

16 APRIL 2010

## The EDF Group's Board of Directors met on 16 April 2010 under the chairmanship of Henri Proglio.

During this meeting, the Board of Directors was informed about the state of progress of the process for the disposal of the UK distribution networks and wished this process to continue. Any decision on the sale of these networks can only be examined by the Board of Directors once firm, fully-financed offers have been received.

### **Disclaimer**

*This press release does not constitute an offer to sell marketable securities in the United States or any other country.*

The EDF Group, one of the leaders in the energy market in Europe, is an integrated energy company active in all businesses: generation, transmission, distribution, energy supply and trading. The Group is the leading electricity producer in Europe. In France, it has mainly nuclear and hydraulic production facilities where 95% of the electricity output involves no CO<sub>2</sub> emissions. EDF's transport and distribution subsidiaries in France operate 1,285,000 km of low and medium voltage overhead and underground electricity lines and around 100,000 km of high and very high voltage networks. The Group is involved in supplying energy and services to around 38 million customers around the world, including close to 28 million in France. The Group generated consolidated sales of €66.3 billion in 2009, of which 49% in Europe excluding France. EDF is listed on the Paris Stock Exchange and is a member of the CAC 40 index.
