

Revenues for Fiscal Year 2009/2010: +7%

ST. CLOUD, France and Vienna, VA, July 22nd 2010 – Systar (ISIN: FR0000052854 - SAR), a leading provider of performance management software, today announced its revenues for fiscal year 2009/2010 ending June 30, 2010.

Consolidated revenues in Millions of Euros	2009/2010	2008/2009	Variation
1 st quarter	2.9	3.3	-11%
2 nd quarter	5.8	4.5	+29%
1st half	8.7	7.8	+11%
3 rd quarter	3.9	3.6	+10%
4 th quarter	6.5	6.6	-1%
2nd half	10.4	10.1	+2%
Fiscal Year Ending June 30	19.1	17.9	+7%

IFRS Standards

Consolidated revenues for the 4th quarter 2009/2010 (April to June 2010) reached 6.5 M€, down 1% compared to the same period of the previous fiscal year which constituted an unfavorable base of comparison due to the closing of a 2 M\$ license a year ago. During the second half, revenues grew 2% compared to the same period of the last fiscal year.

Consolidated revenues for fiscal year 2009/2010 increased 7% to 19.1 M€ compared to the previous fiscal year. License sales and recurring maintenance both increased 4% while accompanying services (training, consulting, and implementation assistance) increased 14%. The continued growth of services and maintenance highlights the strength of the installed base of Systar's solutions.

During the fiscal year, 34% of consolidated revenues came from licenses, 39% from recurring maintenance and 27% from accompanying services while the split was traditionally closer to 50%, 30% and 20% respectively.

This trend which has been observed since the beginning of the crisis demonstrates that customers, particularly in the banking sector continue to give priority to existing projects and allocate a lesser part of their budgets to new investments.

In geographic terms, 52% of this fiscal year's revenues came from France, 33% from Europe out of France and 15% from North America. Revenues declined markedly in North America (-24%) but increased 15% in Europe (+31% in EMEA out of France, and +6% in France).

Cash net of financial debts improved significantly during the fiscal year, from +1.7 M€ on June 30, 2009 to +2.9 M€ on June 30, 2010.

2009/2010 Revenues**

Perspectives

- Budget constraints resulting from the crisis continue to weigh on the customers' ability to invest in new projects and to slow down contracts closings, particularly in the banking sector.
- However, the widespread use of virtualized infrastructures and the transformation dynamics stemming from cloud computing create new complexities that customers must control, which in turn, generates an increased need for control and performance management that will support the adoption of Systar's solutions.
- In this context, Systar will continue to gradually and selectively increase its commercial and R&D investments, while respecting its profit margin improvement program.
- With positive net cash, substantial equity, financing in place and a strong proportion (66%) of revenues with high visibility, Systar benefits from a solid financial base to pursue its growth.

2009/2010 Income will be released on September 15th, 2010
