NEW YORK – November 2, 2010 – NYSE Euronext (NYX) today reported net income of \$128 million, or \$0.49 per diluted share for the third quarter of 2010, compared to net income of \$125 million, or \$0.48 per diluted share for the third quarter of 2009. Results for the third quarter of 2010 include \$25 million of pre-tax merger expenses and exit costs and a \$21 million deferred tax benefit related to the reduction of the UK corporate tax rate. Third quarter 2009 results include \$8 million of pre-tax merger expenses and exit costs and a \$4 million net gain from disposal activities. Excluding the impact of these items, net income in the third quarter of 2010 was \$121 million, or \$0.46 per diluted share, compared to \$138 million, or \$0.53 per diluted share, in the third quarter of 2009.

“In the third quarter, we continued to execute against our multi-year strategy despite challenging market conditions,” said Duncan L. Niederauer, CEO, NYSE Euronext. “We launched new data centers in the U.S. and Europe which will serve as the liquidity hubs of the future, we are establishing innovative clearing platforms across our markets and providing listed clients with new value-add services through the acquisition of Corporate Board Member. We are creating an unparalleled community, by operating the most important capital markets in the world, connecting customers across our broad distribution network, delivering innovative products and services and enabling customers to leverage our technology and scale to operate their businesses more effectively.”

⁴ Excludes merger expenses and exit costs, deferred tax benefit and net gains from disposal activities.

“Our results in the third quarter reflect the impact of dampened transaction revenue due to slow overall industry volumes,” commented Michael S. Geltzeiler, Group Executive Vice President and CFO, NYSE Euronext. “Despite lackluster near-term volume trends, we are focusing on those areas of our business model that are within our control. We are maintaining market share across our primary venues, we continue to develop additional cylinders of growth with new initiatives and our technology services business, we are continuing to reduce our fixed-cost base and are focused on better managing our capital for the benefit of our shareholders. On a constant dollar, constant portfolio basis, our fixed expenses were down \$26 million, or 6% compared to the third quarter of 2009 and we expect to be below the low-end of our full-year fixed cost range.”

THIRD QUARTER 2010 CONSOLIDATED RESULTS

Total revenues less transaction-based expenses (net revenue), which include Section 31 fees, liquidity payments and routing and clearing fees, was \$599 million in the third quarter of 2010, down \$22 million, or 4% compared to \$621 million in the third quarter of 2009. Third quarter 2010 net revenue compared to the third quarter of 2009 included a \$25 million negative impact attributable to foreign currency fluctuations. On a currency neutral basis, net revenue in the third quarter of 2010 would have been slightly above third quarter of 2009 levels. The decrease in net revenue compared to the third quarter of 2009 was primarily driven by a \$35 million, or 11% decrease in net transaction and clearing revenue, related to European cash and derivatives trading, partially offset by a \$23 million, or 39% increase in technology services revenue.

Fixed operating expenses, excluding merger expenses and exit costs, were \$419 million, compared to \$426 million in the third quarter of 2009. Excluding the impact of acquisitions, a \$13 million positive impact attributable to foreign currency fluctuations and investment in new businesses, fixed operating expenses were down \$26 million, or 6%, compared to the third quarter of 2009.

Full-year 2010 fixed operating expenses are now expected to be below the low-end of the currency adjusted full-year range of \$1,707 million and \$1,749 million. The currency adjusted full-year 2010 fixed operating expense range is based on current EUR/USD and GBP/USD currency rates, which derive full-year 2010 average currency rates of EUR/USD \$1.34 and GBP/USD \$1.55. The original full-year 2010 fixed operating expense range was \$1,723 million and \$1,768 million and was based on 2009 average foreign currency rates of EUR/USD \$1.39 and GBP/USD \$1.57.

Operating income, excluding merger expenses and exit costs, was \$180 million, down \$15 million, or 8% compared to the third quarter of 2009 and included a \$12 million negative impact attributable to foreign currency fluctuations. On a currency neutral basis, operating income in the third quarter of 2010 would have decreased 2% compared to the third quarter of 2009.

Adjusted EBITDA which excludes merger expenses and exit costs, was \$249 million, compared to \$261 million in the third quarter of 2009. Adjusted EBITDA margin was 42% in the third quarter of 2010, in-line with the third quarter of 2009.

Non-operating income for the third quarter of 2010 includes the impact of the investment in New York Portfolio Clearing (income from associates) and NYSE Liffe U.S. (net loss/income attributable to non-controlling interest) initiatives. Both New York Portfolio Clearing and NYSE Liffe U.S. are currently in a loss position.

