<b>Turnover at end of September</b>	<b>57.83</b>	<b>54.77</b>	<b>+ 5.6 %</b>

During the third Quarter, Pharmagest Inter@ctive produced **turnover of 18.88 Million Euros, an increase of 12.7%** compared with the same period of the previous financial year, bringing growth for the first nine months to 5.6%.

**Pharmacie France Business:**

- 10% increase in sales of network configurations compared to the 3rd Quarter 2008;
- Slow down in licence sales taking into account our clients' level of equipment and an economic environment which remains difficult;
- Recurring turnover (maintenance) on the increase (+ 5 %);
- Strong growth in new products (+ 9 % compared to the same period in 2008) highlighting the relevance of the Group's innovation strategy.

In a market of dispensing pharmacies which shows few signs of improvement, the third Quarter performance is particularly promising and confirms the trend announced at the end of the first Half Year.

**E-Laboratoires Business:**

The business is enjoying a return of confidence in the pharmaceutical laboratories market and places itself:

- On target for the Laboratory business sector (IT systems for dispensing pharmacy teams, patient support and boosting sales);
- With exponential growth for the Régie advertising sector.

**Care Homes Business:**

The subsidiary, Malta Informatique, following the successful integration of its latest acquisition, Azur Informatique, and in a business sector intended to deliver in the future, is contributing to growth within the group with turnover up 70% compared to the 3rd Quarter 2008.
