Acquisition

Altran announces the acquisition of Scalae AB, a specialist of innovative product development in Sweden

Altran announces the acquisition of Scalae AB, a 10-year innovative product development company in the fields of industrial design, mechanical engineering, electronic production and outsourced development projects. The acquisition of Scalae AB will extend Altran's existing offer, footprint and client base in Sweden.

With over 40 people, Scalae combines technical knowledge, creative industrial design and a constant focus on end-user needs to enable effective and innovative product development. Scalae possesses many years of experience within complete product development with manifold successful market introductions of both small series and mass-produced products.

Scalae's portfolio of services includes optimised product development, integrated industrial design, commercial efficiency, advanced mounting and quality assurance.

Commenting on the acquisition, Philippe Salle, Chairman and Chief Executive of the Altran group, said *"Scalae perfectly fits with Altran's mission to assist companies in their efforts to create and develop new products and to offer services in technology critical issues. This acquisition will enable Altran to further develop its expertise in mechanical engineering and electronics in Sweden but also to reach new clients with additional skills. Scalae complements the Group's expertise in product development already presented in the United Kingdom, the United States and recently in Singapore under its subsidiary Cambridge Consultants."*

There are no further conditions precedent to the acquisition, which is to be finalised in the beginning of January 2014.

About Altran

As global leader in innovation and high-tech engineering consulting, Altran accompanies its clients in the creation and development of their new products and services. Altran's Innovation Makers¹ have been providing services for thirty years to key players in the Aerospace, Automotive, Energy, Railways, Finance, Healthcare and Telecoms sectors. Covering every stage of project development from strategic planning to manufacturing, Altran's offers capitalise on the Group's technological know-how in four key areas: Lifecycle Experience, Mechanical Engineering, Intelligent Systems and Information Systems.

In 2012, the Group generated revenues of €1,456m. Altran now has a staff of 20,000 employees in more than 20 countries.