The effective tax rate for the third quarter of 2010 was 24.2% compared to 21.7% in the third quarter of 2009. The effective tax rate in the third quarter of 2010 includes the impact of advance tax rulings following the adoption of favorable tax laws in the Netherlands, lowering the estimated full-year effective tax rate from 27.5% to 26.5% which added \$0.02 to third quarter 2010 diluted earnings per share. The effective tax rate in the third quarter of 2009 included the favorable impact of an effective tax rate true-up, which added \$0.03 to third quarter 2009 diluted earnings per share. The effective tax rate for the Company is projected to be 26.5% for the remainder of 2010.

The weighted average diluted shares outstanding in the third quarter of 2010 was 262 million shares, up from 260 million shares in the third quarter of 2009 and 261 million shares in the second quarter of 2010. The weighted average diluted shares outstanding are projected to be 262 million shares for the remainder of 2010.

At September 30, 2010, total debt declined \$0.2 billion from December 31, 2009 to \$2.5 billion and consists of \$2.1 billion in long-term debt and \$0.4 billion in short-term debt. Cash, cash equivalents, investments and other securities (including \$23 million related to Section 31 fees collected from market participants and due to the SEC) was \$0.4 billion and net debt was \$2.1 billion.

Headcount as of September 30, 2010 was 3,030 (including 34 staff from Corporate Board Member) down 10% from December 31, 2009 and down 11% from September 30, 2009.

The Board of Directors declared a cash dividend of \$0.30 per share for the fourth quarter of 2010. The fourth quarter 2010 dividend is payable December 31, 2010 to shareholders of record as of the close of business on December 15, 2010. The anticipated ex-date will be December 13, 2010.

THIRD QUARTER 2010 SEGMENT RESULTS

NYSE Euronext's reportable segments are focused on three global business units: Derivatives, Cash Trading and Listings and Information Services and Technology Solutions. The financial results for each reported segment are presented below.

DERIVATIVES

In the third quarter of 2010, the Derivatives segment represented 31% of net revenue and 43% of operating income for NYSE Euronext (excluding merger expenses and exit costs), down from 32% and 46%, respectively, in the third quarter of 2009. The table below summarizes our third quarter 2010 Derivatives segment results.

- Derivatives net revenue of \$188 million in the third quarter of 2010 decreased \$10 million, or 5% compared to the third quarter of 2009 and included a \$10 million negative impact from foreign currency fluctuations. These results were primarily driven by a \$15 million, or 10% decrease in European derivatives net transaction and clearing revenue, partially offset by a \$3 million, or 11% increase in U.S. options trading net transaction and clearing revenue. Derivatives net revenue decreased \$38 million, or 17% compared to the second quarter of 2010 and included a \$5 million positive impact from foreign currency. These results were primarily due to trading volume declines of 25% and 22% for European (excluding Bclear) and U.S. derivatives, respectively, from elevated second quarter 2010 levels. Adjusting for the impact of foreign currency fluctuations, Derivatives net revenue in the third quarter of 2010 would have been flat compared to the third quarter of 2009 and would have decreased 19% compared to the second quarter of 2010.

