investi.

Cela signifie que l'investisseur supporte le risque de la dégradation de la situation financière de l'Emetteur – et que l'Emetteur puisse faire l'objet d'une procédure de restructuration (*Reorganisationsverfahren*) ou d'ordre de transfert (*Übertragungsanordnung*) en vertu de la loi allemande sur la restructuration bancaire ou qu'une procédure d'insolvabilité soit engagée au titre de ses actifs – et, par voie de conséquence, que les paiements dus au titre des Bons d'Option ne puissent être honorés ou ne le soient qu'en partie. Dans ces circonstances, l'investisseur pourrait supporter une perte totale du capital investi.

Risques liés à l'adoption d'un régime de redressement et de résolution des défaillances des établissements de crédit.

Début juin 2012 la Commission Européenne a publié une proposition de directive établissant un cadre pour le redressement et la résolution des défaillances des établissements de crédit et entreprises d'investissement (dite Directive sur le Redressement et la Résolution des Banques ("**BRRD**") sur laquelle la Commission Européenne, le Conseil et le Parlement Européen sont parvenus à un accord le 18 décembre 2013.

Le projet de directive BRRD contient, entre autre chose, une participation aux pertes potentielles des créanciers des établissements de crédit. Aux termes de la proposition, les autorités de résolution auront le pouvoir d'annuler les créances des créanciers non sécurisés d'une institution défaillante et de convertir les créances en capital si certaines conditions sont remplies (le dénommé "**outil de renflouement interne**").

Aux termes de l'outil de renflouement interne, l'autorité de résolution compétente aurait le pouvoir, dans certains cas de déclenchement, d'annuler des actions existantes, d'annuler les passifs éligibles au renflouement interne (à savoir les instruments de fonds propres, tels que les Titres Subordonnés et autres dettes subordonnées et même dettes non subordonnées, sous réserve d'exceptions liées à certains passifs) d'un établissement de crédit défaillant ou de convertir de tels passifs éligibles d'un établissement de crédit défaillant en capital à certains taux de conversion représentant une compensation adéquate pour le créancier affecté par la perte subie du fait de l'annulation et de la conversion, afin de renforcer la situation financière de l'établissement de crédit et lui permettre de poursuivre ses activités sous réserve d'une restructuration appropriée.

Aux termes de la proposition de directive BRRD, toute annulation (ou conversion en capital) conformément à l'outil de renflouement interne n'entraînera pas un remboursement anticipé. En conséquence, tous montants ainsi annulés seraient irrévocablement perdus et les porteurs de ces instruments cesseraient de détenir des créances au titre de ceux-ci, et ce que la situation financière de la banque soit ou non restaurée.

Si les dispositions du projet de directive BRRD ou des dispositions similaires (telles que par exemple la proposition d'un règlement établissant des règles uniformes et une procédure uniforme pour la résolution des difficultés des établissements de crédit et de certaines entreprises d'investissement dans le cadre d'un

mécanisme unique de résolution et d'un fond unique de résolution bancaire) devaient entrer en vigueur et être transposées en droit allemand, celles-ci pourraient affecter gravement les droits des porteurs des Bons d'Option dans la mesure où la non-viabilité ou la résolution de l'Emetteur pourrait entraîner la perte de la totalité de leur investissement et pourrait – y compris avant la survenance de la non-viabilité ou de la résolution – affecter défavorablement le prix de marché d'un titre subordonné.

Retenues liées au "Foreign Account Tax Compliance" américain

L'Emetteur pourrait devoir procéder à des retenues à la source au taux de 30 % sur la totalité, ou une partie, des paiements réalisés après le 31 décembre 2016 au titre (i) des titres émis ou significativement modifiés à compter de la plus lointaine des dates entre (a) le 1^{er} juillet 2014 et (b) la date tombant six mois après la date à laquelle les règlements définitifs applicables aux "*foreign passthru payments*" sont déposés au Registre Fédéral ou (ii) des titres traités comme du capital pour les besoins des impôts fédéraux américains, quelle que soit leur date d'émission, aux termes des dispositions relatives aux comptes étrangers de la loi américaine *Hiring Incentives to Restore Employment Act* de 2010.

Effet d'une baisse de notation

La valeur des Bons d'Option pourrait être affectée par les notes données à l'Emetteur par les agences de notation. Toute baisse de la notation de l'Emetteur ne serait-ce que par l'une de ces agences de notation pourrait entraîner une réduction de la valeur des Bons d'Option.

