

Revenues First Quarter Fiscal Year 2010-2011 + 17% Growth

ST. CLOUD, France and Vienna, VA, October 21st, 2010 – Systar (ISIN: FR0000052854 - SAR), a leading provider of performance management software, announced its revenues for the first quarter of the financial year 2010-2011, ending 30th June 2011.

Fiscal year ending 30th June

Distribution of the revenue

Revenues grew 17% during the first quarter of fiscal year 2010/2011, a quarter which is traditionally less representative as it corresponds to the reduced activity of the summer months.

Revenues grew in all geographies: +8% in France, +11% in the United States and +43% in EMEA outside France.

Visibility remains below normal, in particular for the sales closing dates, and budget constraints continue to slow down customers' purchase decisions.

However, customers increasingly see the need to improve their control over their internal business processes and to overcome the growing complexities created by the virtualization of their infrastructures and by Cloud Computing, thereby contributing to a growing deal pipeline.

Revenues and results for the first half of fiscal year 2010-2011 will be released on February 15th, 2011.