- European derivatives net transaction and clearing revenue of \$132 million in the third quarter of 2010 decreased \$15 million, or 10% compared to the third quarter of 2009 and included a \$9 million negative impact from foreign currency fluctuations. European derivatives trading volumes increased 1% in the third quarter of 2010 compared to the third quarter of 2009. The 10% decrease in European derivatives net transaction and clearing revenue compared to the third quarter of 2009 was primarily driven by an 11% decrease in the average net rate per contract (excluding Bclear) due to the impact of business mix and negative currency fluctuations. European derivatives net transaction and clearing revenue decreased \$29 million, or 18% compared to second quarter of 2010 and included a \$4 million positive impact from foreign currency fluctuations. These results were due to a 25% decline in trading volumes (excluding Bclear) for the period. Adjusting for the impact of foreign currency fluctuations, net transaction and clearing revenue would have decreased 4% from the third quarter of 2009 and would have decreased 20% from the second quarter of 2010.
- The average net rate per contract for European derivatives (excluding Bclear), including the impact of currency fluctuations, in the third quarter of 2010 was \$0.670 per contract, down from \$0.754 per contract in the third quarter of 2009, but up from \$0.643 per contract in the second quarter of 2010. On a currency neutral basis, using third quarter 2010 average GBP/USD currency rates, the average net rate per contract in the second quarter of 2010 was \$0.668 and the average net rate per contract in the third quarter of 2009 was \$0.713.
- U.S. equity options net transaction revenue of \$35 million in the third quarter of 2010 increased \$3 million, or 11% compared to the third quarter of 2009, but declined \$7 million, or 17% compared to the second quarter of 2010. These results were primarily driven by increases in market share which drove a 24% increase in NYSE Euronext U.S. equity options ADV to 3.2 million contracts, up from 2.6 million contracts in the prior year period, partially offset by a 10% decline in the average rate per contract. The decline in net transaction revenue compared to the second quarter of 2010 was driven by a 22% decline in trading volumes.
- The average net rate per contract for U.S. equity options in the third quarter of 2010 was \$0.171 per contract, down from \$0.191 per contract in the third quarter of 2009, but up slightly from the \$0.165 per contract recorded in the second quarter of 2010. The decrease in the average net rate per contract compared to the third quarter of 2009 was primarily driven by an increase in penny-pilot issues traded over NYSE Arca. Penny-pilot issues represented 83% of consolidated U.S. equity options trading volume in the third quarter of 2010, compared to 52% in the third quarter of 2009 and 74% in the second quarter of 2010.
- NYSE Euronext's U.S. equity options exchanges accounted for 26% of total consolidated U.S. equity options trading in the third quarter of 2010, up from 20% in the third quarter of 2009 and in-line with 26% in the second quarter of 2010.
- Operating income, excluding merger expenses and exit costs, in the third quarter of 2010 was \$93 million, an 11% decrease compared to \$104 million in the third quarter of 2009 and a \$47 million, or 34% decrease from the second quarter of 2010.
- Operating margin, excluding merger expenses and exit costs, was 49%, compared to 53% in the third quarter of 2009 and 62% in the second quarter of 2010. Adjusted EBITDA margin was 57%, compared to 62% in the third quarter of 2009 and 68% in the second quarter of 2010.
- The CFTC Derivatives Clearing Organization (DCO) filing for New York Portfolio Clearing (NYPC), the innovative joint venture of the Depository Trust & Clearing Corporation (DTCC) and NYSE Euronext, has been submitted and is in the 90-day comment period as of November 1, 2010. NYPC is expected to deliver unique operational and capital efficiencies to the market by evaluating a clearing member's risk on a portfolio basis across both cash bonds and derivatives. NYSE Euronext expects the joint venture to launch in the first quarter of 2011, pending regulatory approval.
- NYSE Liffe U.S., the U.S. futures exchange of NYSE Euronext announced that it will coordinate with its global customer base to complete the orderly transition of trading and open interest of all existing MSCI-linked stock index futures in the U.S. to its platform no later than June 17, 2011. MSCI announced that other contracts listed in the U.S. under its existing licenses are expected to cease trading with the June 2011 expiry.

CASH TRADING AND LISTINGS

In the third quarter of 2010, the Cash Trading and Listings segment represented 50% of net revenue and 46% of operating income for NYSE Euronext (excluding merger expenses and exit costs), down from 53% and 49%, respectively, in the third quarter of 2009. The table below summarizes our third quarter 2010 Cash Trading and Listings segment results.

- Cash Trading and Listings net revenue was \$298 million in the third quarter of 2010, a decrease of \$28 million, or 9% compared to the third quarter of 2009 and included a \$10 million negative impact from foreign currency fluctuations. These results were primarily driven by a \$25 million, or 19% decline in net transaction revenue, principally due to pricing reductions in European cash in 2009 and lower trading volumes in U.S. cash trading. Net revenue decreased \$23 million, or 7% compared to the second quarter of 2010 and included a \$1 million positive impact from currency fluctuations. These results were primarily due to trading volume declines of 21% and 25%, respectively, for European and U.S. cash equities trading from elevated second quarter 2010 levels. Adjusting for the impact of foreign currency fluctuations, Cash Trading and Listings net revenue in the third quarter of 2010 would have decreased 6% compared to the third quarter of 2009 and would have decreased 7% compared to the second quarter of 2010.
- European cash products net transaction revenue of \$59 million in the third quarter of 2010 decreased \$19 million, or 24% compared to the third quarter of 2009 and included a \$6 million negative impact from currency fluctuations. The decline in European cash net transaction revenue compared to the third quarter of 2009 was driven primarily by 2009 pricing changes and the negative impact from currency fluctuations. Net transaction revenue decreased \$12 million, or 17% from the second quarter of 2010 and included a \$1 million positive impact of currency fluctuations. The decline in net transaction and clearing revenue compared to the second quarter of 2010 was primarily due to a 21% decline in trading volumes for the period. Adjusting for the impact of foreign currency fluctuations, net transaction revenue in the third quarter of 2010 would have decreased 17% compared to the third quarter of 2009 and would have decreased 18% compared to the second quarter of 2010.
- Average net revenue per transaction for European cash products, including the impact of currency fluctuations, in the third quarter of 2010 was \$0.655 per transaction, down from \$0.896 per transaction in the third quarter of 2009, but up slightly from \$0.654 per transaction in the second quarter of 2010. On a currency neutral basis, using third quarter of 2010 average EUR/USD currency rates, the average net revenue per transaction in the second quarter of 2010 was \$0.665 and the average net revenue per transaction in the third quarter of 2009 was \$0.808.
- European cash market share (value traded) in our four core markets was 73% in the third quarter of 2010, down from 77% in the third quarter of 2009 and down from 74% in the second quarter of 2010.
- SmartPool, the London-based dark pool owned by NYSE Euronext with BNP Paribas SA, HSBC Holdings Plc and JPMorgan Chase & Co., experienced strong growth in the third quarter of 2010 with the number of trades increasing to 855,770 from 3,141 in the third quarter of 2009 and 541,743 in the second quarter of 2010.

