Management acquires indirect stake in Altran's capital

The members of Altran Technologies' executive committee have teamed up, directly and indirectly, with Altimus, a French Simplified Joint-Stock Company (*Société par actions simplifiée*, S.A.S.), which they control and which is managed by Philippe Salle, for the purposes of acquiring a 2.4% minority stake in the capital of Altrafin Participations, Altran's reference shareholder, controlled by the Apax funds.

This operation underscores the executive committee's confidence in, and commitment with respect to the Group's growth strategy.

To this end, the members of Altran Technologies' executive committee have informed the Autorité des Marchés Financiers (AMF) of their acting in concert with Altrafin Participations which already acts in concert with the two founding members of the Group, Messrs Hubert Martigny and Alexis Kniazeff (and family). Shareholders with stakes in these concerts jointly own, as of 4 July 2013, 23.9% of the company's capital and 27.6% of Altran Technologies' voting rights.
