

## 2<sup>nd</sup> quarter 2010 sales: up 15%

(€ millions) – IFRS – at 30 June	2010	2009	% change
1 <sup>st</sup> quarter	41.4	45.1	-8.4%
2 <sup>nd</sup> quarter	47.0	40.8	+15.0%
1 <sup>st</sup> half-year	88.4	85.9	+2.8%

### Sales recovery in 2<sup>nd</sup> quarter 2010

Over the 2<sup>nd</sup> quarter 2010, Radiall recorded sales of € 47 million, an increase of 15% as published compared to the second quarter 2009, up 11.4 % on constant foreign exchange.

Over the first half-year 2010 as a whole, sales grew by 2.8% to € 88.4 million. On constant foreign exchange, half-year sales growth was 2.3 %.

Over the second quarter 2010, all business sectors contributed to the Group's revenue income. Aeronautics were well oriented and benefited from the rollout of the B787 programme throughout the first half-year. The Defence and Space divisions, which remained buoyant over the second quarter, nonetheless reported a decline over the period due to unfavourable comparatives. The Industry and Automotive divisions confirmed their recovery, having recorded steady growth throughout the first half-year. Lastly, signs of recovery are perceived in the Telecom business.

### Outlook:

At end June 2010, Radiall was ahead of its progress plan, which targeted stable sales for 2010 compared to 2009. Even though the continuing recovery remains subject to uncertainties in the markets and the business environment, the change in business trend noted early in the year, in particular in the second quarter, should enable Radiall to achieve higher sales than last year. In this environment and the steps taken in 2009 to lower the breakeven point, the Group expects to report again a profit from recurring operations at end June 2010.

**Shareholders' agenda:** 1<sup>st</sup> September 2010: 2010 half-year results