- U.S. cash products net transaction revenue of \$48 million decreased \$6 million, or 11% from \$54 million in the third quarter of 2009 and decreased \$12 million, or 20% from the second quarter of 2010. The decline in U.S. cash net transaction revenue compared to the third quarter of 2009 was primarily driven by an 18% decline in U.S. cash trading volumes. The decrease in U.S. cash products net transaction revenue compared to the second quarter of 2010 was primarily driven by a 25% decrease in U.S. cash trading volume. Total U.S. consolidated cash equities average daily trading volume in the third quarter of 2010 was 7.6 billion shares, the lowest quarterly average daily trading volume since the second quarter of 2008.
- Average net revenue per 100 shares handled for U.S. cash products in the third quarter of 2010 was \$0.0313, compared to \$0.0288 in the third quarter of 2009 and \$0.0296 in the second quarter of 2010. The increase in the net rate per 100 shares handled from the third quarter of 2009 was driven by accretive pricing changes on NYSE and NYSE Arca. The increase compared to the second quarter of 2010 was due to accretive pricing changes on NYSE and NYSE Arca and fewer customers reaching volume tiers on NYSE Arca.
- Market share increased across all NYSE Euronext's U.S. cash equities trading venues in the third quarter of 2010 compared to both the third quarter of 2009 and the second quarter of 2010. U.S. Tape A matched market share was 38%, up from 35% in the third quarter of 2009 and up from 37% in the second quarter of 2010. U.S. Tape B matched market share was 25%, up from 23% in the third quarter of 2009 and up from 24% in the second quarter of 2010. U.S. Tape C matched market shares was 14%, up from 13% in the third quarter of 2009 and up from 12% in the second quarter of 2010.
- Operating income, excluding merger expenses and exit costs, in the third quarter of 2010 was \$101 million, a 9% decrease compared to \$111 million in the third quarter of 2009, and a 20% decrease from the second quarter of 2010.
- Operating margin, excluding merger expenses and exit costs, was 34%, flat compared to the third quarter of 2009 and down from 39% in the second quarter of 2010. Adjusted EBITDA margin was 49% compared to 47% in the third quarter of 2009 and 53% in the second quarter of 2010.
- NYSE Euronext's global listings franchise experienced increased momentum year-to-date September 2010. A total of 13 companies for a combined market capitalization of over \$40 billion have transferred to NYSE markets from other exchanges year-to-date. Recent transfers include Corporate Executive Board, United Continental Holdings, GFI Group and Compass Diversified Holdings.
- A total of 78 IPOs listed on NYSE Euronext markets for total proceeds of \$17.4 billion year-to-date September 2010, compared to a total of 32 IPOs for \$8.3 billion during the same period last year. Total proceeds raised year-to-date September 2010 included 9 Chinese companies totaling \$0.9 billion. The \$17.4 billion raised on NYSE Euronext markets year-to-date September 2010 was nearly 3 times the amount raised by any other U.S. exchange during the period, according to Dealogic.
- Venture Capital and Technology-related IPOs continue to be an area of strength for NYSE Euronext and the pipeline for the remainder of the year is strong. Venture Capital and Technology-related IPOs year-to-date include Sensata Technologies, MaxLinear, Calix, Higher One Holdings, Fabrinet, RealD, Green Dot and Envestnet.
- NYSE Euronext is the leader year-to-date September 2010 for global secondaries (proceeds) with a total of 370 for total proceeds of \$147 billion, including the largest secondary, Petrobras which raised \$70 billion.
- NYSE Euronext acquired Corporate Board Member, publisher of Corporate Board Member magazine and a leading provider of interactive education and thought leadership for directors and executive officers of publicly traded companies.

