## **FINANCIAL RESULTATS 2009**

**Paris, April 19<sup>th</sup>, 2010** – Dalet announced consolidated revenues for the year ended December 31, 2009 of €19.3 million, an 8% increase compared to €17.8 million in 2008. Gross margin (revenues minus costs of goods sold) for the year was €16.7 million vs. €15.5 million in 2008 (+7%), the gross margin rate remained almost stable at 87%.

Sales of Dalet products in television broadcast and digital video keeps rising, representing in 2009 74% of total revenues, with sales in the News, Media Asset Management, HD production for sports, VOD and digital video archives markets. Sales of digital audio solutions for Radio accounted for the remaining 26% of revenues.

In terms of geographical breakdown of revenues, Europe represented 55%, Americas 37%, Asia-Pacific 3%, Africa-Middle East 5%. US sales continued their strong growth (+52% in US Dollars between 2008 and 2009).

In terms of operating expenses, the impact of the capitalization of software development direct employee costs (IAS 38 standard) should be noted: whereas the capitalization of development costs less accumulated amortization had generated an operating profit of  $\notin 0.2$  million in 2008, they generated a loss of  $\notin 0.3$  million in 2009, as the capitalized amount was less than the accumulated amortization.

Operating result before non recurring items was positive at €0.3 million, compared to €0.0 million for 2008.

In addition, the  $\in$ 3.3 million increase in gross margin between the first semester and the second semester of 2009, due to the increased level of activity during the fourth quarter of 2009, has been achieved without significant increase in the level of operating expenses. This resulted in an improvement of the operating result before non recurring items of  $\notin$ 2.9 million between the first and second semesters of 2009 ( $\notin$ 1.6 million vs - $\notin$ 1.3 million).

Non recurring operational costs included depreciation of long term assets of  $\in 0.2$  million (non cash item) related to the remaining value of the goodwill of the German subsidiary after the asset sale of January 2008.

This resulted in a breakeven operating result, compared to a loss of €0.3 million in 2008.

Net consolidated income for 2009 was €0.1 million, compared to €0.2 million in 2008.

Net cash increased from €4.1 million on 12/31/2008 to €4.7 million on 12/31/2009, with no debt.
