In the 3rd quarter of 2011, SYNERGIE recorded a rise in revenue of + 10.8% (+ 10.1% on a like-for-like basis) compared with a very dynamic 3rd quarter 2010 which had leapt by + 31.7%.

Over the first 9 months of 2011, business growth reached + 20 %, bearing witness to the strengthening of the Group's positions in its markets.

On the international scene, Southern Europe is performing particularly well with continued strong revenue increases in Italy, Spain and Portugal. Northern Europe is welcoming the first contribution from GMW, a strategic acquisition made on 30th August last in Germany, in one of the country's most dynamic industrial regions. This operation will enable SYNERGIE to develop in the top European employment market buoyed by sound economic growth.

Favourable outlook

Over the first two weeks of October, the better than 10% increase in staff assigned by the Group forecasts an annual revenue rise of at least 15%.

This performance once again demonstrates the relevance of SYNERGIE's business model which remains alert to opportunities for external growth in order to join the European TOP 5 between now and the end of 2012.