INFORMATION SERVICES AND TECHNOLOGY SOLUTIONS

In the third quarter of 2010, the Information Services and Technology Solutions segment represented 19% of net revenue and 11% of operating income for NYSE Euronext (excluding merger expenses and exit costs), up from 15% and 5%, respectively, in the third quarter of 2009. - Information Services and Technology Solutions revenue was \$113 million in the third quarter of 2010, an increase of \$19 million, or 20% compared to the third quarter of 2009 and included a \$5 million negative impact from foreign currency fluctuations. The increase in revenue compared to the third quarter of 2009 was primarily driven by the impact of the NYFIX acquisition and an increase in global SFTI and software sales revenue. Revenue increased \$6 million, or 6% compared to the second quarter of 2010 and included a \$1 million positive impact from foreign currency fluctuations. The increase in revenue compared to the second quarter of 2010 was primarily driven by increases in global SFTI and software sales revenue. Adjusting for the impact of foreign currency fluctuations, Information Services and Technology Solutions revenue in the third quarter of 2010 would have increased 26% compared to the third quarter of 2009 and would have increased 5% compared to the second quarter of 2010.
- Operating income, excluding merger expenses and exit costs, in the third quarter of 2010 was \$24 million compared to \$12 million in the third quarter of 2009 and \$20 million in the second quarter of 2010.
- Operating margin, excluding merger expenses and exit costs, was 21%, compared to 13% in the third quarter of 2009 and 19% in the second quarter of 2010. Adjusted EBITDA margin was 30%, compared to 19% in the third quarter of 2009 and 26% in the second quarter of 2010.
- NYSE Euronext launched two new state-of-the-art data centers which will serve as the liquidity hubs of the future. With the launch of the new data centers, the Company will begin the expansion of its co-location business. In the U.S. approximately 97% of the pod is sold out, and in Europe the roll-out of the new cabinets are progressing on schedule.
- The Tokyo Stock Exchange Inc. selected NYSE Euronext to build and support its new futures trading platform and the Philippine Stock Exchange successfully migrated to NYSE Technologies trading platform.
- NYSE Euronext opened the new NYSE Technologies facility in Belfast, Ireland and serves as a state-of-the-art software development facility.

CORPORATE AND ELIMINATIONS

Summarized below are the results for Corporate and Eliminations. Corporate and Eliminations includes unallocated costs primarily related to corporate governance, public company expenses, one-time integration costs related to the new data centers, as well as intercompany eliminations of revenues and expenses.

Non-GAAP Financial Measures

To supplement NYSE Euronext's consolidated financial statements prepared in accordance with GAAP and to better reflect period-over-period comparisons, NYSE Euronext uses non-GAAP financial measures of performance, financial position, or cash flows that either exclude or include amounts that are not normally excluded or included in the most directly comparable measure, calculated and presented in accordance with GAAP. Non-GAAP financial measures do not replace and are not superior to the presentation of GAAP financial results, but are provided to (i) present the effects of certain merger expenses, exit costs and other special items, and (ii) improve overall understanding of NYSE Euronext's current financial performance and its prospects for the future. Specifically, NYSE Euronext believes the non-GAAP financial results provide useful information to both management and investors regarding certain additional financial and business trends relating to financial condition and operating results. In addition, management uses these measures for reviewing financial results and evaluating financial performance. The non-GAAP adjustments for all periods presented are based upon information and assumptions available as of the date of this release.

⁴ "Tape A" represents NYSE listed securities, "Tape B" represents NYSE Arca and NYSE Amex listed securities, and "Tape C" represents Nasdaq listed securities. Per Regulation NMS, as of April 1, 2007, share of revenues is derived through a formula based on 25% share of trading, 25% share of value traded, and 50% share of quoting, as reported to the consolidated tape. Prior to April 1, 2007, share of revenues for Tape A and B was derived based on number of trades reported to the consolidated tape, and share of revenue for Tape C was derived based on an average of share of trades and share of volume reported to the consolidated tape. The consolidated tape refers to the collection and dissemination of market data that multiple markets make available on a consolidated basis. Share figures exclude transactions reported to the FINRA/NYSE Trade Reporting Facility.
