

Assystem Renews E2S referencing from EADS

Paris, June 11 2012, 08:30am - Assystem, an international engineering and innovation consultancy group, today announces that it has been re-selected by EADS as an E2S preferred supplier for engineering services.

On the 11th of May, EADS published its global referencing for 21 engineering firms for the next two years. Assystem is ranked among the top five.

"We are proud to be referenced by EADS after a selection that underscores the high technology quality and involvement of our teams. We are grateful to our customer for their renewed confidence in us, and we are engaged in a process of continuous improvement that benefits both parties," said David Bradley, member of the Assystem Management Board, in charge of the Aerospace Engineering division.

Assystem is an engineering partner of EADS since its inception. The company's aerospace engineering teams in Germany, France, Spain the UK and India have worked on the challenges of the A380, the A400M, the A350 XWB and today the A320neo. Assystem is also helping develop programs for Eurocopter, EADS-Astrium and Cassidian. It also operates on simulation, testing and validation and has developed specific expertise in inspection and quality control for aerospace production lines by designing dedicated training solutions. The company has nearly 3,000 experts in the air defence sector.

Assystem is an international Engineering and Innovation Consultancy. As a key participant in the industry for more than 45 years, Assystem supports its customers in developing their products and managing their capital expenditure throughout the product life cycle. Assystem employs more than 10,200 people worldwide and reported nearly €850 million in pro forma revenue in 2011. The Company is listed on NYSE Euronext Paris – Compartment B - Code ISIN: FR0000074148 – ASY. For more information: www.assystem.com
