

POCATOM

LEADING THE ENERGY CHANGE

JUNE 19th 2010

PRESS RELEASE

Rosatom and EDF signed an agreement of cooperation

On June 19, 2010 at the St.Petersbourg International Economical Forum, Mr. Sergei Kirienko Director General of the State Corporation “Rosatom” and Mr. Henri Proglio, EDF Chairman and CEO, signed a Memorandum of understanding.

This agreement provides framework of collaboration in the fields of research and development, nuclear fuel, as well as cooperation on existing or currently under construction nuclear plants.

The Memorandum also sets basis for exchange of experience, and training including visits to industrial sites and facilities in both countries.

The companies will establish executive committees on each area of cooperation. The executive committees are working under the leadership and supervision of the Rosatom – EDF Strategic Committee.

CHANGER L'ENERGIE ENSEMBLE

About EDF Group

The EDF Group, one of the leaders in the energy market in Europe, is an integrated energy company active in all businesses: generation, transmission, distribution, energy supply and trading. The Group is the leading electricity producer in Europe. In France, it has mainly nuclear and hydraulic production facilities where 95% of the electricity output involves no CO2 emissions. EDF's transport and distribution subsidiaries in France operate 1,285,000 km of low and medium voltage overhead and underground electricity lines and around 100,000 km of high and very high voltage networks. The Group is involved in supplying energy and services to around 38 million customers around the world, including close to 28 million in France. The Group generated consolidated sales of €66.3 billion in 2009, of which 49% in Europe excluding France. EDF is listed on the Paris Stock Exchange and is a member of the CAC 40 index.

About Rosatom

The State Atomic Energy Corporation "Rosatom" (SC Rosatom) incorporates more than 240 enterprises, including all civil nuclear companies of Russia, nuclear weapons complex's facilities, nuclear and radiation safety complex' facilities, research organizations and the world's unique nuclear-propelled fleet. SC Rosatom is the largest generating company in Russia which produces more than 40% of electricity in the country's European part. SC Rosatom holds leading positions in the world market of nuclear technologies being the world's top first in simultaneous nuclear build; top second in uranium reserves, while providing 40% of the world uranium enrichment services and 17% of the world nuclear fuel market.