Droits d'ajustement exceptionnel et résiliation exceptionnelle

L'Emetteur sera en droit de réaliser des ajustements ou de résilier et rembourser les Bons d'Option de manière anticipée si certaines conditions sont remplies. Ceci peut avoir un effet négatif sur la valeur des Bons d'Option ainsi que sur le Montant de Remboursement. Si les Bons d'Option sont résiliés, le montant dû aux porteurs de Bons d'Option en cas de résiliation des Bons d'Option peut être inférieur au montant que les porteurs de Bons d'Option auraient reçu en l'absence de cette résiliation.

Perturbation de marché

L'Emetteur peut déterminer des cas de perturbation de marché qui pourraient retarder un calcul et/ou tout paiement au titre des Bons d'Option et qui pourraient affecter la valeur des Bons d'Option. En outre, dans certains cas mentionnés, l'Emetteur peut estimer certains prix qui sont pertinents au regard des paiements devant être réalisés ou de barrières devant être atteintes. Ces estimations peuvent s'écartez de leur valeur réelle.

Substitution de l'Emetteur

Si les conditions sont remplies, l'Emetteur pourra à tout moment, sans devoir obtenir l'accord des porteurs de Bons d'Option, désigner une autre société en qualité de nouvel Emetteur aux fins d'exécuter à sa place toutes les obligations découlant des Bons d'Option ou s'y rapportant. Dans ce cas, le porteur des Notes assumera généralement également le risque d'insolvabilité du nouvel

Emetteur.

Facteurs de risques liés au Sous-Jacent

Les Bons d'Option dépendent de la valeur du Sous-Jacent et des risques liés à ce Sous-Jacent. La valeur du Sous-Jacent est fonction d'un certain nombre de facteurs qui peuvent être liés entre eux. Ces facteurs peuvent inclure des événements de nature économique, financière et politique échappant au contrôle de l'Emetteur. Les performances antérieures d'un Sous-Jacent ou d'un composant de l'indice ne doivent pas être considérées comme un indicateur de ses performances futures pendant la durée des Bons d'Option.

Risque en cas d'exercice:

L'investisseur supporte le risque que le Montant de Règlement en Espèces soit inférieur au prix d'achat du Bon d'Option. Plus le Prix de Référence du Sous-Jacent à la Date d'Evaluation est faible (dans le cas de Type CALL) ou élevé (dans le cas de Type PUT) plus la perte sera importante.

Si le Prix de Référence du Sous-Jacent à la Date d'Evaluation est égal ou inférieur (dans le cas du Type CALL) ou égal ou supérieur (dans le cas du Type PUT) au Prix d'Exercice le Montant de Règlement en Espèces sera de zéro. **Le Porteur de Bon d'Option subira une perte qui correspondra à la totalité du prix d'achat payé pour le Bon d'Option (perte totale).**

En outre, l'investisseur supporte un risque de change dans la mesure où les montants qui ne sont pas exprimés en EUR seront convertis au taux de change existant à la Date d'Evaluation.

Risques si l'investisseur à l'intention de vendre ou doit vendre les Bons d'Option pendant leur durée:

Risque de valeur de marché:

Le prix de vente réalisable avant l'exercice final pourrait être significativement inférieur au prix d'acquisition payé par l'investisseur.

La valeur de marché des Bons d'Option dépend principalement de la performance du Sous-Jacent des Bons d'Option, sans la reproduire exactement. En particulier, les facteurs suivants peuvent avoir un effet défavorable sur le prix de marché des Bons d'Option:

- Changements dans l'intensité attendue de la variation du Sous-Jacent (volatilité)
- Evolution du taux d'intérêt
- Durée restante des Bons d'Option
- Evolutions défavorables des taux de change

Chacun de ces facteurs pourrait produire en lui-même un effet ou renforcer ou annuler les autres.

Risques de négociation:

L'Emetteur n'est ni tenu de fournir des prix d'achat et de vente des Bons d'Option sur une base continue (i) sur les bourses sur lesquelles les Bons d'Option sont admis à la négociation ou (ii) sur une base hors bourse (OTC) ni de racheter des Bons d'Option.

Même si l'Emetteur fournit généralement des prix d'achat et de vente, dans le cas de conditions de marché exceptionnelles ou de problèmes techniques, la vente et l'achat des Bons d'Option pourrait être temporairement limitée ou impossible.
